dreams within conflict pdf: Ten Lessons to Transform Your Marriage John Gottman, PhD, Julie Schwartz Gottman, PhD, Joan DeClaire, 2006-05-16 In Ten Lessons to Transform Your Marriage, marital psychologists John and Julie Gottman provide vital tools—scientifically based and empirically verified—that you can use to regain affection and romance lost through years of

ineffective communication. In 1994, Dr. John Gottman and his colleagues at the University of Washington made a startling announcement: Through scientific observation and mathematical analysis, they could predict—with more than 90 percent accuracy—whether a marriage would succeed or fail. The only thing they did not yet know was how to turn a failing marriage into a successful one, so Gottman teamed up with his clinical psychologist wife, Dr. Julie Schwartz Gottman, to develop intervention methods. Now the Gottmans, together with the Love Lab research facility, have put these ideas into practice. What emerged from the Gottmans' collaboration and decades of research is a body of advice that's based on two surprisingly simple truths: Happily married couples behave like good friends, and they handle their conflicts in gentle, positive ways. The authors offer an intimate look at ten couples who have learned to work through potentially destructive problems—extramarital affairs, workaholism, parenthood adjustments, serious illnesses, lack of intimacy—and examine what they've done to improve communication and get their marriages back on track. Hundreds of thousands have seen their relationships improve thanks to the Gottmans' work. Whether you want to make a strong relationship more fulfilling or rescue one that's headed for disaster, *Ten Lessons to Transform Your Marriage* is essential reading.

dreams within conflict pdf: *Conflict, Negotiations and Natural Resource Management* Maarten Bavinck, Amalendu Jyotishi, 2014-10-17 Conflicts over natural resources abound in India, where much of the population is dependent on these resources for their livelihoods. Issues of governance and management are complicated by the competing claims of parallel legal systems, including state, customary, religious, project and local laws. Whereas much has been written about property rights, this unique collection takes a legal anthropological perspective to explore how the coexistence and interaction between multiple legal orders provide bases for claiming property rights. It examines how hybrid legal institutions have developed over time in India and how these impact on justice in the governance and distribution of natural resources. The book brings together original case studies that offer fresh perspectives on the governance of forests, water, fisheries and agricultural land in a diverse range of social and spatial contexts. This brand new research provides a timely and persuasive overview of the fundamental role of parallel legal systems in shaping how people manage natural resources. It will be of interest to scholars and practitioners of environmental law, property law, environmental politics, anthropology, sociology and geography.

dreams within conflict pdf: *In the Shadow of Violence* Klaus Schlichte, 2009-04-14 Spätestens seit den Anschlägen vom 11. September sind nicht-staatliche Kriegsakteure in den Mittelpunkt des wissenschaftlichen und außenpolitischen Interesses gerückt. Doch wie lassen sich ihr Handeln, ihre Strategien und ihre Organisation begreifen? Klaus Schlichte betont den politischen Charakter bewaffneter Gruppen, für den der Zusammenhang von Gewalt und Legitimität zentral ist. Damit setzt er sich von jenen Arbeiten ab, die ökonomische Interessen oder »religiösen Fundamentalismus« zur Erklärung heranziehen. Sein Vergleich von 15 Ländern zeigt, dass nicht-staatliche Gruppen immer in engen Beziehungen zu Staaten stehen und das Ziel haben, ihre Macht der Gewalt in politische Herrschaft zu transformieren.

dreams within conflict pdf: *Local Adaptation to Climate Change in South India* Devendraraj Madhanagopal, 2023-03-30 This book critically discusses the vulnerabilities and local adaptation actions of the traditional marine fishers of the tsunami-hit coastal regions of South India to climate change and risks, with an emphasis on their local institutions. Thereby, it offers a comprehensive account of the ways in which marine fishers live and respond to climate change. The Coromandel coastal regions of South India are known for their rich sociocultural history and enormous marine resources, as well as their long history of vulnerability to climate change and disasters, including the 2004 tsunami. By drawing cases from the tsunami-hit fishing villages of this coast, this book demonstrates that indigenous knowledge systems, climate change perceptions, sociocultural norms, and governance systems of the fishers influence and contest the local adaptation responses to climate change. By foregrounding the real picture of vulnerability and adaptation actions of marine fishers in the face of climate change and disasters, this book also challenges the conventional understanding of local institutions and fishers' knowledge systems. Underlining that adaptation to

