live not by lies pdf: *Kingdom of Rage* Elizabeth Neumann, 2024-04-23 AN ECPA CHRISTIAN BOOK AWARD WINNER! A former counterterrorism official explores how modern evangelicalism and right-wing conservatism intermingled to form the combustible ideology that resulted in the January 6 attacks on the Capitol—and which threatens to destroy the American Church from within. How did a Church that purports to follow the teachings of Jesus - the Prince of Peace - become a breeding ground for violent extremism? When Elizabeth Neumann began her anti-terrorism career as part of President George W. Bush’s Homeland Security Counsel in the wake of the September 11 attacks, she expected to spend her life protecting her country from the threat of global terrorism. But as her career evolved, she began to perceive that the greatest threat to American security came not from religious fundamentalists in Afghanistan or Iraq but from white nationalists and radicalized religious fundamentalists within the very institution that was closest to her heart - the American evangelical church. And she began to sound the alarm, raising her concerns to anyone in government who would listen, including testifying before Congress in February of 2020. At that

time, Neumann warned that anti-Semitic and white supremacist terrorism was a transnational threat that was building to the doorstep of another major attack. Shortly after her testimony, she resigned from her role as Department of Homeland Security Assistant Secretary for Counterterrorism and Threat Prevention in protest of what she believed was then-President Trump's failure of leadership and his stoking of the hatred, anger, and division from which she had dedicated her life to protecting her country. Her worst fears came true when she witnessed the attack on the capital on January 6, 2021. In *Kingdom of Rage*, Neumann explores the forces within American society that have encouraged the radicalization of white supremacist, anti-government and other far-right terrorists by co-opting Christian symbols and culture and perverting the faith's teachings. While Neumann offers decades of insights into the role government policies can play to prevent further bloodshed, she believes real change must come from the within the Christian church. She shines a bright light on the responsibility of ordinary Americans – and particularly American Christians – to work within their families and their communities to counteract the narrative of victimization and marginalization within American evangelicalism. Her goal for this book is not only to sound a warning about one of the greatest threats to our security but to rescue the Church from the forces that will, if left unchecked, destroy it – culturally, morally, and ultimately quite literally. This is a book for anyone who wants to understand the unholy marriage of right-wing politics and Christian exceptionalism in America and who wants to be a part of reversing the current path towards division, hatred, violence and the ultimate undermining of both evangelical Christianity and American democracy.

This book is a must read for all who wish to better understand the background to the conflict. It provides an easily readable account of the Biblical and post-Biblical history of the Jewish homeland along with an immense amount of vital and current information.

live not by lies pdf: *Don't Go to College* Timothy Gordon, Michael Robillard, 2022-08-02 An examination of how America's colleges have become an intellectual hell on Earth for anyone who wishes to think rationally and seek truth and wisdom, as well as a plan for how young citizens can claim and safeguard the learning and heritage to which they are entitled. From safe-spaces and trigger warnings, to grievance studies and neo-Marxist indoctrination, to sexual degeneracy and hook-up culture, to student loan indentured servitude, to useless degrees with no translatable real-world application, the modern-day American university now functions as the complete inversion of its original purpose. Rather than creating civically-minded, competent citizens and adults able to

provide for themselves, their families, and their society, America's universities now function as institutional assembly lines for the production of the new 21st century global citizen-serf: atomized, infantilized, dependent, and pacified. This book provides the definitive diagnosis of what exactly happened to America's universities while giving the reader a blueprint for how young citizens, parents, and local communities alike can safeguard, escape, and begin resisting such pernicious indoctrination and illogical woke nonsense.

live not by lies pdf: Post-Enlightenment Self-Education Eugene Matusov, 2025-06-16 The book aims to challenge and redefine the traditional Enlightenment approach to education by advocating for a Post-Enlightenment model that emphasizes self-education rooted in individual autonomy, dignity, and diverse experiences. It critiques the Enlightenment's narrow focus on rationality and hierarchy, proposing a more inclusive and personalized method that values emotional intelligence and contextual understanding. The book seeks to promote a radical shift towards educational pluralism, where learning is driven by the learner's own needs, interests, and judgments, rather than imposed by external authorities. Ultimately, it calls for a reimagined educational paradigm that aligns with the principles of universal human dignity and autonomy, envisioning a future where education is a personal and existential pursuit supported by democratic societal structures.

live not by lies pdf: The Scandal of the Evangelical College Martin Spence, 2025-06-30 Despite heady claims about Christ-centeredness, Evangelical colleges are scandalously secular institutions, in thrall to the regnant assumptions of the market economy and mainstream higher education. Paradigms intended to "integrate faith and learning" often ironically fracture and distort Christianity. Even the "spiritual" dimensions of the Christian college, presumed to keep it safe from religious declension, are prone to secularizing tendencies because the American Evangelical culture from which the college receives its spiritual cues—and from which it accepts its donors' money—is itself captive to a set of sub-biblical economic, social, and political assumptions. This book argues that the cause of the scandal is the absence of the church in the imagination of the Evangelical college. It therefore proposes that the mission and practice of the Evangelical college should be to summon, equip, and renew the people of God. While this may sound like a return to an obsolete bible school model of Christian education, the ecclesial vision only sounds narrow because we lack a robust understanding of the vocation of the church itself. By simultaneously restricting our vision of the Evangelical college while broadening our understanding of the church, a more fully evangelical educational endeavor might emerge.

live not by lies pdf: Building the Benedict Option Ward Davis, 2024-04-10 In his book *The Benedict Option*, Rod Dreher issued a timely warning to the church. In an attempt to engage the broader culture with the gospel it had failed to create a distinct Christian culture and instead had been coopted by American consumer culture. The result was an anemic church ill-prepared to face a quickly darkening cultural landscape and civilizational decline. In response, Dreher argued, it was time for the church to develop new ways of "doing" church. It was time to create new institutions and strategies to help it better form disciples, minister to the broader culture, and survive the years

ahead. It was time for a "Benedict Option." This book provides a template for how the leaders in a local church might go about creating their own Benedict Option Community (Ben Op community). It looks specifically at the early Irish monastic movement for principles church leaders today can use to develop their own Ben Op community, or "modern monastic settlement." In the process, Davis provides the reader a brief introduction to architecture, urban planning, and place-making and explains why an understanding of these disciplines is necessary to create a healthy, effective Ben Op community.

live not by lies pdf: Counterpunch Floyd G. Brown, 2023 Is it possible for renewal to come through peace rather than power? This book will illuminate how we can implement peaceful resistance against the immorality and policies of the Radical Left to bring a renewal of liberty, freedom, and biblically based principles back to America. In his groundbreaking new book, *Counterpunch*, Floyd G. Brown issues both the battle cry and a strategic action plan for a populist movement in America that goes beyond any president or political party. Issue by issue, the Left chooses new markers in the sand and waits to see who will embrace their agenda. Those who don't are canceled and silenced. This leads to alienation and the feeling that violence is the only option left. Brown wants readers to know there is another way, a civil disobedience of the state that allows us to be peaceful--and potentially more successful. *Counterpunch* explains step-by-step how you can take part in a second American Revolution that will completely reorder the country under new governing principles. Touted as the Christian answer to Saul Alinsky's *Rules for Radicals*, Brown's *Counterpunch* outlines a strategy for mobilizing a peaceful resistance that leads to collective action. Utilizing an evergreen approach that isn't focused on specific public policy issues, Floyd delivers a practical, biblically based plan for every American that will lead to the renewal of liberty.
