concilio vaticano ii pdf: The Oxford Handbook of Vatican II Catherine E. Clifford, Massimo Faggioli, 2023-01-19 The Oxford Handbook of Vatican II is a rich source of information and reflections on many aspects of the Second Vatican Council (1962-1965), one of the most significant religious events of the twentieth century. The chapters introduce readers to the historical context and outstanding features of the conciliar event, and its principal teachings on Scripture and Tradition, the church, liturgy, religious liberty, ecumenism, interreligious dialogue, church-world relations, and mission. Consideration is given to some neglected aspects of the council, including: the forgotten papal speeches that lay out its fundamental orientation and ought to guide its interpretation; the presence and contributions of women; and the non-reception of the council among Catholic traditionalists. Ecumenical scholars reflect on the significance of Vatican II for the life of other Christian churches and the search for Christian unity; others examine Catholic dialogue with other religious traditions. Surveying the diverse receptions of the council in the perspective of a world church, chapters focusing on Asia, Africa, Latin America, North America, Oceania, and Europe reflect on the interpretation and influence of the council and its teaching on the life of the church in diverse cultural contexts. This Handbook will serve as a valuable guide to one of the most important events and bodies of Catholic teaching since the Protestant Reformation and the Council of Trent in the sixteenth century, to the interpretation of the council's teaching, and to its continuing role in

guiding the life of the church in the twenty-first century. .

concilio vaticano ii pdf: *Mary and the Church at Vatican II: The Untold Story of Lumen Gentium VIII* Laurie Olsen, 2024-07-01 This masterful work by Dr. Laurie Olsen uncovers the behind-the-scenes story of the Dogmatic Constitution on the Church *Lumen Gentium VIII* based on unpublished records from the Vatican Apostolic Archives, including internal memoranda, private notes, never-before-heard audio recordings of closed-door sessions, and more. This monumental achievement of archival research provides a window into what really happened at Vatican II—the council’s inner workings and maneuvers to steer *Lumen Gentium VIII* in a direction that would profoundly affect marian devotion and the study of mariology from that moment on.

concilio vaticano ii pdf: *Vatican II* Massimo Faggioli, 2012 The death of John Paul II and the election of Benedict XVI constituted two important elements in the broad theological and cultural landscape of Catholicism. This change of pontificate has also nourished the journalistic and political dispute about Vatican II, its history and its legacy, and not only the historiographical and theological debate. But the research on Vatican II is already proceeding forward and beyond the state of knowledge about the Council reached at the end of the 90s. For 21st century Catholics and theologians interested in understanding contemporary Catholicism in the light of Vatican II the intellectual undertaking is far from accomplished yet. The book offers comprehensive presentation of the theological and historiographical debate about Council Vatican II. The attempt to go beyond the clash of interpretations - Vatican II as a rupture in the history of Catholicism on one side, the need to read Vatican II in continuity with the tradition on the other - is necessary indeed because the ongoing debate about Vatican II is largely misrepresented by the use of clashing interpretations as a tool for understanding the role of the council in present-day Catholicism.

concilio vaticano ii pdf: *Monasticism in Eastern Europe and the Former Soviet Republics* Ines Angeli Murzaku, 2015-08-27 This book looks at Eastern and Western monasticism’s continuous and intensive interactions with society in Eastern Europe, Russia and the Former Soviet Republics. It discusses the role monastics played in fostering national identities, as well as the potentiality of monasteries and religious orders to be vehicles of ecumenism and inter-religious dialogue within and beyond national boundaries. Using a country-specific analysis, the book highlights the monastic tradition and monastic establishments. It addresses gaps in the academic study of religion in Eastern European and Russian historiography and looks at the role of monasticism as a cultural and national identity forming determinant in the region.

concilio vaticano ii pdf: *50 Years On* David Schultenover, 2015-05-15 Pope John XXIII prayed that the Second Vatican Council would prove to be a new Pentecost. The articles gathered here appeared originally in a series solicited by and published in *Theological Studies* (September 2012 to March 2014). The purpose of the series was and remains threefold: • To commemorate the 50th anniversary of the Second Vatican Council • To help readers more fully appreciate its significance not only for the Catholic Church itself but also for the entire world whom the Church encounters in proclamation and reception of ongoing revelation • In their present form, to help readers worldwide engage both the conciliar documents themselves and scholarly reflections on them, all with a view to appropriating the reform envisioned by Pope John XXIII. concilio vaticano ii pdf: *SACERDOTES DE DIOS Y DE CRISTO* Francisco Acedo Fernández, 2022-01-10 La Iglesia Católica se ha propuesto la SINODALIDAD como uno de los objetivos fundamentales de comunión para todos los cristianos. Para ello el Papa Francisco ha convocado en 2021 un Sínodo de obispos que reciba propuestas e ideas de todo el orbe cristiano, para que examinadas a la luz del Espíritu Santo sepan proyectar una Iglesia más firme y cohesionada entre todos sus miembros, que manifieste una imagen más plena del amor que Jesucristo mandó practicar, pero que actualmente vemos separada en multitud de clases e ideologías que no dudan en