climate change is a sociopolitical process, this book explores the potentials, limits, and complexities of local adaptation actions of marine fishers of this coast and offers novel insights and climate change lessons gleaned from the field to other coasts of India and around the world. This book will be of great interest to students, scholars, and policymakers in climate change, fisheries, environmental sociology, environmental anthropology, sustainable livelihoods, and natural resource management.

Castillo, Suzanne Grant Lewis, 2022-02-21 Improving learning evidence and outcomes for those most in need in developing countries is at the heart of the United Nations' Sustainable Development Goal on Education (SDG4). This timely volume brings together contributions on current empirical research and analysis of emerging trends that focus on improving the quality of education through better policy and practice, particularly for those who need improved 'learning at the bottom of the pyramid' (LBOP). In addition, local experts, practitioners and policymakers describe their own work on LBOP issues being undertaken in Kenya, India, Mexico and Ivory Coast. The contributors argue persuasively that learning equity is a moral imperative, but also one that will have educational, economic and social impacts. dreams within conflict pdf: Italian Neofascism Anna Cento Bull, 2011-12 During the Cold War Italy witnessed the existence of an anomalous version of a civil conflict, defined as a 'creeping' or a 'low-intensity' civil war. Political violence escalated, including bomb attacks against civilians, starting with a massacre in Milan, on 12 December 1969, and culminating with the massacre in Bologna, on 2 August 1980. Making use of the literature on national reconciliation and narrative psychology theory, this book examines the fight over the 'judicial' and the 'historical' truth in Italy today, through a contrasting analysis of judicial findings and the 'narratives of victimhood' prevalent among representatives of both the post- and the neo-fascist right.

dreams within conflict pdf: *The Routledge Handbook on Radicalisation and Countering Radicalisation* Joel Busher, Leena Malkki, Sarah Marsden, 2023-11-28 This handbook provides a theoretical and methodological exploration of the research on radicalisation and counter-radicalisation, one of the most influential concepts in Security Studies, International Relations, and Peace and Conflict Studies. Sitting at the heart of high-profile research and policy agendas on preventing and countering violent extremism (P/CVE), radicalisation as a concept has transformed the way researchers, policymakers, and societies think about how to counter terrorism and political violence. Deliberations about radicalisation and countering radicalisation have become further embedded as efforts to prevent and counter violent extremism have been 'mainstreamed' into other areas of public policy and practice, such as education, gender relations, health, peacebuilding, aid, and development. Theoretically and methodologically pluralistic, this handbook addresses radicalisation and countering radicalisation as they relate to a wide range of groups and milieus, articulating diverse ideological positions, drawing together insight and experience from multiple geographic and institutional settings, integrating global perspectives, and including scholarship focused on a range of policy fields. This book will be an essential reference point for anybody working on radicalisation, countering radicalisation, or terrorism and political violence more broadly. The insight that it provides will be relevant for both academics and members of relevant policy and practitioner communities.

dreams within conflict pdf: *The Routledge Handbook on the American Dream* Robert C. Hauhart, Mitja Sardoč, 2022-11-30 The Routledge Handbook on the American Dream: Volume 2 explores the social, economic, and cultural aspects of the American Dream in both theory and reality in the twenty-first century. This collection of essays brings together leading scholars from a range of fields to further develop the themes and issues explored in the first volume. The concept of the American Dream, first expounded by James Truslow Adams in *The Epic of America* in 1931, is at once both ubiquitous and difficult to define. The term perfectly captures the hopes of freedom, opportunity and upward social mobility invested in the nation. However, the American Dream appears increasingly illusory in the face of widening inequality and apparent lack of opportunity, particularly for the poor and ethnic, or otherwise marginalized, minorities in the United States. As such, an understanding of the American Dream through both theoretical analyses and empirical studies, whether qualitative or quantitative, is crucial to understanding contemporary America. Like the first volume of *The Routledge Handbook on the American Dream*, this collection will be of great interest to students and researchers in a range of fields in the humanities and social sciences.

