goodbye mr chips pdf: The Kindness Principle Dave Whitaker, 2021-05-04 Written by Dave Whitaker, The Kindness Principle: Making relational behaviour management work in schools

advocates a behaviour management approach rooted in values, acceptance and a genuine understanding of children's behaviour. In an education system that too often reaches for the carrot-and-stick approach to dealing with poor pupil behaviour, an approach built on kindness and compassion might just provide the cure. The Kindness Principle begins with the idea that relationships should be at the heart of behaviour management and culture, and sets out the ways in which the adoption of relational approaches can help create safer and happier schools. Schools where all staff and learners are valued and understood, where expectations and standards are high, and where kindness and acceptance matter. Dave Whitaker explores why it is so important to understand children - offering techniques and advice on how to work effectively with all children (even the most challenging and troubled ones) without resorting to zero-tolerance, no-excuses and consequence-driven practices. Dave also shares a wealth of real-life experiences from some of the most challenging schools in the country, along with research-informed insights that will help teachers understand children's behaviour in a new light. To this end he provides a wealth of guidance to help develop effective practice and learn from people who have actually walked the walk and don't just talk the talk. Furthermore, the topics covered in the book include: restorative approaches, unconditional positive regard, building personal resilience, structures and routines, and the ins and outs of rewards and sanctions. Suitable for teachers, school leaders and anyone working with children.

goodbye mr chips pdf: Popular Culture as Pedagogy Kaela Jubas, Nancy Taber, Tony Brown, 2015-10-30 Grounded in the field of adult education, this international compilation offers a range of critical perspectives on popular culture as a form of pedagogy. Its fundamental premise is that adults learn in multiple ways, including through their consumption of fiction. As scholars have asserted for decades, people are not passive consumers of media; rather, we (re)make our own meanings as we accept, resist, and challenge cultural representations. At a time when attention often turns to new media, the contributors to this collection continue to find "old" forms of popular culture important and worthy of study. Television and movies - the emphases in this book - reflect aspects of consumers' lives, and can be powerful vehicles for helping adults see, experience, and inhabit the world in new and different ways. This volume moves beyond conceptually oriented scholarship, taking a decidedly research-oriented focus. It offers examples of textual and discursive analyses of television shows and films that portray varied contexts of adult learning, and suggests how participants can be brought into adult education research in this area. In so doing, it provides compelling evidence about the complexity, politics, and multidimensionality of adult teaching and learning. Using a range of television shows and movies as exemplars, chapters relate popular culture to globalization, identity, health and health care, and education. The book will be of great use to instructors, students, and researchers located in adult education, cultural studies, women's and gender studies, cultural sociology, and other fields who are looking for innovative ways to explore social life as experienced and imagined.

goodbye mr chips pdf: Multilingual Education Yearbook 2020 Wenhao Tao, Indika Liyanage, 2020-02-27 This book focuses on the challenges of teaching in diversely multilingual classrooms, discussing how these challenges and complexities interact in the preparation of teachers (language & content areas) in and for multilingual settings, and how they impact on educational processes, developments, and outcomes. Teacher education in multilingual contexts is a key topic and occupies an important position in efforts to improve educational outcomes and quality for all stakeholders. It is seen as essential for competitive participation in global economic activity and for providing opportunities to enjoy the benefits of increased prosperity. Teacher education is generally expected to address both the demand for multilingualism and the challenges of teaching in diversely multilingual classrooms, which are important foci at policy and institutional levels. For example, the demand for quality outcomes is manifested in state-administered standards and performance cultures that regulate entry and practices, and poses ethical and pedagogic dilemmas for teachers. This book presents high-quality empirical research on education in multilingual societies, highlighting findings that, in addition to providing descriptions of language learning, development,

and use in language contact and multilingual contexts, will help shape future language education policy and practices in multilingual societies.

goodbye mr chips pdf: Challenging Dominant Views on Student Behaviour at School Anna Sullivan, Bruce Johnson, Bill Lucas, 2016-05-20 This is a deliberately provocative book. It critiques current student behaviour management practices, seeks to explain the flawed assumptions that justify those practices, and proposes how things could be better for children in our schools if different practices were adopted. It is one of the few books to offer alternative ways of addressing the issues associated with student behaviour at school, and exposes the field to serious and sustained critique from both a research perspective and a children's rights ideological stance. The authors address the following questions: What ideas dominate current thinking on student behaviour at school? What are the policy drivers for current practices? What is wrong with common behaviour approaches? What key ideologies justify these approaches? How can we present ethical alternatives to current approaches? How can a human rights perspective contribute to the development of alternative approaches? In exploring these questions and some ethical alternatives to the status quo, the authors suggest practical ways to 'answer back' to calls for more authoritarian responses to student behaviour within our schools. In doing so, the authors advocate for reforms on behalf of children, and in their interests.

