Revealing a vibrant past that dates back more than 125 years, the book explores how lesbians, gay men, and bisexuals established spaces of their own before and after World War II, survived some of the harshest anti-gay campaigns in the U.S., and organized to demand equal treatment. Telling the stories of black and white gay communities and individuals, Genny Beemyn shows how race, gender, and class shaped the construction of gay social worlds in a racially segregated city. From the turn of the twentieth century through the 1980s, Beemyn explores the experiences of gay people in Washington, showing how they created their own communities, fought for their rights, and, in the process, helped to change the country. Combining rich personal stories with keen historical analysis, *A Queer Capital* provides insights into LGBT life, the history of Washington, D.C., and African American life and culture in the twentieth century.

[She] is an ideal chronicler of this experience. —The Washington Post The nationally renowned racial justice advocate's illumination of the ongoing persecution of a range of American minorities In the lead-up to the recent presidential election, Donald Trump called for a complete ban on Muslims entering the United States, surveillance against mosques, and a database for all Muslims living in the country, tapping into anti-immigrant, anti-Muslim hysteria to a degree little seen since the targeting of South Asian, Arab, Muslim, and Sikh people in the wake of 9/11. In the American Book Award-winning *We Too Sing America*, nationally renowned activist Deepa Iyer shows that this is the latest in a series of recent racial flash points, from the 2012 massacre at the Sikh gurdwara in Oak Creek, Wisconsin, to the violent opposition to the Islamic Center in Murfreesboro, Tennessee, and to the Park 51 Community Center in Lower Manhattan. Iyer asks whether hate crimes should be considered domestic terrorism and explores the role of the state in perpetuating racism through detentions, national registration programs, police profiling, and constant surveillance. Reframing the discussion of race in America, she "reaches into the complexities of the many cultures that make up South Asia" (Publishers Weekly) and provides ideas from the front lines of post-9/11 America.

Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In *The Worlds of Langston Hughes*, Vera Kutzinski contends that, for writers who are part of the African diaspora, translation is more than just a literary practice: it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated—and often mistranslated—are as vital to Hughes's own poetics as they are to understanding the historical network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos Aires, Mexico City, and of course Harlem. The result is a fresh look at Hughes, not as a solitary author who wrote in a single language, but as an international figure at the heart of a global intellectual and artistic formation.

NONFICTION BOOK OF THE PAST TWO DECADES • FINALIST FOR THE KIRKUS PRIZE • ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, NPR, Esquire, Marie Claire, Electric Lit, Ms. magazine, Kirkus Reviews, Booklist In late August 1619, a ship arrived in the British colony of Virginia bearing a cargo of twenty to thirty people stolen from Africa. Their arrival led to the barbaric and unprecedented system of American chattel slavery that would last for the next 250 years. This is sometimes referred to as the country's original sin, but it is more than that: It is the source of so much that still defines the United States. The New York Times Magazine's award-winning 1619 Project issue reframed our understanding of American history by placing slavery and its continuing legacy at the center of our national narrative. This book substantially expands on that work, weaving together eighteen essays that explore the legacy of slavery in present-day America with thirty-six poems and works of fiction that illuminate key moments of oppression, struggle, and resistance. The essays show how the inheritance of 1619 reaches into every part of contemporary American society, from politics, music, diet, traffic, and citizenship to capitalism, religion, and our democracy itself. This book that speaks directly to our current moment, contextualizing the systems of race and caste within which we operate today. It reveals long-glossed-over truths around our nation's founding and construction—and the way that the legacy of slavery did not end with emancipation, but continues to shape contemporary American life. Redmon, Jack Ryan, Larry T. Shillock, Richard Vela, and Geoffrey Wilson In *Next Generation Adaptation: Spectatorship and Process*, editor Allen H. Redmon brings together eleven essays from a range of voices in adaptation studies. This anthology explores the political and ethical contexts of specific adaptations and, by extension, the act of adaptation itself. Grounded in questions of gender, genre, and race, these investigations focus on the ways attention to these categories renegotiates the rules of power, privilege, and principle that shape the contexts that seemingly produce and reproduce them. Contributors to the volume examine such adaptations as Quentin Tarantino's *Death Proof*, Jacques Tourneur's *Out of the Past*, Taylor Sheridan's *Sicario* and *Sicario: Day of the Soldado*, Jean-Jacques Annaud's *Wolf Totem*, Spike Lee's *He's Got Game*, and Jim Jarmusch's *Paterson*. Each chapter considers the expansive dialogue adaptations accelerate when they realize their capacity to bring together two or more texts, two or more peoples, two or more ideologies without allowing one expression to erase another. Building on the growing trends in adaptation studies, these essays explore the ways filmic texts experienced as adaptations highlight ethical or political concerns and argue that spectators are empowered to explore implications being raised by the adaptations.

INDIES 2020 Book of the Year Award (BRONZE Winner for Religion) [A] powerful work. . . . Provides a road map for any Christian seeking greater racial justice.--Publishers Weekly Reconciliation is not true reconciliation without justice! Brenda Salter McNeil has come to this conviction as she has led the church in pursuing reconciliation efforts over the past three decades. McNeil calls the church to repair the old reconciliation paradigm by moving beyond individual racism to address systemic injustice, both historical and present. It's time for the church to go beyond individual reconciliation and heart change and to boldly mature in its response to racial division. Looking through the lens of the biblical narrative of Esther, McNeil challenges Christian reconcilers to recognize the particular pain in our world so they can work together to repair what is broken while maintaining a deep hope in God's ongoing work for justice. This book provides education and prophetic inspiration for every person who wants to take reconciliation seriously. *Becoming Brave* offers a distinctly Christian framework for addressing systemic injustice. It challenges Christians to be everyday activists who become brave enough to break the silence and work with others to dismantle systems of injustice and inequality.

