dead man s cell phone pdf: *Fearless Femininity by Women in American Theatre, 1910s to 2010s* Lynne Greeley, 2015-08-06 In this unprecedented, fascinating book which covers women in theatre from the 1910s to the 2010s, author Lynne Greeley notes that, for the purposes of this study, feminism is defined as the political impulse toward economic and social empowerment for females or the female-identified, a position perceived by many feminists as oppositional to ideas of femininity that they see as personally and politically constraining and that femininity comprises social behaviors and practices that mean as many different things as there are women, some of which are empowering and others of which are not. This book illuminates how throughout the twentieth century and into the twenty-first, playwrights and artists in American theatre both embodied and disrupted the feminine of their times. Through approaches as wide ranging as performing their own recipes, energizing silences, raging against war and rape, and inviting the public to inscribe their naked bodies, theatre artists have used performance as a site to insert themselves between the physicality of their female presence and the liminality of their disrupting the role of the feminine. Capturing that place of liminality, a neither-here-nor-there place that is often unsafe, where the established order is overturned by acts as banal as raising a plant, women have written and performed and disrupted their way through one hundred years of theatre history, even within the constraints of a variably rigid and usually unsympathetic social order. Creating a feminist femininity, they have reinscribed their place in the culture and provided models for their audiences to do the same. This comprehensive tome, part of the Cambria Contemporary Global Performing Arts headed by John Clum (Duke University) is an essential addition for theater studies and women's studies.

dead man s cell phone pdf: A Natural History of Oregon's Lake Abert in the Northwest Great Basin Landscape Ron Larson, 2023-12-12 A beautifully detailed exploration of flora and fauna. Author Ron Larson offers a natural history of a Great Basin landscape that focuses on the northern region including Lake Abert and Abert Rim, and the adjacent area in southcentral Oregon. Although the jewel of this landscape is a lake, the real story is the many plants and animals—from the very primitive, reddish, bacteria-like archaea that thrive only in its high-salinity waters to the Golden Eagles and ravens that soar above the desert. The untold species in and around the lake are part of an ecosystem shaped by ageless processes from massive lava flows, repeated drought, and blinding snowstorms. It is an environment rich with biotic and physical interconnections going back millions of years. The Great Basin, and in particular the Lake Abert region, is special and needs our attention to ensure it remains that way. We must recognize the importance of water for Great Basin ecosystems and the need to manage it better, and we must acknowledge how rich the Great Basin is in natural history. Salt lakes, wherever they occur, are valuable and provide critically important habitat for migratory water birds, which are unfortunately under threat from upstream water diversions and climate change. Larson's book will help people understand that the Great Basin is unique and that wise stewardship is necessary to keep it unspoiled. The book is an essential reference source, drawing together a wide range of materials that will appeal to general readers and researchers alike.

dead man s cell phone pdf: Pandemic Death Discourse M.F. Alvarez, Carmen Hernández-Ojeda, Alexander B. Joy, Gyuri S. Kepes, 2025-04-07 Since Covid-19 was declared a global pandemic, the virus has caused more than 1 million deaths in the United States and 7 million deaths worldwide. The rampant loss of life exposed fissures in healthcare systems, disrupted mourning rituals, complicated the bereavement process, and laid bare the inequities of death. Though much has been written on dying and death during COVID-19, this book is the first to attend to the communicative and representational practices through which meanings about loss during the pandemic are negotiated. This book begins by addressing our collective death denial, and the institutional and ideological barriers that must be surmounted if we are to afford dignity and humanity to those who have been stripped of it. Against this backdrop, the authors examine an array of practices and channels through which various social groups have sought to dismantle oppressive structures, find hope amid despair, and reshape understandings of mortality, including what it means to be in community. COVID-19 has issued a challenge to our conscience and to our symbolic capacities, and this book is an earnest response to that challenge, one that is attuned to our collective vulnerabilities.

dead man s cell phone pdf: Invented Religions Carole M. Cusack, 2016-05-06 Utilizing contemporary scholarship on secularization, individualism, and consumer capitalism, this book explores religious movements founded in the West which are intentionally fictional: Discordianism, the Church of All Worlds, the Church of the SubGenius, and Jediism. Their continued appeal and success, principally in America but gaining wider audience through the 1980s and 1990s, is chiefly as a result of underground publishing and the internet. This book deals with immensely popular subject matter: Jediism developed from George Lucas' Star Wars films; the Church of the Flying Spaghetti Monster, founded by 26-year-old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools; Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students. The Church of All Worlds' focus on Gaia theology and environmental issues makes it a popular focus of attention. The continued success of these groups of Invented Religions provide a unique opportunity to explore the nature of late/post-modern religious forms, including the use of fiction as part of a bricolage for spirituality, identity-formation, and personal orientation.
