christiane f book english pdf: Ugandan English Christiane Meierkord, Bebwa Isingoma, Saudah Namyalo, 2016-10-20 Ugandan English is a variety that has scarcely been noticed in past research. This timely volume brings together African and European scholars in a first-ever collection of articles that offer comprehensive discussions of the historical and present-day sociolinguistics of English in Uganda and fine-grained analyses of the structural characteristics of and attitudes to this hitherto largely unknown variety. Using rich archive, corpus, and interview data as well as ethnographic and observational methods, the various contributions paint a comprehensive picture of Ugandan English as distinct from other East African Englishes and as characterized by nativisation despite a still strong exonormative orientation, reflecting the modern nation's status as a post-protectorate under the influence of globalisation. Apart from advancing our understanding of Ugandan English itself, the individual chapters contribute to theoretical debates on language contact and variation as regards the influence of substrate languages, founder populations, language ideologies and socio-economic factors.

christiane f book english pdf: The Outsiders Philipp Ther, 2021-11-30 The history of Europe as a continent of refugees European history has been permeated with refugees. The Outsiders chronicles every major refugee movement since 1492, when the Catholic rulers of Spain set in motion the first mass flight and expulsion in modern European history. Philipp Ther provides needed perspective on today's "refugee crisis," demonstrating how Europe has taken in far greater numbers of refugees in earlier periods of its history, in wartime as well as peacetime. His sweeping narrative crosses the Mediterranean and the Atlantic, taking readers from the Middle East to the shores of America. In this compelling book, Ther examines the major causes of mass flight, from religious intolerance and ethnic cleansing to political persecution and war. He describes the perils and traumas of flight and explains why refugees and asylum seekers have been welcomed in some periods—such as during the Cold War—and why they are rejected in times such as our own. He also examines the afterlives of the refugees in the receiving countries, which almost always benefited from admitting them. Tracing the lengthy routes of the refugees, he reconceptualizes Europe as a unit of geography and historiography. Turning to the history of refugees in the United States, Ther also discusses the anti-refugee politics of the Trump administration, explaining why they are un-American and bad for the country. By setting mass flight against fifteen biographical case studies, and drawing on his subjects' experiences, itineraries, and personal convictions, Ther puts a human face on a global phenomenon that concerns all of us.

christiane f book english pdf: Patterns of Change in 18th-century English Terttu Nevalainen,

Minna Palander-Collin, Tanja Säily, 2018-09-06 Eighteenth-century English is often associated with normative grammar. But to what extent did prescriptivism impact ongoing processes of linguistic change? The authors of this volume examine a variety of linguistic changes in a corpus of personal correspondence, including the auxiliary do, verbal -s and the progressive aspect, and they conclude that direct normative influence on them must have been minimal. The studies are contextualized by discussions of the normative tradition and the correspondence corpus, and of eighteenth-century English society and culture. Basing their work on a variationist sociolinguistic approach, the authors introduce the models and methods they have used to trace the progress of linguistic changes in the "long" eighteenth century, 1680–1800. Aggregate findings are balanced by analysing individuals and their varying participation in these processes. The final chapter places these results in a wider context and considers them in relation to past sociolinguistic work. One of the major findings of the studies is that in most cases the overall pace of change was slow. Factors retarding change include speaker evaluation and repurposing outgoing features, in particular, for certain styles and registers.

christiane f book english pdf: The Case for Critical Literacy Alice S. Horning, 2024-08-15 The Case for Critical Literacy explores the history of reading within writing studies and lays the foundation for understanding the impact of this critical, yet often untaught, skill. Every measure of students' reading comprehension, whether digital or analog, demonstrates that between 50 and 80 percent of students are unable to capture the substance of a full discussion or evaluate material for authority, accuracy, currency, relevancy, appropriateness, and bias. This book examines how college-level instruction reached this point and provides pedagogical strategies that writing instructors and teachers can use to address the problem. Alice Horning makes the case for the importance of critical reading in the teaching of writing with intentionality and imagination, while sharing glimpses of her own personal history with reading and writing. Horning provides the context for understanding what college faculty face in their classrooms and offers a history of critical literacy that explains why, to date, it has mostly neglected or ignored the diverse statuses of students' reading challenges. The Case for Critical Literacy explores actionable options to better meet students' literacy needs. College and university faculty, especially writing instructors, will benefit from an understanding of what has happened in the field and what needs to change.

