## Understanding the Power of the Subconscious Mind

### What Is the Subconscious Mind?

The subconscious mind is the part of our mental framework that operates below our conscious awareness. It is responsible for processing a vast amount of information, controlling automatic functions such as breathing and heartbeat, and storing our beliefs, habits, memories, and conditioned responses. Unlike the conscious mind, which is analytical and aware, the subconscious works silently in the background, influencing our thoughts, emotions, and actions.

### Why Is the Subconscious Mind So Powerful?

The subconscious mind's power lies in its ability to:

- Influence behavior and habits: It governs daily routines and automatic responses.
- Shape beliefs and perceptions: It filters information based on ingrained beliefs, influencing how we interpret the world.
- Manifest desires: It works to bring our subconscious goals into reality through the law of attraction and similar principles.
- Create a self-fulfilling prophecy: Our beliefs about ourselves often determine our success or failure.

## The Connection Between Conscious and Subconscious Mind

The conscious mind makes decisions, sets intentions, and directs focus, while the subconscious executes these directives, often without our awareness. When the two are aligned, individuals can harness their full mental potential. Conversely, conflicting beliefs or negative subconscious programming can hinder progress.

---

## The Core Principles of John Kehoe's Teachings

### The Power of Positive Thinking

Kehoe emphasizes that our thoughts are powerful creators of our reality. By cultivating positive, empowering thoughts, we can influence our subconscious to work toward our goals.

### Visualization and Affirmations

A central method taught by Kehoe involves visualization—creating vivid mental images of desired outcomes—and affirmations—positive statements repeated to reinforce beliefs. These techniques program the subconscious mind to accept new beliefs and attract corresponding experiences.

### Reprogramming the Subconscious

Since the subconscious is highly receptive to repeated messages, Kehoe advocates for consistent affirmation and visualization practices to replace limiting beliefs with empowering ones.

### The Role of Belief and Emotion

Beliefs must be held with conviction and paired with strong emotions to be effective. Feeling as though the desired outcome is already achieved signals the subconscious that it is real, accelerating manifestation.

## Key Concepts from the PDF and Their Significance

### 1. The Power of Visualization

Visualization is a cornerstone of Kehoe's method. It involves creating vivid mental images of the desired outcome, engaging the subconscious mind to accept these images as real.

How to effectively visualize:

- Find a quiet, comfortable space.
- Close your eyes and imagine your goal in as much detail as possible.
- Engage all your senses—see, hear, feel, smell, and taste.
- Feel the emotions associated with achieving your goal.
- Repeat regularly to reinforce the imagery.

### 2. Affirmations and Positive Self-Talk

Repeating positive affirmations helps rewire negative beliefs ingrained in the subconscious.

Tips for effective affirmations:

- Keep them short, positive, and present tense.
- Repeat them multiple times daily.
- Believe in the affirmation as if it's already true.

Example: "I am confident and successful," instead of "I want to be confident."

### 3. The Role of Emotions

Emotions act as a catalyst in manifesting desires. Feeling genuinely excited, grateful, or confident when visualizing or affirming enhances subconscious acceptance.

Emotional practices:

- Cultivate feelings of gratitude for what you already have.
- Use emotional intensity when visualizing your goals.
- Maintain a positive emotional state throughout the day.

### 4. Repetition and Consistency

Consistent practice is vital. The subconscious rewires through repetition, so daily routines of visualization and affirmation are recommended.

**john kehoe the subconscious mind can do anything pdf: The Miracles of Your Mind** Dr Joseph Murphy, 2018 Man has only one mind, but he has two distinct phases or functions of the one mind. Each phase is characterized by its own phenomena, which is peculiar to itself. Each of these minds is capable of independent action as well as synchronous action. We call one the objective

mind because it deals with external things, and the other is the subjective mind. The subjective mind is amenable and controlled by suggestion of the objective or conscious mind. The objective mind takes cognizance of the objective world. In this work Dr. Joseph Murphy expands on his theory that the latent powers inherent in our subconscious can improve our lives. Dr. Murphy provides specific steps to nourish your conscious mind with the tools and attitudes that will open up the infinite power of your subconscious mind. Whether you wish to conquer a bad habit, be more successful, obtain harmony in your family, or achieve goals that have thus far been unattainable, you will be given guidelines to put you on the right path. About the Author: Joseph Murphy was born in Ireland, the son of a private boy's school headmaster and raised a Roman Catholic. He studied for the priesthood and joined the Jesuits. In his twenties, an experience with healing prayer led him to leave the Jesuits and move to the United States, where he became a pharmacist in New York (having a degree in chemistry by that time). Here he attended the Church of the Healing Christ (part of the Church of Divine Science), where Emmet Fox had become minister in 1931. In the mid 1940s, he moved to Los Angeles, where he met Religious Science founder Ernest Holmes, and was ordained into Religious Science by Holmes in 1946, thereafter teaching at the Institute of Religious Science. A meeting with Divine Science Association president Erwin Gregg led to him being reordained into Divine Science, and he became the minister of the Los Angeles Divine Science Church in 1949, which he built into one of the largest New Thought congregations in the country. In the next decade, Murphy married, earned a PhD in psychology from the University of Southern California and started writing. After his first wife died in 1976, he remarried to a fellow Divine Science minister who was his longstanding secretary. He died in 1981.
