english to farsi translation in english letters pdf: Persia Jeffrey Spier, Timothy Potts, Sara E. Cole, 2022-05-17 A fascinating study of Persia's interactions and exchanges of influence with ancient Greece and the Roman Empire. The founding of the first Persian Empire by the Achaemenid king Cyrus the Great in the sixth century BCE established one of the greatest world powers of antiquity. Extending from the borders of Greece to northern India, Persia was seen by the Greeks as a vastly wealthy and powerful rival and often as an existential threat. When the Macedonian king Alexander the Great finally conquered the Achaemenid Empire in 330 BCE, Greek culture spread throughout the Near East, but local dynasties—first the Parthian (247 BCE–224 CE) and then the Sasanian (224–651 CE)—reestablished themselves. The rise of the Roman Empire as a world power quickly brought it, too, into conflict with Persia, despite the common trade that flowed through their territories. Persia addresses the political, intellectual, religious, and artistic relations between Persia, Greece, and Rome from the seventh century BCE to the Arab conquest of 651 CE. Essays by international scholars trace interactions and exchanges of influence. With more than three hundred images, this richly illustrated volume features sculpture, jewelry, silver luxury vessels, coins, gems, and inscriptions that reflect the Persian ideology of empire and its impact throughout Persia's own diverse lands and the Greek and Roman spheres. This volume is published to accompany a major international exhibition presented at the Getty Villa from April 6 to August 8, 2022.

english to farsi translation in english letters pdf: Echoes of a Forgotten Presence Mark Dickens, 2021-01-27 This volume is a collection of ten articles published between 2009 and 2016 by

Mark Dickens on the Assyrian Church of the East in Central Asia, along with a new article on Mar Yahbalaha III, the only Turkic patriarch of the Assyrian Church of the East. Most articles deal with the textual evidence for Syriac Christianity in Central Asia, including six on Christian manuscript fragments from Turfan (China) and two on gravestone inscriptions from Semirechye (Kyrgyzstan and Kazakhstan). As the volume title indicates, these articles remind us of the centuries-long presence of the Assyrian Church of the East at the centre of the Asian continent, now all but forgotten due to the general scarcity of sources from which this history can be reconstructed.

english to farsi translation in english letters pdf: The Exile Adrian Levy, Catherine Scott-Clark, 2017-05-23 The extraordinary inside story of Osama bin Laden and Al Qaeda in the years after 9/11. Following the attacks on the Twin Towers, Osama bin Laden, the most wanted man in the world, eluded intelligence services and Special Forces units for almost a decade. Using remarkable, first-person testimony from bin Laden's family and closest aides, *The Exile* chronicles this astonishing tale of evasion, collusion and isolation. In intimate detail, *The Exile* reveals not only the frantic attack on Afghanistan by the United States in their hunt for bin Laden but also how and why, when they found his family soon after, the Bush administration rejected the chance to seize them. It charts the formation of ISIS, and uncovers the wasted opportunity to kill its Al Qaeda-sponsored founder; it explores the development of the CIA's torture programme; it details Iran's secret shelter for bin Laden's family and Al Qaeda's military council; and it captures the power struggles, paranoia and claustrophobia within the Abbottabad house prior to the raid. A landmark work of investigation and reportage, *The Exile* is as authoritative as it is compelling, and essential reading for anyone concerned with history, security and future relations with the Islamic world.

english to farsi translation in english letters pdf: Treasures of Knowledge: An Inventory of the Ottoman Palace Library (1502/3-1503/4) (2 vols) Gülru Necipoğlu, Cemal Kafadar, Cornell H. Fleischer, 2019-08-12 The subject of this two-volume publication is an inventory of manuscripts in the book treasury of the Topkapı Palace in Istanbul, commissioned by the Ottoman sultan Bayezid II from his royal librarian 'Atufi in the year 908 (1502-3) and transcribed in a clean copy in 909 (1503-4). This unicum inventory preserved in the Oriental Collection of the Library of the Hungarian Academy of Sciences (Magyar Tudományos Akadémia Könyvtára Keleti Gyűjtemény, MS Török F. 59) records over 5,000 volumes, and more than 7,000 titles, on virtually every branch of human erudition at the time. The Ottoman palace library housed an unmatched encyclopedic collection of learning and literature; hence, the publication of this unique inventory opens a larger conversation about Ottoman and Islamic intellectual/cultural history. The very creation of such a systematically ordered inventory of books raises broad questions about knowledge production and practices of collecting, readership, librarianship, and the arts of the book at the dawn of the sixteenth century. The first volume contains twenty-eight interpretative essays on this fascinating document, authored by a team of scholars from diverse disciplines, including Islamic and Ottoman history, history of science, arts of the book and codicology, agriculture, medicine, astrology, astronomy, occultism, mathematics, philosophy, theology, law, mysticism, political thought, ethics, literature (Arabic, Persian, Turkish/Turkic), philology, and epistolary. Following the first three essays by the editors on implications of the library inventory as a whole, the other essays focus on particular fields of knowledge under which books are catalogued in MS Török F. 59, each accompanied by annotated lists of entries. The second volume presents a transliteration of the Arabic manuscript, which also features an Ottoman Turkish preface on method, together with a reduced-scale facsimile.