enfrentarse entre sí, causando escándalo y división a la Iglesia y el mundo en general. Como solución a estos conflictos, el autor recupera una idea recibida en el Concilio Vaticano II y cuya ejecución fue apartada por miedo a resultar escandalosa, siendo esta una de las principales causas de una clara disociación de funciones que aboca a los distintos estados de la Iglesia a labores estrictamente religiosas o seculares, sin concederse la más mínima permeabilidad entre ellos, en un triste ejercicio de falta de comunión. El autor propone difundir a todos los cristianos la noción de SACERDOCIO COMÚN, que como sacerdotes iguala por el Bautismo a todos los cristianos ante Dios, desde su posibilidad de comunicarse espiritualmente con Cristo y sus criaturas por el amor, e interceder eficazmente por todos los hombres y mujeres de esta tierra, independientemente del sacerdocio instituido por Cristo de administración de los sacramentos. Llamados a la santidad por su capacidad de integrar oración y caridad, amor a Dios y al prójimo, dentro de su proyecto de santidad como llamada de Cristo al corazón de cada uno, y que como tal nadie debería subestimar nunca más.

concilio vaticano ii pdf: Padua and Venice Brigit Blass-Simmen, Stefan Weppelmann, 2017-11-20 Venice and Padua are neighboring cities with a topographical and geopolitical distinction. Venice is a port city in the Venetian Lagoon, which opened up towards Byzantium and the East. International experts investigate how these two different concepts stimulated each other in the Early Modern Age, and how the exchange worked.

concilio vaticano ii pdf: Martin Luther Alberto Melloni, 2017-12-20 The three volumes present the current state of international research on Martin Luther's life and work and the Reformation's manifold influences on history, churches, politics, culture, philosophy, arts and society up to the 21st century. concilio vaticano ii pdf: The Vatican «Ostpolitik» 1958-1978 Autori Vari, 2017-04-06T00:00:00+02:00 The appraisal of the political dialogue and negotiations with the communist regimes of East Central Europe commenced by the Holy See in the 1960s did not provoke only lively debates among contemporaries, but remains to the present day one of the most debated questions of the twentieth-century history: should it be assessed as a fixed path to which no alternative existed, or was it a flawed initiative which merely served the international legitimacy of the communist totalitarian system? This volume enriches the results of earlier historiography with new perspectives and confirms inter alia that a black-and-white reading (often based on a one-sided use of sources) of Ostpolitik is incorrect: just as the critical assessment, which frequently places local considerations at the forefront, requires revision, the at times apologetic outlook defending the Vatican's Eastern policy is also untenable. Only a nuanced and source-focused analysis of the ambitions of the Roman and Muscovite centers, and of local politics and Churches, as well as dialogue between the various research trends, can help us to gain a more thorough knowledge of (and make us better understand) those fixed paths upon which the Roman and local ecclesiastics of the era were forced to travel and which limited the possibility of success.

concilio vaticano ii pdf: Teaching and Tradition , 2023-10-09 This book focuses on the crucial

role of teaching in the process of tradition. The various essays present case studies, written by specialists in the field, on themes drawn from the biblical, Jewish and Christian practice of 'tradition', the passing on of faith from generation to generation. Underlying these essays is the conviction that teaching is a privileged context for the study of tradition, since it always both preserves and renews tradition. There is no tradition without teaching, in which the past is interpreted in the present and the present is seen in the light of the past. Contributors are: Jan Bouwens, Rob V.J. Faesen, Leon Mock, Jos Moons, Krijn Pansters, Henk J. M. Schoot, Rudi A. te Velde, Archibald L. H. M. van Wieringen, and Ruben J. van Wingerden.

