Recognizing these signs early is crucial for implementing timely and effective support strategies.

Types of Emotional and Behavioral Disorders

EBD is a broad category that includes various specific conditions such as:

- Conduct Disorder
- Oppositional Defiant Disorder (ODD)
- Attention-Deficit/Hyperactivity Disorder (ADHD)
- Anxiety Disorders

emotional and behavioral disorders in the classroom pdf: The Race Controversy in American Education Lillian Dowdell Drakeford Ph.D., 2015-07-28 In this unique two-volume work, expert scholars and practitioners examine race and racism in public education, tackling controversial educational issues such as the school-to-prison pipeline, charter schools, school funding, affirmative action, and racialized curricula. This work is built on the premise that recent efforts to advance color-blind, race-neutral educational policies and reforms have not only proven ineffective in achieving racial equity and equality of educational opportunities and outcomes in America's public schools but also exacerbated existing inequalities. That point is made through a collection of essays that examine the consequences of racial inequality on the school experience and success of students of color and other historically marginalized populations. Addressing K-12 education and higher education in historically black as well as predominantly white institutions, the work probes the impact of race and racism on education policies and reforms to determine the role schools, school processes, and school structures play in the perpetuation of racial inequality in American education. Each volume validates the impact of race on teaching and learning and exposes the ways in which racism manifests itself in U.S. schools. In addition, practical recommendations are presented that may be used to confront and eradicate racism in education. By exposing what happens when issues of race and racism are marginalized or ignored, this collection will prepare readers to resist—and perhaps finally overcome—the racial inequality that plagues America's

schools.