english to farsi translation in english letters pdf: Insights and Commentaries: South and Central Asia Ms Anita Sengupta, Mr Mirzokhid Rakhimov, 2015-08-15 This volume emerged out of a search for scholarship that has studied connectivity between South and Central Asia from a variety of perspectives. Geographically and culturally, the vision that India has had of the region she referred to as Central Asia is of a space extending across China westward upto the Aral Sea and including within it Balkh, Bukhara and Samarkand. The Indian fascination with the region extends to various levels as this is the region out of which invading tribes entered India, across whose Silk Routes trade flourished and also the region where Indian culture and religion spread. Keeping this in mind the volume begins with an overview of positions from which the region has been

traditionally situated from the Indian perspective as also reflections on the current scenario in terms of the geopolitical transformations of recent times. It then moves on to examine the history of the political, cultural and economic connections between the two regions from comparative perspectives. Written by specialists from Uzbekistan the articles reflect on connections that had ancient roots and shared historical experiences. The first set of articles focus on the historical linkages between the two regions. Another set looks at similar developments in the region in terms of transformations in the socio-political life of the people as also in the economy. Encounters and the necessity of security cooperation between the two regions is the focus of a third set of articles. The second part of the volume looks into certain issues that are significant in both South and Central Asia. Written with Uzbek insight they reflect on Soviet and post-Soviet state policies on a range of issues from gender and maternity policies, ethnic policies and social stratification, information policy and policies related to global organizations that have comparable relevance in the Indian context.

Through analysis of these modern debates on prophethood in Islam, this book situates Muhammad Iqbal's (1877-1938) and Said Nursi's (1877-1960) discourses within it and assesses their implications on the modern period. This book introduces the what, who and how of the prophets in the Islamic tradition. It unveils the rich Islamic literature of both the classical and modern periods and analyses the construction of their philosophies and theologies. Concise in both historical and textual analyses, this book makes an important contribution to our understanding of contemporary debates on prophecy and prophethood in Islam and will be of great interest to postgraduate students and researchers of Islam, religious studies, medieval studies and contemporary studies of Islam and religion.

english to farsi translation in english letters pdf: *Political Violence in Judaism, Christianity, and Islam* Jonathan Fine, 2015-03-26 Religious political violence is by no means a new phenomenon, yet there are critical differences between the various historical instances of such violence and its more current permutations. Since the mid-1970s, religious fundamentalist movements have been seeking to influence world order by participating in local political systems. For example, Islamic fundamentalism is at the heart of the Muslim Brotherhood in Egypt, the Christian fundamental right wing has seen a resurgence in Europe, and Jewish fundamentalism is behind the actions of Meir Kahane's Kach movement and the settler movement. The shift in recent years from secular to religious political violence necessitates a reevaluation of contemporary political violence and of the concept of religious violence. This text analyzes the evolution of religious political violence, in both historical and contemporary perspectives. Since religious political violence events are usually associated with the term "terrorism," the book first analyzes the origins of this controversial term and its religious manifestations. It then outlines and highlights the differences between secular and religious political violence, on ideological, strategic, and tactical levels, before comparing the concept of Holy War in Judaism, Christianity, and Islam. Lastly, it shows how modern radical monotheistic religious groups interpret and manipulate their religious sources and ideas to advocate their political agendas, including the practice of violence. A unique comparative study of religious political violence across Judaism, Islam, and Christianity, this text features many international case studies from the Crusades to the Arab Spring.