concilio vaticano ii pdf: *An Avant-garde Theological Generation* Jon Kirwan, 2018-03-09 *An Avant-garde Theological Generation* examines the Fourvière Jesuits and Le Saulchoir Dominicans, theologians and philosophers who comprised the influential reform movement the nouvelle théologie. Led by Henri de Lubac, Jean Daniélou, Yves Congar, and Marie-Dominique Chenu, the movement flourished from the 1930s until its suppression in 1950. It aims to remedy certain historical deficiencies by constructing a history both sensitive to the wider intellectual, political, economic, and cultural milieu of the French interwar crisis, and that establishes continuity with the Modernist crisis and the First World War. Chapter One examines the modern French avant-garde generations that have shaped intellectual and political thought in France, providing context for a historical narrative of the nouvelle théologie. Chapters Two and Three examine the influential older generations that flourished from 1893 to 1914, such as the Dreyfus generation, the generation of Catholic Modernists, and two generations of older Jesuits and Dominicans, which were instrumental in the Fourvière Jesuits' development. Chapter Four explores the influence of the First World War and the years of the 1920s, during which the Jesuits and Dominicans were in religious and intellectual formation, relying heavily on unpublished letters and documents from the Jesuits archives in Paris (Vanves). Chapter Five analyses the crises of the interwar period and the emergence of the wider generation of 1930--to which the nouveaux théologiens belonged--and its intellectual thirst for revolution. Chapter Six examines the emergence of the ^ ressourcement thinkers during the tumultuous years of the 1930s. The decade of the 1940s, explored in Chapter Seven, saw the rise to prominence of the members of the generation of 1930, who, thanks to their participation in the resistance, emerged from the Second World War, with significant influence on the postwar French intellectual milieu. Finally, the monograph concludes in Chapter Eight with an examination of the triumph of French Left Catholicism and the nouvelle théologie during the 1960s at the Second Vatican Council.

concilio vaticano ii pdf: *Global Catholicism, Tolerance and the Open Society* Arno Tausch, Stanislaw Obirek, 2019-09-03 This book systematically assesses the political and social values of the more than 1.3 billion Catholics around the globe, by far the largest denomination of Western Christianity. Based on an extensive analysis of data from the World Values Survey and other global opinion surveys, the book sheds new light on the value systems and opinions of Roman Catholics. The authors highlight core problems and challenges the Church is currently facing in adapting to the modern world, including Catholic anti-Semitism, religious and sexual tolerance, and opinions towards democracy, while also offering an anthropological reflection on how well the Church is adapting or failing to adapt to the requirements of an open society.

concilio vaticano ii pdf: *Liberation Theology and the Others* Christian Büschges, Andrea Müller, Noah Oehri, 2021-09-28 Looking beyond prominent figures or major ecclesial events, *Liberation Theology and the Others* offers a fresh historical perspective on Latin American liberation theology. Thirteen case studies, from Mexico to Uruguay, depict a vivid picture of religious and lay activism that shaped the profile of the Latin American Catholic Church in the second half of the 20th century. Stressing the transnational character of Catholic activism and its intersections with prevalent discourses of citizenship, ethnicity or development, scholars from Latin America, the US, and Europe, analyze how pastoral renewal was debated and embraced in multiple local and culturally diverse contexts. Contributors explore the connections between Latin American liberation theology and anthropology in Peru, armed revolutionaries in highland Guatemala, and the

implementation of neoliberalism in Bolivia. They identify conceptions of the popular church, indigenous religiosity, women's leadership, and student activism that circulated among Latin American religious and lay activists between the 1960s and the 1980s. By revisiting the multifaceted and oftentimes contingent nature of church reforms, this edited volume provides fascinating new insights into one of the most controversial religious movements of the 20th century.

concilio vaticano ii pdf: Modern Catholic Family Teaching Jacob M. Kohlhaas, Mary M. Doyle Roche, 2024 This volume features academic commentary on the key magisterial texts that constitute the sources of contemporary Catholic teaching on the family. Although Catholic Family Teaching (CFT) emerged and has developed in parallel with Catholic Social Teaching (CST), its documentary heritage has neither been explored in a parallel fashion nor to a similar academic depth. This volume redresses this imbalance by collecting outstanding commentaries and interpretations of the primary texts and key theological and historical developments in a first of its kind critical engagement with the documentary tradition of CFT. Each chapter engages a moment in this tradition of teaching in order to invite critical academic engagement with CFT, a topic that increasingly bears weight across diverse areas of theological and ethical consideration. By offering a clear understanding of the tradition's growth in the previous 130 years, the volume equips scholars and students of theology to engage the pressing questions of our time--

concilio vaticano ii pdf: The "Sense of the Faith" in History John J. Burkhard, OFM Conv., 2022-01-15 While taught by Vatican II, the "sense of the faith" (*sensus fidei*) has had little official impact in the Catholic Church. What would the church look like if it took this conciliar teaching to heart? To address this neglect, John Burkhard locates the historical roots of the teaching and its emergence at Vatican II. It attempts to better understand the "sense of the faith" in the light of other fundamental teachings of the council and challenges the hierarchical church to invite all the faithful to rightfully participate in the prophetic ministry of the whole church, closely allied with Pope Francis's call for a more synodal church.
