The AC-130 Gunship was quickly developed in 1968 to provide fire support for ground forces in Vietnam. Twenty-eight C-130 cargo aircraft were converted into AC-130s for night attack operations. The AC-130 was crude, ugly, ad hoc, and detested by many within the USAF...but it worked, and it worked well. Likewise, AC-130 crews were deemed unruly "biker gangs," but performed magnificently in every major US military operation from 1976 to 1995. Most of these combat operations were cloaked in secrecy, but records once classified for up to twenty years have now been opened. Based on this newly declassified information and hundreds of interviews with SOF veterans, Ghostriders 1976-1995 is the first authoritative historical account of the AC-130 operations, written by an AC-130 Aerial Gunner who participated in every AC-130 combat operation from 1980 through 1994.

the story of hour pdf: **The Hour of Fate** Susan Berfield, 2020-05-05 A riveting narrative of Wall Street buccaneering, political intrigue, and two of American history's most colossal characters, struggling for mastery in an era of social upheaval and rampant inequality. It seemed like no force in the world could slow J. P. Morgan's drive to power. In the summer of 1901, the financier was assembling his next mega-deal: Northern Securities, an enterprise that would affirm his dominance in America's most important industry-the railroads. Then, a bullet from an anarchist's gun put an end to the business-friendly presidency of William McKinley. A new chief executive bounded into office: Theodore Roosevelt. He was convinced that as big business got bigger, the government had to check the influence of the wealthiest or the country would inch ever closer to collapse. By March 1902, battle lines were drawn: the government sued Northern Securities for antitrust violations. But as the case ramped up, the coal miners' union went on strike and the anthracite pits that fueled Morgan's trains and heated the homes of Roosevelt's citizens went silent. With millions of dollars on the line, winter bearing down, and revolution in the air, it was a crisis that neither man alone could solve. Richly detailed and propulsively told, *The Hour of Fate* is the gripping story of a banker and a president thrown together in the crucible of national emergency even as they fought in court. The outcome of the strike and the case would change the course of our history. Today, as the country again asks whether saving democracy means taming capital, the lessons of Roosevelt and Morgan's time are more urgent than ever. A NUANCED AND MUCH-NEEDED REPORT FROM THE GROUND ON TAMIL NADU, AND INDEED INDIA'S, ENDANGERED LIVELIHOODS. In a rapidly urbanising nation, rural India is being erased from the popular imagination. Through her five years of travelling across the villages of Tamil Nadu, Aparna Karthikeyan gets to know men and women who do exceptional—yet perfectly ordinary—things to earn a living. She documents, through ten of these stories, the transformations, aspirations and disruptions of the last twenty-five years. The people she meets force these questions of her, and her reader: What is the culture we seek to preserve? What will become of food security without farmers? How can 'development' exclude 833 million people? Including interviews with journalist P. Sainath, musician T.M. Krishna and writer Bama, among others, *Nine Rupees an Hour* is a critical portrayal of the drastic and systematic erosion of traditional livelihoods. 'These engaging narratives unravel a peoples' perspective of work and life, where creative beauty and human dignity merge to matter, even if their worth in market-obsessed economics is merely nine rupees an hour. Evocative and relevant, they jostle our comfort. Statistics and economic analyses of wages and work, juxtaposed with the lives people lead, help us understand the situation on the ground. A book all of us must read.' —Aruna Roy, Social activist 'Sustainable livelihoods provide the foundation for a happy life.
