golf workout program pdf: Extreme Fitness for Golf Jon Corliss, 2004-08-01 The world is fascinated by sex and the sex industry. In the last 20 years, we have seen X-rated movies go from a theater in the worst part of town to our own VCRs and on the menu of expensive hotels as in-room entertainment. Its stars have gone from being virtual unknowns in the early 70's to doing appearances on Jay Leno and television talk shows. The adult film business has grown by leaps and bounds. In 1984 alone more people rented or bought an X-rated movie than voted for Ronald Regan. In this book, I have given the reader an uncensored, inside look at all the workings of the sex industry from movies and magazines to men's clubs and all the emotions that go along with it. By reading these excerpts from my personal diary, I share with you the anger, elation, sadness and fear that have comprised my life. I give an inside look at the many famous people I've met and their personal quirks. As the first Native American porn star, I show you how this line of work is seen in the eyes of my religion and culture, and I share some of the healing ceremonies I have experienced. Why would a young woman decide to get into such a business? What is it like to make an X-rated movie or to dance nude on stage in a gentlemen's club? Many women say it is empowering. What kind of lives did these women have before entering the world of X? Why do they say it increases their self-esteem? Is it REALLY healthy emotionally? Why have five of my colleagues committed suicide? What's it like when your friends (and the Godmother of your children) are dropping like flies? Why would a sexually abused and abandoned child decide of her own free will to make X-rated movies and how could this possibly be a healing experience? Is it really?

golf workout program pdf: Golf Fitness Christian Henning, 2014-03-05 Can I really add 30 yards to my golf game? Yes... but let me warn you, if you are lazy and are simply looking for a "magic bullet" solution, this is not the program for you. The simple fact of the matter is this: the 30 Yards or More in 30 Days or Less program is NOT a "quick fix". It's a SMART fix to a very complex problem that consequently yields incredibly fast results. Oh, and did I mention that you'll probably even burn loads of fat off while you add distance to ALL your clubs at the same time? That's unheard of. But the reality is I've had clients do it over and over again, and you will too. At the same time, I want to make sure I'm being very clear: make no mistake, this program takes work, and if you're one of these people who can't dedicate 30 days to radically changing your golf game and body - a change that you will be able to enjoy for the rest of your life - then please, do not invest in this system. But for those of you who are serious, those who are ready to put forth the effort, the 30 Yards or More in 30 Days or Less system will absolutely give you every tool you need to immediately DOUBLE your rate of distance gains and experience the yardage gains you deserve - GUARANTEED. Others did it too... and so can you. If you have read everything up to this point, you definitely are not lazy. I think you genuinely want to get better at your golf game.. and you aren't afraid of practice, working out, or analyzing your stats. You enjoy the process of "digging it out of the dirt". I've taught thousands of other golfers just like you how to dig it out of the dirt and transform their bodies and golf games. Just about every day I get emails, Facebook posts, and tweets of people just like you who transformed their golf games and bodies using my workouts. Here are just a few clients of the 30 Yards or More in 30 Days or Less system and what they had to say: I bought the 30 Yards or More in 30 Days or Less program already 2 months into my golf season. I was a little scared about working out and playing golf, not knowing if my body could hold up. I saw results right away in my swing and health of my body. What Chris puts together with not only the lifting but also the joint mobility and flexibility training helped dramatically to my swing and joints. This added health allowed me to work out harder and these workouts are right to the point, which helps because I am always on the move. Overall I was able to gain about 20 yards to my about 240-yard original full driver swing. I can't wait to continue this program and use this as a part of my life from now on. - Mitchell S., Norway I tried your 30 yards in 30 days program back in May. It definitely works... when I swing in control. Won three longest drives this year in tournaments! - Dave, 34, Ontario, Canada "Your workout is going well. I was in pretty good shape before starting the workout but I like that everything is tailored around golf motions. Another one of my weaknesses was getting myself to stretch. This workout requires you to stretch and I am a big fan of that as well." - John W. "Just wanted to thank you for creating and allowing me to try the 30 Yards or More in 30 Days or Less workout system. 2 weeks after starting we had a nice weekend and I hit the longest drive of my life so I can't wait to see what happens now that it has been over 30 days." - Chris S. "After just two weeks of doing the workouts, twice each beginners workout. I can see a marketable difference in my swing. I can't tell distance yet, as I haven't been out on the course. But I can tell the difference in my leg strength and flexibility already. It will be easily 30 yards!" Thank you,? - Chris Connell