i too by langston hughes pdf: *Collaborative Spirit-Writing and Performance in Everyday Black Lives* Bryant Keith Alexander, Mary E. Weems, 2021-11-11 Collaborative Spirit-Writing and Performance in Everyday Black Lives is about the interconnectedness between collaboration, spirit, and writing. It is also about a dialogic engagement that draws upon shared lived experiences, hopes, and fears of two Black persons: male/female, straight/gay. This book is structured around a series of textual performances, poems, plays, dialogues, calls and responses, and mediations that serve as claim, ground, warrant, qualifier, rebuttal, and backing in an argument about collaborative spirit-writing for social justice. Each entry provides evidence of encounters of possibility, collated between the authors, for ourselves, for readers, and society from a standpoint of individual and collective struggle. The entries in this Black performance diary are at times independent and interdependent, intersplined and interrogative, interanimating and interstitial. They build arguments about collaboration but always emanate from a place of discontent in a caste system, designed through slavery and maintained until today, that positions Black people in relation to white superiority, terror, and perpetual struggle. With particular emphasis on the confluence of Race, Racism, Antiracism, Black Lives Matter, the Trump administration, and the Coronavirus pandemic, this book will appeal to students and scholars in Race studies, performance studies, and those who practice qualitative methods as a new way of seeking Black social justice.

They build on their experiences and research of CRP to offer vignettes of literacy instruction that may be common in K-12 classrooms. These examples are offered as a way to situate how teachers may use research based and effective literacy practices while ignoring the identities and experiences of their students. They disrupt the vignettes using theories and concepts presented in the chapter to make visible how each practice could be reimaged to integrate more culturally responsive strategies. Example lessons and activities are provided in each chapter that offer readers glimpses into CRP thinking and decision making. Guiding prompts are also included for readers to use the chapter topic and example lessons to consider ways to be more culturally responsive teachers for their students and in their local communities.

Coates's brief comments on Christianity in his highly acclaimed *Between the World and Me* make clear that religious faith is alien to his own experience. Still, Christian audiences from congregations to theological schools engaged the text for its analysis of the state of race relations in the United States. In September 2015, Ta-Nehisi Coates tweeted, Best thing about #BetweenTheWorldAndMe is watching Christians engage the work. Serious learning experience for me. This volume takes that tweet as an invitation to theologians, ethicists, and religious studies scholars to engage the book, and as a challenge to do so in a way that is a learning experience for Coates, the authors, and readers.

LONGLISTED FOR THE NATIONAL BOOK AWARD The highly original, blistering, and unconventional memoir by the Pulitzer Prize-winning author of *The Sympathizer*, which has now sold over one million copies worldwide With insight, humor, formal invention, and lyricism, in *A Man of Two Faces* Viet Thanh Nguyen rewinds the film of his own life. He expands the genre of personal memoir by acknowledging larger stories of refugeehood, colonization, and ideas about Vietnam and America, writing with his trademark sardonic wit and incisive analysis, as well as a deep emotional openness about his life as a father and a son. At the age of four, Nguyen and his family are forced to flee his hometown of Ban Mê Thuột and come to the USA as refugees. After being removed from his brother and parents and homed with a family on his own, Nguyen is later allowed to resettle into his own family in suburban San José. But there is violence hidden behind the sunny façade of what he calls AMERICATM. One Christmas Eve, when Nguyen is nine, while watching cartoons at home, he learns that his parents have been shot while working at their grocery store, the Sài Gòn Mới, a place where he sometimes helps price tins of fruit with a sticker gun. Years later, as a teenager, the blood-stirring drama of the films of the Vietnam War such as *Apocalypse Now* throw Nguyen into an existential crisis: how can he be both American and Vietnamese, both the killer and the person being killed? When he learns about an adopted sister who has stayed back in Vietnam, and ultimately visits her, he grows to understand just how much his parents have left behind. And as his parents age, he worries increasingly about their comfort and care, and realizes that some of their older wounds are reopening. Profound in its emotions and brilliant in its thinking about cultural power, *A Man of Two Faces* explores the necessity of both forgetting and of memory, the promises America so readily makes and breaks, and the exceptional life story of one of the most original and important writers working today.

Such incidents may impact the overall campus racial climate and result in a racial crisis, which is marked by extreme tension and instability. How institutional leaders and the campus community respond to a racial crisis along with the racial literacy demands of the campus leaders can have as much of an effect as the crisis itself. As such, 21st century university leaders must become more emotionally intelligent and responsive to emergent campus issues. Improving campus climate is hard, and to achieve notable gains, higher education professionals will have to reimagine how they approach this work with equity-influenced practices and transformative leadership. The *Handbook of Research on Leading Higher Education Transformation With Social Justice, Equity, and Inclusion* offers a window into understanding the deep intersections of identity and professional practice as well as guideposts for individual leadership development during contested times. The chapters emphasize how identity manifests in the way we lead, supervise, make decisions, persuade, form relationships, and negotiate responsibilities each day. In this book, the authors provide insight, examples, and personal

narratives that explore how their identities, lens, and commitments shaped their leadership and supported their courageous acts for equity and social justice. It provides practical tools that leaders can draw on to inform sustainable equity and inclusion-focused practices and policies on college campuses and will discuss important campus climate issues and ways to address them. This book is a valuable reference work for higher education administrators, policymakers, leaders, managers, university presidents, social justice advocates, practitioners, faculty, researchers, academicians, and students who are interested in higher education leadership practices that support and promote social justice, equity, and inclusion.
