translations brian friel pdf: Translation and Stylistic Variation Helen Gibson, 2023-09-01
Translation and Stylistic Variation: Dialect and Heteroglossia in Northern Irish Poetic Translation considers the ways in which translators use stylistic variation, analysing the works of three Northern Irish poet-translators to look at how, in this variety, the translation process becomes a creative act by which translators can explore their own linguistic and cultural heritage. The volume offers a holistic portrait of the use of linguistic variety – dialect and heteroglossia – in the literary translations of Seamus Heaney, Ciaran Carson, and Tom Paulin, shedding light on the translators' choices but also readers' experiences of them. Drawing on work from cognitive stylistics, Gibson reflects on how and why translators choose to add linguistic variety and how these choices can often be traced back to their socio-cultural context. The book not only extends existing scholarship on Irish-English literary translation to examine issues unique to Northern Ireland but also raises broader questions about translation in locations where language choice is fraught and political. The volume makes the case for giving increased consideration to the role of the individual translator, both for insights into personal choices and a more nuanced understanding of contemporary literary translation practices, in Ireland and beyond. This book will be of interest to scholars working in translation studies, literary studies and Irish studies. translations brian friel pdf: *Samuel Beckett in Confinement* James Little, 2020-05-14 *Confinement* appears repeatedly in Samuel Beckett's oeuvre - from the asylums central to *Murphy* and *Watt* to the images of confinement that shape plays such as *Waiting for Godot* and *Endgame*. Drawing on spatial theory and new archival research, *Beckett in Confinement* explores these recurring concepts of closed space to cast new light on the ethical and political dimensions of Beckett's work. Covering the full range of Beckett's writing career, including two plays he completed for prisoners, *Catastrophe* and the unpublished 'Mongrel Mime', the book shows how this engagement with the ethics of representing prisons and asylums stands at the heart of Beckett's poetics. James Little's *Beckett in Confinement* offers a brilliant analysis of the politics behind Beckett's production of closed space, both as a writer and as a director. It carefully examines the move from writing about closed space to creating an art of confinement. To argue that Beckett's use of confined space is central to the political dynamics of his works, James Little also superbly employs genetic criticism to open up the confined space of the published text and bring highly relevant draft materials back into the critical conversation. Dirk Van Hulle, Professor of Bibliography and Modern Book History, University of Oxford, UK The many characters Beckett invented share one characteristic: they are all imprisoned or trapped in some way, no matter where they are. Samuel Beckett in *Confinement: The Politics of Closed Space* draws on untapped riches from Beckett's correspondence and the archives to reconsider the obsession with entrapment, coercion and detention central to Beckett's varied oeuvre. In this exciting and illuminating analysis, James Little offers a fresh and original reading of the work's ethical and political dimensions, and shows us why we need to stop thinking about confinement as a metaphysical metaphor. Emilie Morin, Professor of Modern Literature, University of York, UK Little breaks new ground in this expansive investigation to explore how confinement is a central component of Beckett's political aesthetics ... The reader is guided by a crisp and easy style of writing as Little demonstrates a command of sources which are broad in scope, but negotiated to form a compelling and impactful study. *Journal of Beckett Studies*

Cavafy lived most of his life as part of the Greek minority community in Alexandria, Egypt. He was inspired by the possibilities offered by peripheries, whether sexual, geographic, or historical. instructors introduce students to Cavafy's works and explore them from many angles with the help of the extensive archives now available. Essays address teaching Cavafy both as a poetic historian of the Hellenistic, Roman, and Byzantine worlds and through the lens of postcoloniality. translations brian friel pdf: Temporalities in/of Crises in Anglophone Literatures Sibylle Baumbach, Birgit Neumann, 2023-08-08 Literary works play a crucial role in modelling and conceptualising temporalities. This becomes particularly apparent in times of crises, which put conventionalised temporal patterns and routines under pressure. During crises, past, present, and future appear to collapse into each other and give way to temporal disjunction and rupture. Offering pluralised and context-sensitive approaches to temporalities in and of crises, this volume explores how literature's engagement with crises suggests both the need for and possibility of rethinking 'time'. The volume is committed to examining the affordances of specific genres and their potential in pointing beyond temporalities of crises to facilitate a sense of futurity. Individual essays are grounded in recent theories of temporality and literary form, which are related to novel advancements in ecocriticism, queer studies, affect theory, and postcolonial studies. The chapters cover a broad range of examples from different literary genres to reveal the knowledge of literature about temporalities in and of crises.