christiane f book english pdf: Translation and Localisation in Video Games Miguel Á. Bernal-Merino, 2014-09-19 This book is a multidisciplinary study of the translation and localisation of video games. It offers a descriptive analysis of the industry – understood as a global phenomenon in entertainment – and aims to explain the norms governing present industry practices, as well as game localisation processes. Additionally, it discusses particular translation issues that are unique to the multichannel nature of video games, in which verbal and nonverbal signs must be cohesively combined with interactivity to achieve maximum playability and immerse players in the game's virtual world. Although positioned within the theoretical framework of descriptive translation studies, Bernal-Merino incorporates research from audiovisual translation, software localisation, computer assisted translation, comparative literature, and video game production. Moving beyond this framework, Translation and Localisation in Video Games challenges some of the basic tenets of translation studies and proposes changes to established and unsatisfactory processes in the video game and language services industries.

christiane f book english pdf: *Incarceration and Slavery in the Middle Ages and the Early Modern Age* Albrecht Classen, 2021-10-19 People in the Middle Ages and the early modern age more often suffered from imprisonment and enslavement than we might have assumed. *Incarceration and Slavery in the Middle Ages and the Early Modern Age* approaches these topics from a wide variety of perspectives and demonstrates collectively the great relevance of the issues involved. Both incarceration and slavery were (and continue to be) most painful experiences, and no one was guaranteed exemption from it. High-ranking nobles and royalties were often the victims of imprisonment and, at times, had to wait many years until their ransom was paid. Similarly, slavery existed throughout Christian Europe and in the Arab world. However, while imprisonment occasionally proved to be the catalyst for major writings and creativity, slaves in the Ottoman empire and in Egypt succeeded in rising to the highest position in society (Janissaries, Mamluks, and others).

christiane f book english pdf: Housing, Urban Renewal and Socio-Spatial Integration Xiaoxi Hui, 2013-02-07
This issue of A+BE addresses two critical urban issues China faces today: housing and urban renewal. In the recent two decades, the Chinese urban housing stock underwent a significant, if not extreme, transformation. From 1949 to 1998, the urban housing stock in China largely depended on the public sector, and a large amount of public housing areas were developed under the socialistic public housing system in Beijing and other Chinese cities. Yet in 1998, a radical housing reform stopped this housing system. Thus, most of the public housing stock was privatized and the urban housing provision was conferred to the market. The radical housing privatization and marketization did not really resolve but intensified the housing problem. Along with the high-speed urbanization, the alienated, capitalized and speculative housing stock caused a series of social and spatial problems. The Chinese government therefore attempted to reestablish the social housing system in 2007. However, the unbalanced structure of the Chinese urban housing stock has not been considerably optimized and the housing problem is still one of the most critical challenges in China.

Harner's Literary Research Guide (Modern Language Assn. of America, 1989), larger academic libraries will want Marcuse's volume.-- Jack Bales, Mary Washington Coll. christiane f book english pdf: When Texas Prison Scams Religion Michael G. Maness, 2023-05-22
When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800-plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that "buys faith with favor" from prisoners. The state veritably ordains the prisoner a "Field Minister" that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays \$314 million a year to UTMB for psychiatric care and receives not a single report of the care given, and worse, for UTMB generates no reports itself. The underbelly TDCJ's executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein, Collier led TDCJ to favor the smallest segment of religious society

within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400,000,000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his "100,000 Mothers' 1% Certainty Parole Texas Constitutional Amendment," which would revolutionize prison culture and save Texans millions of the dollars.
