black awakening in capitalist america pdf: The History of Black Studies Abdul Alkalimat, 2021-10-20 A surge of African American enrolment and student activism brought Black Studies to many US campuses in the 1960s. Sixty years later, Black Studies programmes are taught at more than 1,300 universities worldwide. This book is the first history of how that happened. Black Studies founder and movement veteran Abdul Alkalimat offers a comprehensive history of the discipline that will become a key reference for generations to come. Structured in three broadly chronological sections - Black Studies as intellectual history; as social movement; and as academic profession - the book demonstrates how Black people themselves established the field long before its institutionalisation in university programmes. At its heart, Black Studies is profoundly political. Black Power, the New Communist Movement, the Black women's and students' movements - each step in the journey for Black liberation influenced and was influenced by this revolutionary discipline.

black awakening in capitalist america pdf: The Myth and Propaganda of Black Buying Power Jared A. Ball, 2023-05-30 The second edition of this Palgrave Pivot offers a history of and proof against claims of buying power and the impact this myth has had on understanding media, race, class and economics in the United States. For generations Black people have been told they have what is now said to be more than one trillion dollars of buying power, and this book argues that commentators have misused this claim largely to blame Black communities for their own poverty based on squandered economic opportunity. This book exposes the claim as both a marketing strategy and myth, while also showing how that myth functions simultaneously as a case study for propaganda and commercial media coverage of economics. In sum, while "buying power" is indeed an economic and marketing phrase applied to any number of racial, ethnic, religious, gender, age or group of consumers, it has a specific application to Black America. A new foreword by Dr. Darrick Hamilton, Henry Cohen Professor of Economics and Urban Policy at the New School (in New York, USA), and a new chapter on cryptocurrencies are included in this new edition.

black awakening in capitalist america pdf: Decoloniality in the Break of Global Blackness Michaeline A. Crichlow, Patricia M. Northover, 2025-05-21 This book, contextualized by the violence of globalization, investigates the fungible, fugitive, and untenable experiences of Black being and time through a decolonial poethics of global*Blackness. In so doing it introduces innovative readings of coloniality/decoloniality by threading its meaning and movement through the "problem" of

Blackness. It argues that global*Blackness is the complexly entangled other side of decoloniality, as movement, method, and poethics for radical new worlds. The essays explore this through inter/transdisciplinary, creative, and decolonial standpoints, whether from prison abolitionist demands to Afrofuturist imaginaries, or by seeing through Black mirrors. It emphasizes the paradoxical characteristics of global*Blackness—its spectral quality of being in and out of modernity's self-narrative—to provide a way of dwelling with global Blackness as a force that is neither “properly” constituted by corporeality nor thinkable in ontological terms determined by modern power. The book will be of interest to academics, researchers, and students in the fields of social sciences, cultural studies, postcolonial studies as well as cultural practitioners, art educators, artists, cultural activists, and those institutions that seek to decolonize imaginaries, thought, practices, and methods. Given its diverse offerings, it will also be of interest to upper-level undergraduates, graduate students, and academics.

black awakening in capitalist america pdf: The Undesirable Many Rosemary Ndubizu, 2025-09-24 Amid a national housing affordability crisis with political and social implications, Washington, DC, is notorious for its rapidly rising income inequality, high rates of displacement, and some of the most expensive rents in the country. Housing policy expert Rosemary Ndubizu uncovers more than 100 years of affordable housing politics in the nation's capital to illustrate local and national trends in how various social, economic, and political forces have worked together to ensure the persistent vulnerability of low-wage Black families to housing insecurity and displacement. Since the 1960s, Black women have been at the forefront of combating efforts to force Black people out of DC. *The Undesirable Many* recounts the history of Black women's tenant activism and organized opposition through a Black feminist materialism framework that exposes present-day housing inequities as deeply entangled in the politics and practices of gender and racial inequity. Drawing on extensive archival research and dozens of in-depth interviews with Black women tenant activists and affordable housing advocates, Ndubizu uncovers how gendered stereotypes of Black tenant irresponsibility have shaped market behavior and informed political justification for different consumer treatment. Politicians, landlords, and even nonprofit housing providers often championed disciplinary housing governance such as mandatory housekeeping classes, welfare garnishment, paternal property management, and case management, contending that the problem was not housing but the Black family itself. By exposing these strategies alongside low-income Black women's political perspectives and experiences, *The Undesirable Many* offers valuable lessons for contemporary challenges in affordable housing advocacy and welfare politics.