dreams within conflict pdf: *The Politics of Terror* Erica Chenoweth, Pauline L. Moore, 2018 Bringing together both classic and contemporary research, *The Politics of Terror* provides a systematic introduction to the theory, politics, and practice of terrorism. The text is framed around a set of empirical, theoretical, and methodological puzzles that arise in the study of terrorism, challenging students to think critically about key issues in the field.

dreams within conflict pdf: *The Psychology of Supremacy* Dwight Turner, 2023-08-18 The *Psychology of Supremacy* brings a developmental, philosophical and psychological lens to understanding the systems embedded within the socially constructed aspects of our intersectional identities. Offering a philosophical understanding of supremacy and its meaning within counselling and psychotherapy, the book examines just how and why supremacy exists, some of the psychology behind supremacy, and how it impacts clients, training, and practice. Chapters offer means and ways of observing and challenging systems of supremacy as they may appear within counselling and

psychotherapy relationships. Featured psychotherapeutic case studies detail stories from participants who have endured the painful experience of being involved in the power structures of supremacy. A must read for psychotherapists and counsellors, this book will also appeal to psychologists, social workers, qualitative and quantitative researchers, and anyone else interested in further deepening their understanding of supremacy, privilege, and otherness.

dreams within conflict pdf: *The Cow in the Elevator* Tulasi Srinivas, 2018-05-10 In *The Cow in the Elevator* Tulasi Srinivas explores a wonderful world where deities jump fences and priests ride in helicopters to present a joyful, imaginative, yet critical reading of modern religious life. Drawing on nearly two decades of fieldwork with priests, residents, and devotees, and her own experience of living in the high-tech city of Bangalore, Srinivas finds moments where ritual enmeshes with global modernity to create wonder—a feeling of amazement at being overcome by the unexpected and sublime. Offering a nuanced account of how the ruptures of modernity can be made normal, enrapturing, and even comical in a city swept up in globalization's tumult, Srinivas brings the visceral richness of wonder—apparent in creative ritual in and around Hindu temples—into the anthropological gaze. Broaching provocative philosophical themes like desire, complicity, loss, time, money, technology, and the imagination, Srinivas pursues an interrogation of wonder and the adventure of writing true to its experience. *The Cow in the Elevator* rethinks the study of ritual while reshaping our appreciation of wonder's transformative potential for scholarship and for life.

dreams within conflict pdf: *International Arbitration in the Energy Sector* Maxi Scherer, 2018-02-22 Disputes in the energy and natural resources sector are at the heart of international arbitration. With more arbitrations arising in the international energy sector than in any other sector, it is not surprising that the highest valued awards in the history of arbitration come from energy-related arbitrations. Energy disputes often involve complex and controversial issues relating to security, sovereignty, and public welfare. *International Arbitration in the Energy Sector* puts international energy disputes into a global context, providing broad coverage of different forms and systems of dispute resolution across both renewable and non-renewable sectors. With contributions from leading arbitrators, academics, and industry experts from across the globe, the twenty chapters in the book enable readers to compare the approaches to, and learnings from, energy arbitrations across various legal systems and geographic regions. After outlining the international energy arbitration legal framework in Part I, the text delves into a detailed analysis of the problems which regularly arise in practice. These include, among other things, commercial disputes in Part II (e.g. over the upstream oil sector and long-term gas supply contracts), investor-state disputes in Part III (e.g. under the Energy Charter Treaty), and public international law disputes in Part IV (e.g. concerning international boundaries and the distribution of natural resources). Alongside recent developments in the international energy sector, attention is given to climate and sustainable development disputes, which raise important questions about enforcing sustainability objectives on individuals, corporations, and states. Backed by analyses of arbitral awards, national court and international tribunal decisions, treaties, and other international legal instruments, as well as current events and news in the energy industry, this text offers a unique contribution to international energy literature and provides insightful commentary on the prevalent issues in the field. It is essential reading for any practitioner or researcher in the energy and natural resources sector.

