has the universal power to move individuals, peoples and societies. Music is one of the most important signifiers of cultural change. It is also most significant for youth movements and youth cultures. While Islam has a historically and traditionally rich culture of music, religious controversy on the topic of music is still ongoing. However, young Muslims in today's globalised world seek pop cultural tools such as music, and particularly hip hop music, as way of exploring and expressing their manifold identities, whilst challenging Islamophobia, stigma and racism on the one hand and traditional and religious challenges on the other hand. In this volume, following an international conference with the same title, scholars and young academics from a variety of disciplines seek to explore and highlight the phenomena surrounding the two, somewhat artificially separated, realms of music and religion. The contributions not only look into different genres of music, from Tunisian metal over German female hip hop to Egyptian folk, but take the reader on a journey from continent to countries to cities and rural areas and thus give space and time to a widely neglected area of research: that of Muslim popular culture and young Muslims.

Galip also analyses how European policies affect the development of cultural engagement of Kurdish migrant women, and how such engagements help these women to integrate into European society. Examining the gendered experiences of diaspora from all four regions of Kurdistan; Iraq, Iran, Syria and Turkey, this book challenges ideas about gender, migration and art through the lens of women artistic production with a focus on women-led activism and the changing integration and migration policies of Europe.

rap and hip hop culture fernando orejuela pdf: The new beats S.H. Fernando, 2000 The New Beats explore la complexité des mots, des sons, des images et des attitudes du hip-hop. La première partie du livre fournit un contexte historique détaillé, reliant le rap aux formes antérieures de la musique noire, qui l'ont influencé. En examinant les rapports entre le hip-hop, la culture et les forces sociales et politiques qui les ont engendrées, je tente d'aller au-delà du domaine de l'industrie actuelle pour examiner le rap en tant que commerce et le considérer d'un point de vue artistique. Enfin, je me concentre sur la musique elle-même, discutant avec les artistes qui expliquent non seulement leurs motivations et leur inspiration, mais aussi le sens de leurs textes et la façon dont ils agencent leur musique. The New Beats est le résultat d'une année et demie de recherche ininterrompue, d'interviews et d'écriture, mais aussi d'une longue histoire d'amour avec la musique. Certains considèrent la musique comme un pur divertissement, alors qu'en fait elle est l'une des plus intimes réflexions d'une culture. Comme d'autres modes d'expression artistique, la musique offre une plongée directe dans l'âme et rassemble ceux qui ont emprunté les mêmes chemins. Avec The New Beats, j'ai tenté de saisir l'essence de ce que j'ai vu, entendu et ressenti tout au long de ce chemin. S. H. Fernando Jr.