translations brian friel pdf: Caliban's Voice Bill Ashcroft, 2009-01-21 In Shakespeare's *Tempest*, Caliban says to Miranda and Prospero: ...you taught me language, and my profit on't Is, I know how to curse. With this statement, he gives voice to an issue that lies at the centre of post-colonial studies. Can Caliban own Prospero's language? Can he use it to do more than curse? *Caliban's Voice* examines the ways in which post-colonial literatures have transformed English to redefine what we understand to be 'English Literature'. It investigates the importance of language learning in the imperial mission, the function of language in ideas of race and place, the link between language and identity, the move from orature to literature and the significance of translation. By demonstrating the dialogue that occurs between writers and readers in literature, Bill Ashcroft argues that cultural identity is not locked up in language, but that language, even a dominant colonial language, can be transformed to convey the realities of many different cultures. Using the figure of Caliban, Ashcroft weaves a consistent and resonant thread through his discussion of the post-colonial experience of life in the English language, and the power of its transformation into new and creative forms.

translations brian friel pdf: The Memory Marketplace Emilie Pine, 2020-06-30 What happens when cultural memory becomes a commodity? Who owns the memory? In *The Memory Marketplace*, Emilie Pine explores how memory is performed both in Ireland and abroad by considering the significant body of contemporary Irish theatre that contends with its own culture and history. Analyzing examples from this realm of theatre, Pine focuses on the idea of witnesses, both as performers on stage and as members of the audience. Whose memories are observed in these transactions, and how and why do performances prioritize some memories over others? What does it mean to create, rehearse, perform, and purchase the theatricalization of memory? *The Memory Marketplace* shows this transaction to be particularly fraught in the theatricalization of traumatic moments of cultural upheaval, such as the child sexual abuse scandal in Ireland. In these

performances, the role of empathy becomes key within the marketplace dynamic, and Pine argues that this empathy shapes the kinds of witnesses created. The complexities and nuances of this exchange—subject and witness, spectator and performer, consumer and commodified—provide a deeper understanding of the crucial role theatre plays in shaping public understanding of trauma, memory, and history.

translations brian friel pdf: Sir Ronald Storrs Christopher Burnham, 2024-09-09 This volume utilises the personal papers of Sir Ronald Storrs, as well as other archival materials, to make a microhistorical investigation of his period as Governor of Jerusalem between 1917 and 1926. It builds upon Edward Said's work on the Orientalist 'determining imprint' by arguing that Storrs took a deeply personal approach to governing the city; one determined by his upbringing, his education in the English private school system and his service as a British official in Colonial Egypt. It recognises the influence of these experiences on Storrs' perceptions of and attitudes towards Jerusalem, identifying how these formative years manifested themselves on the city and in the Governor's interactions with Jerusalemites of all backgrounds and religious beliefs. It also highlights the restrictions placed on Storrs' approach by his British superiors, Palestinians and the Zionist movement, alongside the limitations imposed by his own attitudes and worldview. Placing Storrs' personality at the centre of discussion on early Mandate Jerusalem exposes a nuanced and complex picture of how personality and politics collided to influence its everyday life and built environment. The book is aimed at historians and students of the late-Ottoman Empire and British Mandate in Palestine, colonialism and imperialism, and microhistory.

translations brian friel pdf: *Economic Assistance and Conflict Transformation* Sean Byrne, 2010-10-18 This book examines the role of economic aid in the management and resolution of protracted ethnic conflicts, focusing on the case study of Northern Ireland. The book describes the results of a study of the role of economic aid within Northern Ireland, through the viewpoints of citizens collected in an opinion poll as well as community group leaders whose projects received funding, funding-agency civil servants and development officers. The study explains the importance of economic and social development in promoting cross-community contact as well as within single-identity communities, and the need for a multitrack intervention approach to transform the conflict in Northern Ireland. It makes an important contribution to our understanding of how economic assistance impacts on a divided society with a history of protracted violence and provides important perspectives on the peace through development idea. One of the key unanswered questions relating to economic aid and preventing future violence is that of the significance of external economic aid in building peace after violence. By examining the respondents' political imagery, this book expands on existing work on economic aid and peace building in other societies coming out of violence. Northern Ireland's changing social-economic and political context reflects the fact that economic aid and sustainable economic development is a cornerstone of the peacebuilding process. The goal of the book is to provide a foundational knowledge base for students and practitioners about the role of economic aid in building the peace dividend in postaccord societies. The book will be of great interest to students of conflict resolution, peacebuilding, Irish politics, peace and conflict studies, and politics and IR in general.
