benefits of gratitude pdf: Coaching in the Classroom Linda L. Hopper Ph.D., 2024-08-18 Coaching has become mainstream in today's society. You can hire a coach for sports training, sorting out your finances, making career decisions or in relationships. Why then, don't we have more coaching in education? Linda Hopper took her 20 years of experience in business and coaching into the classroom to figure out how any teacher desiring more empowerment for students and teachers could become a teacher/coach. Knowing that teachers have precious little time, Linda shares how she used Lesson Bites (mini lessons) in as little as 20 to 50 minutes a week to coach middle and high school students, integrating principles of positive psychology and social emotional learning. With a change in focus, teacher/coaches empower students with the mindsets, tools, and strategies to design a more meaningful life of well-being, bringing more relevance to learning in the classroom.

Despite being outdated, the education system today still uses a one-size-fits-all approach to learning that expects all students learn the same way and then evaluates progress only through standardized testing. The good news is that teachers have the power to mitigate this obsolete method. Through coaching, educators can help students and themselves design lives that bring more joy, a creative use of abilities and strengths, and greater freedom from stress. Linda Hopper, PhD, relies on over three decades of experience in business, education, coaching, and as a parent to share insights into how the empowerment method of coaching fits into education and why teachers need to coach emotions first, followed by information about the three key areas of personal development for students, lesson bites from her toolbox, and other resources that help educators coach students to attain better well-being. Through her guidance, teachers will learn how to shift their perspective and empower students with the mindsets, tools, and strategies to create a life of purpose and meaning while bringing more relevance to learning in the classroom. In this practical guide, an experienced educator, coach, and parent offers ways to bring a greater awareness of well-being into the classroom through coaching that benefits both teachers and students.

benefits of gratitude pdf: Joyous Resilience Anjuli Sherin, 2021-01-26 An intersectional guide to building resilience and reclaiming joy With so much information available on how to build resilience--from meditation, exercise, and time in nature, to the latest neuroscience-backed studies--have you ever wondered what's holding you back? If you commit to self-care but find yourself exhausted, unhappy, or anxious, do you wonder what's missing? The fact is, we are all navigating an exhausting, disconnecting, do-more-buy-more culture that disproportionately harms those with marginalized identities and leads us to believe that our thriving depends solely on individual effort. Mainstream wellness culture doesn't account for the ways that social oppression and economic injustice intersect to make resilience difficult for many of us to access in the first place. So, where do we begin? In this warm and accessible guide, Pakistani American therapist Anjuli Sherin provides a healing path to make thriving possible for everyone. Through compelling client stories and reflective exercises, she offers a culturally informed, body-centered model that shows us how cultivating self-nurturance, healthy boundaries, pleasure, and a soulful connection to the natural world can give us the generative energy needed to heal individual and collective trauma and shape our world from an inner magic called joyous resilience.

benefits of gratitude pdf: Compassion's COMPASS Wilson C. Hurley, 2021-09-27 Compassion's COMPASS: Strategies for Developing Kindness and Insight offers a systematic approach to developing compassionate insight that has been adapted from Tibetan mind training strategies, secularized for modern audiences, and supplemented with relevant research, anecdotes, and exercises in accessible language. This book contains easy exercises for regaining composure, boosting compassionate insight, preventing compassion fatigue, and maintaining compassion resilience. "COMPASS" is an acronym for "Compassion and Analytical Selective-Focus Skills". Selective-focus skills suggest contemplations that can help to generate and enhance compassionate insight. These exercises follow an "emotional logic" in which one step produces a basis for cultivating the next. These skill steps are broken down in detail within each section of the book containing a discussion of the purpose of the skill being presented, supporting research for it, examples of its use, and short exercises for the reader to try in order to cultivate and enhance it. These techniques have been piloted with social workers and therapists-in-training. Details of these pilot studies are included along with a handbook for helping professionals in the prevention and healing of compassion fatigue. The exercises that are presented in each chapter are also compiled in order for easy use in the handbook in back of the book.

benefits of gratitude pdf: The Ritual Yearbook Theresa Cheung, 2019-11-19 We all need to find connection and meaning in the midst of the fast paced world we live in and rituals offer an easy and simple way to do this. In this 365 year-long exploration, Theresa Cheung offers daily practices to help us bring focus and attention to our lives for meaningful and achievable change. A ritual is any action we take that has meaning beyond its appearance; by giving an action intention it becomes 'sacred' and purposeful. The absence of significant ceremony in our lives has left us feeling disconnected, confused and alone. Rituals and ceremony allow us to be present in the now, focus on the future and provide us with closure on the past, they return us to what matters. Drawing on science and psychology, Theresa Cheung's 365 non-denominational rituals will help anyone to transform their lives. Split into four sections, the book begins with 21 simple foundation rituals to help you ground your daily practice. The second and largest section is broken down into 4 areas: Body, Mind, Spirit and Heart. Each containing 74 rituals, some simple and some more complex. Choose the area you feel you want to focus on and follow the rituals in sequence or choose as you wish. The third section has a four-week programme focussing on success and broken down week-by-week and the final section contains 21 closing rituals. For those wanting a year long programme the book can be used day-by-day or alternatively choose a ritual at random.