goodbye mr chips pdf: Global Teachers, Australian Perspectives Carol Reid, Jock Collins, Michael Singh, 2013-09-04 This is the first book on global teachers and the increasingly important phenomenon of 'brain circulation' in the global teaching profession. A teaching qualification is a passport to an international professional career: the global teacher is found in more and more classrooms around the world today. It is a two-way movement. This book looks at the growing importance of immigrant teachers in western countries today and at teachers who exit from western countries (emigrant teachers) seeking teaching experience in other countries. Drawing on the international literature in Europe, North America, Asia and elsewhere supplemented by rich insights derived from recent Australian research, the book outlines the personal, institutional and structural processes nationally and internationally underlying the increasing global circulation of teachers. It identifies the key drivers of global teacher mobility: a range of factors including family, lifestyle, classroom experience, travel, opportunities for advancement, discipline, linguistic skills, taxation rates, cultural factors and institutional frameworks and policy support. The book is the first detailed contemporary account of the experiences of Australian immigrant and emigrant teachers in the schools and communities where they teach and live. It makes an important and original theoretical and empirical contribution to the contemporary fields of sociology of education and immigration studies.

goodbye mr chips pdf: English as a Foreign Language Fotini Anastassiou, 2020-01-13 This book introduces the reader to the ongoing research on teaching English as a foreign language and highlights recent trends in theories of acquisition, teaching and development of communication and intercultural skills. As English as a third language is increasingly recognised as a common world reality, research around this particular subject certainly provides useful answers to questions regarding the most desirable pedagogical method when teaching it at school, the strategies that students use when learning foreign languages, the best age for introducing additional languages in the school curriculum, and the attitude of pupils when learning a foreign language, and English in particular, given its global significance. The contributions gathered here will give the reader a

general idea of where research on English as a foreign language is heading now in the areas of teaching, pedagogy, intercultural and multilingual studies and teaching students with learning difficulties. The authors situate their research in current debates in terms of theory and empirical data. They address issues of English as a foreign language in a wide variety of settings, countries and orientations, coming from Brazil, Bulgaria, Chile, Cyprus, France, Germany, Greece, Italy, Portugal, Turkey, the UK and the USA.

The main concerns of this book not only involve the inclusion of children with disabilities, but also those with special educational needs but without physical and sensory difficulties, such as children from socially and economically disadvantaged groups, children from diverse cultural and linguistic groups, and children alienated in classrooms. This book discusses these issues and challenges against the background of the existing educational system and policy, and identifies the barriers to their inclusion in current school education, such as lack of in-service training for teachers, limited involvement of local communities, big class size, and corporal punishment, etc. Academics and

postgraduate students in the field of inclusive education, social education, and Chinese studies will find this book useful, as well as policy makers, school teachers, and administrators.

goodbye mr chips pdf: A Research Guide to Film and Television Music in the United States Jeannie Gayle Pool, H. Stephen Wright, 2010-12-28 Unlike traditional music, film music sources are often difficult to locate and do not follow the patterns that researchers are trained to identify. Although there have been several self-described introductions to the field and articles that summarize the problems and state of research, there is no resource that gathers together all of the basic information that is vital to film music research. In this volume, Jeannie Gayle Pool and H. Stephen Wright address the difficulties scholars encounter when conducting research on film and television music. Intended as a guide for scholars and researchers in navigating the complex world of film and television music, this book provides a detailed taxonomy of film music primary sources and explains how to find and interpret them. The authors tackle the problems of determining film score authorship and working with recordings of film music. A bibliographic essay summarizes the major works and trends in film music research and provides clear pointers to the most important resources in the field. An up-to-date guide to important collections of film music sources and other research materials is also included. Designed to clarify the nature of film music source materials and how they are generated, A Research Guide to Film and Television Music in the United States provides clear signposts for scholars and identifies opportunities for further research.
