The object gaze has received, as it does in Jacques Lacan's work, more commentary than voice. Yet recently voice has garnered interest from multiple disciplines. The book intervenes in the Slovenian school's commentary of the 'object voice' in terms of two questions: audition and corporeality. This intervention synthesizes psychoanalysis with recent theorizing of the horror of philosophy. In this intervention the object a voice is argued to resonate in lacunae – epistemological voids that evoke horror in the subject. Biological and evolutionary perspectives on voice, genre horror film and literature, music videos, close readings of Freudian and Lacanian case studies and textual analysis of ancient philosophy texts all contribute to an elucidation of the horrors of the object a voice: Vox-Exo.

An unparalleled visionary, his work continues to influence contemporary cinema and visual culture. This book delves into the complexities of his work and examines the wide range of topics and the multiple interpretations that his films inspire. The eighteen chapters in this book use a wide range of methodologies and explore new trends of research in film studies, providing a series of unique and novel perspectives on all of Kubrick's thirteen feature films, from *Fear and Desire* (1953) to *Eyes Wide Shut* (1999), as well as his work on A.I. Artificial Intelligence (Steven Spielberg, 2001).

the shining by stephen king pdf: *The Quest for the Dark Tower* Alissa Burger, 2021-04-09 A sprawling epic that encompasses many worlds, parallel and alternate timelines, and the echoes between these disconnects, Stephen King's Dark Tower series spans the entirety of King's career, from *The Gunslinger* (limited edition 1982; revised in 2003) to *The Wind Through the Keyhole* (2012). The series has two distinctive characteristics: its genre hybridity and its interconnection with the larger canon of King's work. The Dark Tower series engages with a number of distinct and at times dissonant genre traditions, including those of Arthurian legend, fairy tales, the fantasy epic, the Western, and horror. The Dark Tower series is also significant in its cross-references to King's other works, ranging from overt connections like characters or places to more subtle allusions, like the sigil of the Dark Tower's Crimson King appearing in the graffiti of other realities. This book examines these connections and genre influences to consider how King negotiates and transforms these elements, why they matter, and the impact they have on one another and on King's work as a whole.

the shining by stephen king pdf: The Cabin in the Woods Susanne Kord, 2023-04-17 *The Cabin in the Woods* (2012), directed by Drew Goddard and co-authored by Goddard and Joss Whedon of Buffy-fame, was famously described by co-author Whedon as his 'loving hate letter' to horror. Interviews with Whedon reveal that his struggles with modern cinematic horror are not merely emotional, but intensely philosophical. This book is the first to read *Cabin* as a philosophical metatext that asks what horror offers audiences and why audiences accept. Like any good philosophy, the film offers no answers but raises questions: what 'choices' are possible in a pre-determined universe? How do we, the audience, see the victims of violence, and with what ethical consequences? And finally, the most fraught question of all: why do we keep looking?

the shining by stephen king pdf: Shadows of Fatherhood, Jung, and Film Mark Holmwood, 2024-08-23 Every picture tells a story, and stories have the power to educate. Looking at two key Jungian archetypes - the father and the shadow - from a challenging perspective, this book investigates the negative, shadowy side of fatherhood and its detrimental effect on children by presenting a collection of stories from all over the world. Blurring the line between fiction and fact, art and academic theory, the book travels across a difficult psychosocial landscape, discussing family life, mental health, and criminality. Mark Holmwood highlights the educational value of these stories whilst exploring the father-child dynamic, adverse childhood experiences, father hunger, asymmetrical power relations, psychological manipulation, narcissism, domestic violence, sexual abuse, patricide, and filicide. Jungian and post-Jungian viewpoints on the bond between fathers and their children are woven into a bigger, interconnected narrative which invites the readers to re-think clinical, sociological, and mythological connections through the lens of modern masculinity and men's studies. Discussing five different types of negative fathers, the book presents their children's struggles and underlines their resilience at the same time, emphasising assertion, challenge, questioning, and if necessary, acceptance, all being a part of the complex and transformative psychological process called individuation. Written with a clear and direct style, *Shadows of Fatherhood, Jung, and Film* will be of interest to mental health professionals, Jungian scholars, students, teachers and researchers in social sciences, humanities, and the arts, as well as general readers with a distinctive interest in men's studies, father-child relations, and cinema.
