the waves virginia woolf pdf: Virginia Woolf and the Power of Story Linda Nicole Blair, 2017-03-05 From novels to films, our everyday lives are filled with stories that comfort and connect us and enable new ways of thinking. One of the most innovative writers in modern history, Virginia Woolf, changed the landscape of fiction and challenged our notions of what it means to be human. Her novels invite readers to envision a world in which stories have the power to effect positive change. This book explores the phenomenon of Story as practiced by Woolf, interpreting her work in the context of literary Darwinism--a critical approach focusing on patterns of innate human behavior.

the waves virginia woolf pdf: Phenomenology and Cultural Difference in High Modernism Maria-Ana Tupan, 2023-05-16 Born at the intersection of literary analysis and cultural history, the present book collects evidence in support of the idea that, far from being decadent, in the sense of perverse pursuit of gratuitous refinement and aesthetic relief from historical apathy, the art at the turn of the twentieth century was energised by a desire for meaningful form, grounded in current epistemology, especially of the science maîtresse of the time, psychology, and other kindred disciplines - psychological phenomenology and phenomenological existentialism. The circle of influencers has been broadened to include figures of the latter half of the nineteenth century and the beginning of the twentieth, such as Washington Allston, H. L. Mansel, Wilhelm Wundt, Alexander Bain, Alfred Binet, Alfred Adler, and Sándor Ferenczi, whose shadows are shown to be looming behind modernist texts by T. S. Eliot, James Joyce, Virginia Woolf, Thomas Wolfe, Wallace Stevens, T. E. Hulme, Flann O'Brien, Mircea Eliade, amongst others. A less-discussed subject, literary genre in modernism, is redefined in light of psychology-based modernist aesthetics.

the waves virginia woolf pdf: *The Hysteric* Eleanor Bowen, Laura González, 2023-04-01 Examining historical, clinical, and artistic material, in both written and visual form, this book traces the figure of the contemporary hysteric as she rebels against the impossible demands made upon her. Exploring five traits that commonly characterise the hysteric as an archetype – a specific body, mimetic abilities, a shroud of mystery, a propensity to disappear, and a particular relationship to voice – the authors shed light on what it means to be hysterical, as a form of rebellion and resistance. This is important reading for scholars of sociology, gender studies, cultural studies, and visual studies with interests in psychoanalysis, art, and the characterisation of mental illness.

the waves virginia woolf pdf: *Virginia Woolf and the Age of Listening | Virginia Woolf à l'ère de l'écoute* Adèle Cassigneul, Anne-Marie Smith-Di Biasio, 2025-04-24 Listening was the spirit of the age, as the invention of psychoanalysis and of radio marked the turn of the twentieth-century. Virginia Woolf and the Age of Listening brings together contributions which tune into that acoustic quality at once present in Woolf's time, in her texts and in the readings which here echo those very listening techniques. Indeed, the listening mind as a reading surface for the receptivity and reconstruction of sound waves embodies a shift which informs the thinking of many chapters in this volume. In their attention to listeners in the text and to those who make up the work of reception, in both English and French these readings consider Woolf's oeuvre as an echo chamber reverberating with intertextual echoes in a multi-layered representational network. They form a constellation of answers to the call of the Age of Listening.

the waves virginia woolf pdf: *Modernism's Inhuman Worlds* Rasheed Tazudeen, 2024-08-15 Modernism's Inhuman Worlds explores the centrality of ecological precarity, species indeterminacy, planetary change, and the specter of extinction to modernist and contemporary metamodernist literatures. Modernist ecologies, Rasheed Tazudeen argues, emerge in response to the enigma of how to imagine inhuman being—including soils, forests, oceans, and the earth itself—through languages and epistemologies that have only ever been humanist. How might (meta)modernist aesthetics help us to imagine (with) inhuman worlds, including the worlds still to be made on the other side of mass extinction? Through innovative readings of canonical and emergent modernist and metamodernist works, Tazudeen theorizes inhuman modernism as a call toward further receptivity to the worlds, beings, and relations that tend to go unthought within Western humanist epistemologies. Modernist engagements with the figures of enigma, riddle, and metaphor, according to the book's central argument, offer a means toward what Franz Kafka calls an otherwise speaking, based on language's obliqueness to inhuman and planetary being. Drawing on ecocriticism, decolonial and feminist science studies, postcolonial theory, inhuman geography, and sound studies, Tazudeen analyzes an inhuman modernist lineage—spanning from Darwin, Carroll, and Flaubert, through Joyce, Kafka, and Woolf, to contemporary poetic works—as both part of a collaborative

rethinking of modernism's planetary and inhuman aesthetics, as well as occasions for imagining new modes of livingness for the extinctions to come.

the waves virginia woolf pdf: Woolf: A Guide for the Perplexed Kathryn Simpson, 2016-02-25 Virginia Woolf is one of the best-known and most influential modernist writers; an iconic figure, her image and reference to her work and life appear in the most varied of cultural sites. Her writing is, however, in many ways kaleidoscopic and has given rise to a diverse and, sometimes, conflicting body of critical work. Whilst Woolf envisaged that her readers could be 'fellow-worker[s]' in the creative process, there is much to perplex any reader approaching her writing, especially for the first time. Drawing on some of the main critical debates and on Woolf's non-fictional writings, this guide untangles some of the difficulties and perplexities that can prove a barrier to understanding of Woolf's writing. These include aspects of the process of writing (such as narrative techniques, formal structures, characterisation), as well as the thematic concerns so central to Woolf's writing, the cultural context in which it emerged and to recent criticism, including representations of gender and sexuality, class and race.