black awakening in capitalist america pdf: In This Land of Plenty Benjamin Talton, 2019-08-23 On August 7, 1989, Congressman Mickey Leland departed on a flight from Addis Ababa, with his thirteen-member delegation of Ethiopian and American relief workers and policy analysts, bound for Ethiopia's border with Sudan. This was Leland's seventh official humanitarian mission in his nearly decade-long drive to transform U.S. policies toward Africa to conform to his black internationalist vision of global cooperation, antiracism, and freedom from hunger. Leland's flight never arrived at its destination. The plane crashed, with no survivors. When Leland embarked on that delegation, he was a forty-four-year-old, deeply charismatic, fiercely compassionate, black, radical American. He was also an elected Democratic representative of Houston's largely African American and Latino Eighteenth Congressional District. Above all, he was a self-proclaimed citizen of humanity. Throughout the 1980s, Leland and a small group of former radical-activist African American colleagues inside and outside Congress exerted outsized influence to elevate Africa's significance in American foreign affairs and to move the United States from its Cold War orientation toward a foreign policy devoted to humanitarianism, antiracism, and moral leadership. Their internationalism defined a new era of black political engagement with Africa. *In This Land of Plenty* presents Leland as the embodiment of larger currents in African American politics at the end of the twentieth century. But a sober look at his aspirations shows the successes and shortcomings of domestic radicalism and aspirations of politically neutral humanitarianism during the 1980s, and the extent to which the decade was a major turning point in U.S. relations with the African continent.

Exploring the links between political activism, electoral politics, and international affairs, Benjamin Talton not only details Leland's political career but also examines African Americans' successes and failures in influencing U.S. foreign policy toward African and other Global South countries.

black awakening in capitalist america pdf: Defying Displacement Andrew Lee, 2024-02-06 A revolutionary new study of gentrification ... and how to stop it. Cities around the world are in the midst of a profound transformation as the wealthy price out the remnants of the urban working class, especially people of color. Displacement is neither accidental or inevitable. It happens because a whole range of people and institutions profit handsomely. Defying Displacement, focused on the US but informed by global examples, investigates gentrification from the perspective of the people fighting it, members of communities whose survival is threatened by some of the most powerful institutions on the planet. Andrew Lee names the names and identifies the actual state and corporate forces that work together to enrich a very specific group of people: property developers and real estate investors who make a killing, politicians who watch their tax bases grow, banks that write profitable loans for new businesses and mortgages for new homeowners. Meanwhile, business districts are planned, tax abatements unveiled, redevelopment schemes dreamed up, corporate and university campuses expanded, and ordinary people are driven from their homes. The city has long served as the stage for political life and popular revolt. As mass displacement alters the composition of gentrifying cities, the avenues available for social change become unsettled as well, forcing us to reimagine our strategies for building a better world. Around the world communities are pushing the struggle against forced displacement in new directions, shutting down developments and evictions and bringing cities to a halt, fighting militarized police and the most powerful companies in the world. Activists and residents in struggle—dozens of whom are interviewed by Lee to inform his work—are charting the way forward to affordable and sustainable cities run by the people who inhabit them.

black awakening in capitalist america pdf: Black Men and Racial Trauma Yamonte Cooper, 2024-02-23 This volume comprehensively addresses racial trauma from a clinical lens, equipping mental health professionals across all disciplines to be culturally responsive when serving Black men. Written using a transdisciplinary approach, Yamonte Cooper presents a Unified Theory of Racism (UTR), Integrated Model of Racial Trauma (IMRT), Transgenerational Trauma Points (TTP), Plantation Politics, Black Male Negation (BMN), and Race-Based Shame (RBS) to fill a critical and urgent void in the mental health field and emerging scholarship on racial trauma. Chapters begin with specific definitions of racism before exploring specific challenges that Black men face, such as racial discrimination and health, trauma, criminalization, economic deprivation, anti-Black misandry, and culturally-specific stressors, emotions, such as shame and anger, and coping mechanisms that these men utilize. After articulating the racial trauma of Black men in a

comprehensive manner, the book provides insight into what responsive care looks like as well as clinical interventions that can inform treatment approaches. This book is invaluable reading for all established and training mental health clinicians that work with Black men, such as psychologists, marriage and family therapists, social workers, counselors, and psychiatrists.

