doug coe jesus book pdf: Doing Diaspora Missiology Toward "Diaspora Mission Church" Luther Jeom Ok Kim, 2016-01-05 In U.S. Population Projections: 2005-2050, Pew Research Center reported that The nation's population will rise to 438 million in 2050, from 296 million in 2005, and fully 82% of the growth during this period will be due to immigrants arriving from 2005 to 2050 and their descendants. This shows that it is essential to study and understand how our mission, especially in the context of the USA, called the nation of immigrants, will respond to this huge mobility of immigrant diaspora. So far, there has been emphasis on doing diaspora missiology; however, there is no practical implications and application in local church setting. Now mission is next door, which implies that the ministry of the local church should be emphasized for 21st contemporary mission. This book provides detailed frameworks and methods of diaspora missiology within local churches, called 'diaspora mission church.' According to the Bible, all human beings are theologically and spiritually diaspora, irrespective of ethnicity, because they were banished from the Garden of Eden, and scattered around the world in God's judgment. Now, they walk toward the encounter with Jesus Christ, preach the gospel as the seed of Kingdom, and finally move toward heaven.

doug coe jesus book pdf: Legitimizing New Religions James R. Lewis, 2003 James R. Lewis has written the first book to deal explicitly with the issue of how emerging religions legitimate themselves. He contends that a new religion has at least four different, though overlapping, areas where legitimacy is a concern: making converts, maintaining followers, shaping public opinion, and appeasing government authorities. The legitimacy that new religions seek in the public realm is primarily that of social acceptance. Mainstream society's acknowledgement of a religion as legitimate means recognizing its status as a genuine religion and thus recognizing its right to exist. Through a series of wide-ranging case studies Lewis explores the diversification of legitimation strategies of new religions as well the tactics that their critics use to de-legitimate such groups. Cases include the Movement for Spiritual Inner Awareness, Native American prophet religions, spiritualism, the Church of Christ-Scientist, Scientology, Church of Satan, Heaven's Gate, Unitarianism, Hindu reform movements, and Soka Gakkai, a new Buddhist sect. Since many of the issues raised with respect to newer religions can be extended to the legitimation strategies deployed by established religions, this book sheds an intriguing new light on classic questions about the origin of all religions.
