dinesh pandit books pdf: Politics and Policies for Water Resources Management in India M. Dinesh Kumar, 2020-06-29 This comprehensive volume explores the interface between politics and policy making in the water management sector of India. The authors discuss the nature of the political discourse on water management in India, and what characterizes this discourse. They also explore how this discourse has influenced the process of framing water related policies in India, particularly through the 'academics-bureaucrat-politician' nexus and the growing influence of the civil society groups on policy makers, which are the defining feature of this process, and which have produced certain policy outcomes that are not supported by sufficient scientific evidence. The book reveals that the social and management sciences, despite being increasingly relevant in contemporary water management, are unable to impress upon traditional, engineer-dominated water administration to seek solutions to complex water problems owing to a lack of interdisciplinary perspective in their research. The authors also examine the current deadlock in undertaking sectoral reforms due to existing water policies not being honoured. This collection includes several research studies which suggest legal, institutional policy alternatives for addressing the problems in areas such as irrigation, rural and urban water supply, flood control and adaptation to climate variability and change. It was originally published as a special issue of the International Journal of Water

dinesh pandit books pdf: Theatre and War Nandita Dinesh, 2016-07-27 Nandita Dinesh places Kipling's six honest serving-men (who, what, when, where, why, how) in productive conversation with her own experiences in conflict zones across the world to offer a theoretical and practical reflection on making theatre in times of war. This timely and important book weaves together Dinesh's personal narrative with the public story of modern conflict, illustrating as it does, the importance of theatre as a force for ethical deliberation and social justice. In it Dinesh asks how theatre might intervene in times and places of conflict and how we might reflect on such interventions. In pursuit of answers, *Theatre and War* adopts the methods of auto-ethnography, positioning the theatrical practitioner at the heart of conflict zones in northern Uganda, Guatemala, Northern Ireland, Mexico, Rwanda, Kenya, Nagaland, and Kashmir. No longer a detached observer, the researcher and practitioner has to be able to meld theory with practice; to speak to 'doing', without undervaluing the importance of 'thinking about doing'. Each chapter approaches the need for a synthesis of theory and practice by way of a term of inquiry—Why, Where, Who, What, When—and each is equipped with a set of unflinchingly honest field notes that are designed to reveal some of the 'hows' from the author's own repertoire: questions and issues that were encountered during her own theatrical undertakings, along with first hand reflection on the complexities, potential, and challenges that attended her global work in community theatre. Within these notes are strategies that give the reader a practical insight into how the discussion might find its footing on the ground of war. The range and scope of this book make it required reading for those interested in theatre—practitioners, researchers, and students alike—as well as those seeking to understand the applications of the arts for ethics, politics, and education.
