Sir Edwin Arnold KCIE CSI (10 June 1832 - 24 March 1904) was an English poet and journalist, who is most known for his work *The Light of Asia*. Biography: Arnold was born at Gravesend, Kent, the second son of a Sussex magistrate, Robert Coles Arnold. One of his six children was the novelist Edwin Lester Arnold. He was educated at King's School, Rochester; King's College London; and University College, Oxford, where he won the Newdigate prize for poetry in 1852. He became a schoolmaster, at King Edward's School, Birmingham, and in 1856 went to India as Principal of the Government Sanskrit College at Poona, a post which he held for seven years, which includes a period during the mutiny of 1857, when he was able to render services for which he was publicly thanked by Lord Elphinstone in the Bombay Council. Here he received the bias towards, and gathered material for, his future works. Returning to England in 1861 he worked as a journalist on the staff of the *Daily Telegraph*, a newspaper with which he continued to be associated as editor for more than forty years, and of which he later became editor-in-chief. It was he who, on behalf of the proprietors of the *Daily Telegraph* in conjunction with the *New York Herald*, arranged the journey of H.M. Stanley to Africa to discover the course of the Congo River, and Stanley named after him a mountain to the north-east of Albert Edward Nyanza. Arnold must also be credited with the first idea of a great trunk line traversing the entire African continent, for in 1874 he first employed the phrase Cape to Cairo railway subsequently popularised by Cecil Rhodes. It was, however, as a poet that he was best known to his contemporaries. The literary task which he set before him was the interpretation in English verse of the life and philosophy of the East. His chief work with this object is *The Light of Asia*, or *The Great Renunciation*, a poem of eight books in blank verse which was translated into various languages such as Hindi (tr. by Acharya Ram Chandra Shukla). In it, in Arnold's own words, he attempted 'by the medium of an imaginary Buddhist votary to depict the life and character and indicate the philosophy of that noble hero and reformer, Prince Gautama of India, founder of Buddhism'. It appeared in 1879 and was an immediate success, going through numerous editions in England and America, though its permanent place in literature is quite uncertain. It is an Indian epic, dealing with the life and teaching of the Buddha. The poem was subjected to two lines of criticism: it was held by Oriental scholars to give a false impression of Buddhist doctrine; while, on the other, the suggested analogy between Sakyamuni and Jesus offended the taste of some devout

edwin arnold light of asia: Light of Asia Sir Edwin Arnold, 2016-03-20 This is quite a unique book on the life of Buddha, in the sense that it is actually a poem. It covers all aspects of the Buddha's life, from his birth, his youth, his enlightenment, through to his death. I have put my poem into a Buddhist's mouth, because, to appreciate the spirit of Asiatic thoughts, they should be regarded from the Oriental point of view; and neither the miracles which consecrate this record, nor the philosophy which it embodied, could have been otherwise so naturally produced. The doctrine of Transmigration, so naturally and thoroughly accepted by the Hindus of Buddha's time; that period when Jerusalem was being taken by Nebuchadnezzar, when Nineveh was falling to the Medes, and Marseilles was founded by the Phocaeans.

edwin arnold light of asia: The Light of Asia Jairam Ramesh, 2021-11 'The Light of Asia' is an epic poem by Sir Edwin Arnold that was first published in 1879. It is a narrative of the life and message of the Buddha. It quickly became a huge sensation and has continued to resonate powerfully across the world over the last century and a half. The poem captivated an Indian monk who remains an iconic personality-Swami Vivekananda. At about the same time, it deeply moved a young man in Colombo who has become famous in history as Anagarika Dharmapala. It caught the attention of an aspiring Indian lawyer in London in 1889. This man later became immortal as Mahatma Gandhi. A few years hence it impacted a teenager in Allahabad who would, in 1947, become the first Prime Minister of India-Jawaharlal Nehru. Two copies of the book adorned the bookshelves of B.R. Ambedkar, the prime architect of the Indian constitution. Weaving together literary, cultural, political and social history, Jairam Ramesh uncovers and narrates the fascinating story of this deeply consequential and compelling poem that has shaped our thinking of an ancient sage and his teachings. Jairam Ramesh brings into this unusual narrative the life of the multi-faceted poet himself who, among other things, was steeped in Sanskrit literature. Sir Edwin Arnold's English rendering of the Bhagavad Gita was one of Mahatma Gandhi's abiding favourites. Sir Edwin was also in many ways the man who shaped Bodhi Gaya as we know it today.