dreams within conflict pdf: *Ahmadiyya Islam and the Muslim Diaspora* Marzia Balzani, 2020-01-20 This book is a study of the UK-based Ahmadiyya Muslim community in the context of the twentieth-century South Asian diaspora. Originating in late nineteenth-century Punjab, the Ahmadis are today a vibrant international religious movement; they are also a group that has been declared heretic by other Muslims and one that continues to face persecution in Pakistan, the country the Ahmadis made their home after the partition of India in 1947. Structured as a series of case studies, the book focuses on the ways in which the Ahmadis balance the demands of faith, community and

modern life in the diaspora. Following an overview of the history and beliefs of the Ahmadis, the chapters examine in turn the use of ceremonial occasions to consolidate a diverse international community; the paradoxical survival of the enchantments of dreams and charisma within the structures of an institutional bureaucracy; asylum claims and the ways in which the plight of asylum seekers has been strategically deployed to position the Ahmadis on the UK political stage; and how the planning and building of mosques serves to establish a home within the diaspora. Based on fieldwork conducted over several years in a range of formal and informal contexts, this timely book will be of interest to an interdisciplinary audience from social and cultural anthropology, South Asian studies, the study of Islam and of Muslims in Europe, refugee, asylum and diaspora studies, as well as more generally religious studies and history.

dreams within conflict pdf: Freedom dreaming futures for Black youth: Exploring meanings of liberation in education and psychology research Seanna Leath, Lauren Mims, Misha Inniss-Thompson, 2023-07-21 Research elucidating the developmental processes in Black children and youths' schooling and educative experiences is increasing (e.g., Carter-Andrews et al., 2019; Daneshzadeh & Sirrakos, 2018; Jackson & Howard, 2014; Neal-Jackson, 2018). Yet, the notion of "freedom dreaming" in relation to Black children and youth has received less attention within the fields of education and psychology. We draw from U.S. historian, Professor Robin D.G. Kelley's, concept of freedom dreaming to illuminate not only what we are fighting against in the education of Black youth (e.g., racial bias and discrimination, unfair disciplinary practices and criminalization, and Black youths' overrepresentation in special education and underrepresentation in gifted and talented programs), but also what we are fighting for - liberatory educational praxis that build on Black youths' individual and cultural strengths. In the current call, freedom dreaming refers to: (1) actively uplifting the complex lives and stories of Black children and youth in educational settings; (2) elevating Black children and youths' intersectional experiences related to ability, gender identity, sexuality, age, and socio-economic class; and (3) highlighting the innovative work of scholars who understand and value community power in efforts to advance educational change. We draw on Dr. Bettina Love's (2019) call for educational freedom, wherein she states, "The practice of abolitionist teaching is rooted in the internal desire we all have for freedom, joy, restorative justice (restoring humanity, not just rules), and to matter to ourselves, our community, our family, and our country with the profound understanding that we must "demand the impossible" by refusing injustice and the disposability of dark children." dreams within conflict pdf: The New Scramble for Africa Padraig R. Carmody, 2017-01-03 Once marginalized in the world economy, Africa today is a major global supplier of crucial raw materials like oil, uranium and coltan. China's part in this story has loomed particularly large in recent years, and the American military footprint on the continent has also expanded. But a new scramble for resources, markets and territory is now taking place in Africa involving not just state, but non state-actors, including Islamic fundamentalist and other rebel groups. The second edition of Pádraig Carmody's popular book explores the dynamics of the new scramble for African resources, markets, and territory and the impact of current investment and competition on people, the environment, and political and economic development on the continent. Fully revised and updated throughout, its chapters explore old and new economic power interests in Africa; oil, minerals, timber, biofuels, land, food and fisheries; and the nature and impacts of Asian and South African investment in manufacturing and other sectors. The New Scramble for Africa will be essential

reading for students of African studies, international relations and resource politics, as well as anyone interested in current affairs.