black awakening in capitalist america pdf: Eternal Colonialism Russell Benjamin, Gregory O. Hall, 2010-02-03 This book examines eternal colonialism, a term used to describe the policies that were designed by the Western world and the United States in order to keep most of the world in a permanently subordinate political, economic, social, and military state. Eternal colonialism is a combination of both internal and external colonialism, or neocolonialism. Benjamin and Hall argue that the colonialism beginning in the fifteenth century never ended, but rather developed different forms over time. The scope of their work examines eternal colonialism in both American and international contexts. The authors contend that the United States practices internal colonialism within its borders, in addition to being fully engaged in external colonialism. Eternal Colonialism will prove essential to those who want to understand the ongoing global tension and turmoil, especially with regard to North-South relations. Furthermore, readers will see how the United States, arguably the greatest of the colonizers, practices colonialism within its own borders. Additionally, this book demonstrates that internal and external colonialism are parts of a global system of Western domination.

black awakening in capitalist america pdf: No Bosses, No Gods Matthew Day, 2023-04-27 Flagging enrollments. Disappearing majors. Closed departments. The academic study of religion is in trouble. No Bosses, No Gods argues that Karl Marx is essential for reversing course—but it will take letting go of what most scholars think they know about him. The book's first half draws on the scholarship of international specialists—as well as new translations of the original German texts—to present Marx the anti-theorist, a political journalist deeply skeptical about what happens when the professoriate sits down to theorize about social worlds. The second half appeals to this modified portrait of Marx and charts a new course beyond both actually existing religious studies and contemporary genealogies of the religion category. The result, perhaps, is an academic study of religion worth having in the twenty-first century.

black awakening in capitalist america pdf: Totality Inside Out Kevin Floyd, Jen Hedler Phillis, Sarika Chandra, 2022-01-18 However divergent their analyses may be in other ways, some prominent anti-capitalist critics have remained critical of contemporary debates over reparative justice for groups historically oppressed and marginalized on the basis of race, gender, sexual identity, sexual preference, and/or ability, arguing that the most these struggles can hope to produce is a more diversity-friendly capital. Meanwhile, scholars of gender and sexuality as well as race and ethnic studies maintain that, by elevating the socioeconomic above other logics of domination, anti-capitalist thought fails to acknowledge specific forms and experiences of subjugation. The thinkers and activists who appear in *Totality Inside Out* reject this divisive logic altogether. Instead, they aim for a more expansive analysis of our contemporary moment to uncover connected sites of political struggle over racial and economic justice, materialist feminist and queer critique, climate change, and aesthetic value. The re-imagined account of capitalist totality that appears in this volume illuminates the material interlinkages between discrepant social phenomena, forms of oppression, and group histories, offering multiple entry points for readers who are interested in exploring how capitalism shapes integral relations within the social whole. black awakening in capitalist america pdf: AfroAsian Encounters Heike Raphael-Hernandez, Shannon Steen, 2006-11-01 With a Foreword by Vijay Prashad and an Afterword by Gary Okihiro How might we understand yellowface performances by African Americans in 1930s swing adaptations of Gilbert and Sullivan's *The Mikado*, Paul Robeson's support of Asian and Asian American struggles, or the absorption of hip hop by Asian American youth culture? *AfroAsian Encounters* is the first anthology to look at the mutual influence of and relationships between

members of the African and Asian diasporas. While these two groups have often been thought of as occupying incommensurate, if not opposing, cultural and political positions, scholars from history, literature, media, and the visual arts here trace their interconnections and interactions, as well as the tensions between the two groups that sometimes arise. *AfroAsian Encounters* probes beyond popular culture to trace the historical lineage of these coalitions from the late nineteenth century to the present. A foreword by Vijay Prashad sets the volume in the context of the Bandung conference half a century ago, and an afterword by Gary Okihiro charts the contours of a “Black Pacific.” From the history of Japanese jazz composers to the current popularity of black/Asian “buddy films” like *Rush Hour*, *AfroAsian Encounters* is a groundbreaking intervention into studies of race and ethnicity and a crucial look at the shifting meaning of race in the twenty-first century.

black awakening in capitalist america pdf: *The New Plantation* B. Hawkins, 2010-02-15
The *New Plantation* examines the controversial relationship between predominantly White NCAA Division I Institutions (PWI s) and black athletes, utilizing an internal colonial model. It provides a much-needed in-depth analysis to fully comprehend the magnitude of the forces at work that impact black athletes experiences at PWI s. Hawkins provides a conceptual framework for understanding the structural arrangements of PWI s and how they present challenges to Black athletes academic success; yet, challenges some have overcome and gone on to successful careers, while many have succumbed to these prevailing structural arrangements and have not benefited accordingly. The work is a call for academic reform, collective accountability from the communities that bear the burden of nurturing this athletic talent and the institutions that benefit from it, and collective consciousness to the Black male athletes that make of the largest percentage of athletes who generate the most revenue for the NCAA and its member institutions. Its hope is to promote a balanced exchange in the athletic services rendered and the educational services received.