english to farsi translation in english letters pdf: *Experiencing Translationality* Piotr Blumczynski, 2023-05-16 This innovative book takes the concept of translation beyond its traditional boundaries, adding to the growing body of literature which challenges the idea of translation as a primarily linguistic transfer. To gain a fresh perspective on the work of translation in the complex processes of meaning-making across physical, social and cultural domains (conceptualized as

translationality), Piotr Blumczynski revisits one of the earliest and most fundamental senses of translation: corporeal transfer. His study of translated religious officials and translated relics reframes our understanding of translation as a process creating a sense of connection with another time, place, object or person. He argues that a promise of translationality animates a broad spectrum of cultural, artistic and commercial endeavours: it is invoked, for example, in museum exhibitions, art galleries, celebrity endorsements, and the manufacturing of musical instruments. Translationality offers a way to reimagine the dynamic entanglements of matter and meaning, space and time, past and present. This book will be of interest to students and scholars in translation studies as well as related disciplines such as the history of religion, anthropology of art, and material culture.

english to farsi translation in english letters pdf: Resistance and Identity in Twenty-First Century Literature and Culture Navleen Multani, 2023-10-12 Resistance and Identity in Twenty-First Century Literature and Culture: Voices of the Marginalized is a compendium of reflections on literary texts, politics of literature and culture. The book proffers ruminations on the pivotal role of constructive and positive resistance to reconstruct identities for meaningful human existence. The disciplinary power and dominance coerce the natural body to resist and yearn for freedom. One can establish unique identity by refusing to conform to pressures of society that deform the natural body. Dominant forces and oppressive structures evoke resistance that can range from 'polite demurral' to 'refusal'. Resistance comes from the 'will' that refuses to be controlled and governed. The 'refusal' of the ordinary illuminates ordinary lives/ bodies. Language and literary texts contain essential truths of such human existence. Words and imaginary worlds in literary works reveal truth and suggest possibilities for reconfiguring the order.

Kalmanson, 2017-11-24 This collection of essays is an exercise in comparative philosophy of religion that explores the different ways in which humans express the inexpressible. It brings together scholars of over a dozen religious, literary, and artistic traditions, as part of The Comparison Project's 2013-15 lecture and dialogue series on religion beyond words. Specialist scholars first detailed the grammars of ineffability in nine different religious traditions as well as the adjacent fields of literature, poetry, music, and art. The Comparison Project's directors then compared this diverse set of phenomena, offering explanations for their patterning, and raising philosophical questions of truth and value about religious ineffability in comparative perspective. This book is the inaugural publication of The Comparison Project, an innovative new approach to the philosophy of religion housed at Drake University (Des Moines, Iowa, USA). The Comparison Project organizes a biennial series of scholar lectures, practitioner dialogues, and comparative panels about core, cross-cultural topics in the philosophy of religion. Specialist scholars of religion first explore this topic in their religions of expertise; comparativist philosophers of religion then raise questions of meaning, truth, and value about this topic in comparative perspective. The Comparison Project stands apart from traditional approaches to the philosophy of religion in its commitment to religious inclusivity. It is the future of the philosophy of religion in a diverse, global world.

english to farsi translation in english letters pdf: International Developments and Practices in Investigative Interviewing and Interrogation David Walsh, Gavin Oxburgh, Allison Redlich, Trond Myklebust, 2017-09-19 Techniques in the investigative interviewing and interrogation of victims, witnesses and suspects of crime vary around the world, according to a country's individual legal system, religion and culture. Whereas some countries have developed certain interview protocols for witnesses (such as the ABE Guidelines and the NICHD protocol when interviewing children) and the PEACE model of interviewing suspects, other countries continue to use physical coercion and other questionable tactics to elicit information. Until now, there has been very little empirical information about the overall interview and interrogation practices in non-western countries, especially the Middle and Far East. This book addresses this gap, bringing together international experts from over 25 countries and providing in-depth coverage of the various interview and interrogation techniques used across the globe. Volume 2 focuses on the interviewing of crime suspects, aiming to provide the necessary information for an understanding of how law enforcement agencies around the world gain valuable information from suspects in criminal cases. Together, the chapters that make up this volume and the accompanying volume on interviewing witnesses and victims, draw on specific national case studies and practices, examine contemporary challenges and identify best practice to enable readers to develop an international, as well as a comparative, perspective of developments worldwide in this important area of criminal investigation. This book will be an essential resource for academics and students engaged in the study of policing, criminal investigation, forensic psychology and criminal law. It will also be of great interest to practitioners, legal professionals and policymakers around the world.
