a life ashore free pdf: True Tales of Life & Death at Fort Adams Kathleen Troost-Cramer, 2013-06-25 The story of a historic Newport, Rhode Island, landmark shadowed by tragedy. For 150 years, Fort Adams guarded the strategic entrance to Narragansett Bay and Newport Harbor. It was the largest coastal fortification in the United States, and though the site never saw a battle, its history is shadowed with dark tragedy. The fort witnessed its first death in 1819 when Private William G. Cornell shot Private William Kane point-blank and without remorse over an unknown argument. Unfortunately, more tragedy would follow. In 1871, twenty-eight-year-old George F. Drake slit his own throat after his sweetheart ended their relationship. And in 1879, Private Franz Koppe was mysteriously attacked, later dying of his injuries. The Spanish influenza arrived at Fort Adams in 1918, killing five soldiers in one month. Through these stories of life and death, author Kathleen Troost-Cramer traces the history of this national landmark. Includes maps and photos

a life ashore free pdf: Life at Sea Monique Layton, 2017 In *Life at Sea*, anthropologist Monique Layton draws on her experiences on modern cruise ships to examine the evolution of sailing from the Age of Exploration to the Age of Tourism. Using historical records and the reports of people who once went to sea through necessity, curiosity, or adventure, she shows the common events that have shaped their voyages and the ingenuity, courage, and determination that characterize mankind's connection with the all-surrounding sea. The book's topics range from the dependence on the wind and manpower through the invention of devices to determine location at sea to modern maritime technology, from the devastation of scurvy and starvation on early ships of exploration and trade to the luxuries of omnipresent food, on-board medical treatment, and professional entertainment available on behemoth cruise ships. The book also delves into the deeper meaning of seafarers' rituals and their harsh lives with severe discipline and few rewards. These aspects along with the horrors of the slave trade and naval warfare, the harrowing crossings of emigrants and convicts, the ambiguities of piracy, and economics of global trade all show the contradictory elements that have consistently shaped travel by sea....

Focusing on the European Migration Crisis of 2015-2022 to address the reasons why governments do this, William Plowright discusses the strategies employed that prevent suffering people from receiving help. The European Migration Crisis motivated people around the world to offer assistance to needy refugees and migrants across Europe, the Mediterranean, and North Africa. Both large and small organizations rushed to bring food, medical care, and rescue to those stranded at sea. However, many European governments sought to prevent humanitarian assistance and deny safe haven to the desperate. Boats filled with those rescued were blocked from harbors, activists were arrested, and staff were threatened; some faced violence. The War on Rescue adds to social science understanding of and explanations for humanitarian assistance and the reasons why governments obstruct rescue efforts.

a life ashore free pdf: Driven Out Jean Pfaelzer, 2007-05-29 A NEW YORK TIMES NOTABLE BOOK The brutal and systematic “ethnic cleansing” of Chinese Americans in California and the Pacific Northwest in the second half of the nineteenth century is a shocking-and virtually unexplored-chapter of American history. *Driven Out* unearths this forgotten episode in our nation’s past. Drawing on years of groundbreaking research, Jean Pfaelzer reveals how, beginning in 1848, lawless citizens and duplicitous politicians purged dozens of communities of thousands of Chinese residents-and how the victims bravely fought back. In town after town, as races and classes were pitted against one another in the raw and anarchistic West, Chinese miners and merchants, lumberjacks and field workers, prostitutes and merchants’ wives, were gathered up at gunpoint and marched out of town, sometimes thrown into railroad cars along the very tracks they had built. Here, in vivid detail, are unforgettable incidents such as the torching of the Chinatown in Antioch, California, after Chinese prostitutes were accused of giving seven young men syphilis, and a series of lynchings in Los Angeles bizarrely provoked by a Chinese wedding. From the port of Seattle to the mining towns in California’s Siskiyou Mountains to “Nigger Alley” in Los Angeles, the first Chinese Americans were hanged, purged, and banished. Chinatowns across the West were burned to the ground. But the Chinese fought back: They filed the first lawsuits for reparations in the United States, sued for the restoration of their property, prosecuted white vigilantes, demanded the right to own land, and, years before *Brown v. Board of Education*, won access to public education for their children. Chinese Americans organized strikes and vegetable boycotts in order to starve out towns that tried to expel them. They ordered arms from China and, with Winchester rifles and Colt revolvers, defended themselves. In 1893, more than 100,000 Chinese Americans refused the government’s order to wear photo identity cards to prove their legal status-the largest mass civil disobedience in United States history to that point. *Driven Out* features riveting characters, both heroic and villainous, white and Asian. Charles McGlashen, a newspaper editor, spearheaded a shift in the tactics of persecution, from brutality to legal boycotts of the Chinese, in order to mount a run for governor of California. Fred Bee, a creator of the Pony Express, became the Chinese consul and one of the few attorneys willing to defend the Chinese. Lum May, a dry goods store owner, saw his wife dragged from their home and driven insane. President Grover Cleveland, hoping that China’s 400,000 subjects would buy the United States out of its economic crisis, persuaded China to abandon the overseas Chinese in return for a trade treaty. Quen Hing Tong, a merchant, sought an injunction against the city of San Jose in an important precursor to today’s suits against racial profiling and police brutality. In *Driven Out*, Jean Pfaelzer sheds a harsh light on America’s past. This is a story of hitherto unknown racial pogroms, purges, roundups, and brutal terror, but also a record of valiant resistance and community. This deeply resonant and eye-opening work documents a significant and disturbing episode in American history.

a life ashore free pdf: *From Here to Equality* William A. Darity Jr., A. Kirsten Mullen, 2020-03-03 Racism and discrimination have choked economic opportunity for African Americans at nearly every turn. At several historic moments, the trajectory of racial inequality could have been altered dramatically. Perhaps no moment was more opportune than the early days of Reconstruction, when the U.S. government temporarily implemented a major redistribution of land from former slaveholders to the newly emancipated enslaved. But neither Reconstruction nor the New Deal nor the civil rights struggle led to an economically just and fair nation. Today, systematic inequality persists in the form of housing discrimination, unequal education, police brutality, mass incarceration, employment discrimination, and massive wealth and opportunity gaps. Economic data indicates that for every dollar the average white household holds in wealth the average black household possesses a mere ten cents. In *From Here to Equality*, William Darity Jr. and A. Kirsten

Mullen confront these injustices head-on and make the most comprehensive case to date for economic reparations for U.S. descendants of slavery. After opening the book with a stark assessment of the intergenerational effects of white supremacy on black economic well-being, Darity and Mullen look to both the past and the present to measure the inequalities borne of slavery. Using innovative methods that link monetary values to historical wrongs, they next assess the literal and figurative costs of justice denied in the 155 years since the end of the Civil War. Finally, Darity and Mullen offer a detailed roadmap for an effective reparations program, including a substantial payment to each documented U.S. black descendant of slavery. Taken individually, any one of the three eras of injustice outlined by Darity and Mullen--slavery, Jim Crow, and modern-day discrimination--makes a powerful case for black reparations. Taken collectively, they are impossible to ignore.

This is a smart, respectful and compelling book. —Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to *Strangers in Their Own Land* to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the *New Republic*, Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite. Already a favorite common read book in communities and on campuses across the country and called humble and important by David Brooks and masterly by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.