black awakening in capitalist america pdf: *A Freedom Budget for All Americans* Paul Le Blanc, Michael D. Yates, 2013-08 While the Civil Rights Movement is remembered for efforts to end segregation and secure the rights of African Americans, the larger economic vision that animated much of the movement is often overlooked today. That vision sought economic justice for every person in the United States, regardless of race. It favored production for social use instead of profit; social ownership; and democratic control over major economic decisions. The document that best captured this vision was the *Freedom Budget for All Americans: Budgeting Our Resources, 1966-1975, To Achieve Freedom from Want* published by the A. Philip Randolph Institute and endorsed by a virtual ‘who’s who’ of U.S. left liberalism and radicalism. Now, two of today’s leading socialist thinkers return to the *Freedom Budget* and its program for economic justice. Paul Le Blanc and Michael D. Yates explain the origins of the *Freedom Budget*, how it sought to achieve “freedom from want” for all people, and how it might be reimagined for our current moment. Combining historical perspective with clear-sighted economic proposals, the authors make a concrete case for reviving the spirit of the Civil Rights Movement and building the society of economic security and democratic control envisioned by the movement’s leaders—a struggle that continues to this day.

black awakening in capitalist america pdf: *Blackness in Britain* Kehinde Andrews, Lisa Amanda Palmer, 2016-04-28 *Black Studies* is a hugely important, and yet undervalued, academic

field of enquiry that is marked by its disciplinary absence and omission from academic curricula in Britain. There is a long and rich history of research on Blackness and Black populations in Britain. However Blackness in Britain has too often been framed through the lens of racialised deficits, constructed as both marginal and pathological. Blackness in Britain attends to and grapples with the absence of Black Studies in Britain and the parallel crisis of Black marginality in British society. It begins to map the field of Black Studies scholarship from a British context, by collating new and established voices from scholars writing about Blackness in Britain. Split into five parts, it examines: Black studies and the challenge of the Black British intellectual; Revolution, resistance and state violence; Blackness and belonging; exclusion and inequality in education; experiences of Black women and the gendering of Blackness in Britain. This interdisciplinary collection represents a landmark in building Black Studies in British academia, presenting key debates about Black experiences in relation to Britain, Black Europe and the wider Black diaspora. With contributions from across various disciplines including sociology, human geography, medical sociology, cultural studies, education studies, post-colonial English literature, history, and criminology, the book will be essential reading for scholars and students of the multi- and inter-disciplinary area of Black Studies.

black awakening in capitalist america pdf: *The Routledge International Handbook on Decolonizing Justice* Chris Cunneen, Antje Deckert, Amanda Porter, Juan Tauri, Robert Webb, 2023-07-03 The Routledge International Handbook on Decolonizing Justice focuses on the growing worldwide movement aimed at decolonizing state policies and practices, and various disciplinary knowledges including criminology, social work and law. The collection of original chapters brings together cutting-edge, politically engaged work from a diverse group of writers who take as a starting point an analysis founded in a decolonizing, decolonial and/or Indigenous standpoint. Centering the perspectives of Black, First Nations and other racialized and minoritized peoples, the book makes an internationally significant contribution to the literature. The chapters include analyses of specific decolonization policies and interventions instigated by communities to enhance jurisdictional self-determination; theoretical approaches to decolonization; the importance of research and research ethics as a key foundation of the decolonization process; crucial contemporary issues including deaths in custody, state crime, reparations, and transitional justice; and critical analysis of key institutions of control, including police, courts, corrections, child protection systems and other forms of carcerality. The handbook is divided into five sections which reflect the breadth of the decolonizing literature: • Why decolonization? From the personal to the global • State terror and violence • Abolishing the carceral • Transforming and decolonizing justice • Disrupting epistemic violence This book offers a comprehensive and timely resource for activists, students, academics, and those with an interest in Indigenous studies, decolonial and post-colonial studies, criminal legal institutions and criminology. It provides critical commentary and analyses of the major issues for enhancing social justice internationally.
