see judge act pdf: Practical and Political Approaches to Recontextualizing Social Work Boulet, Jacques, Hawkins, Linette, 2021-02-19 Currently there is an enduring and changing meaning of social work in a world where new crises are being confronted and new opportunities are arriving in the evolving context of social work and the related disciplines. There is a question on how to manage the transformation of social work both productively and creatively during this global shift. Practitioners and educators can experience a tragic disorientation when confronted by the diversity and depth of these crises endured and can face doubts about their role in social work throughout all

these changes and difficult situations. Alternatives to this disorientation, a comfort with uncertainty, and a capability to take risks need to urgently be developed on a professional and personal level for success in the evolving field. Through historical lens and a review of policies and value-based approaches, the recontextualization of social work can be explored. Practical and Political Approaches to Recontextualizing Social Work explores practical and political ways in which social work practice has been reconstructed. Chapters identify this recontextualization of social work and how it is changing, adapting, and transforming the profession along with providing the potential implications for the profession. This book grants insight on the reconstruction of social work on the personal and interpersonal level ("case" work) and also on those intending to impact social work on the local/global environment level in all dimensions: politically, economically, socially, and ecologically. In addition, the book includes a shift from the present short-term and micro/personal view to a future and much broader and encompassing perspective and practice vision. This book is essential for social workers, practitioners, policymakers, government officials, researchers, academicians, and students who want to learn more about the recontextualizing of modern social work in a shifting global environment.

The contributions provide rich and distinct religious and cultural viewpoints as they confront the anthropological, ethical and social dimensions of this crisis. see judge act pdf: Mission as Accompaniment Brian E. Konkol, 2017-06-15 Mechanistic dehumanization occurs when human beings are objectified and exploited as a means to an end, comparable to expendable components of a machine. This misconstruction of human value is a source and sustainer of overproduction, an excess of consumption, and the pursuit of unrestrained economic growth, damaging both people and the planet. Can the Evangelical Lutheran Church in America (ELCA) Global Mission respond to mechanistic dehumanization through mission as accompaniment? The notion of mission as accompaniment, which emerges from liberation theology and development methodology, promotes solidarity among church companions that embodies interdependence and mutuality. Grounded in the New Testament expression of koinonia, Mission as Accompaniment is affirmed in this study as a suitable foundation to counteract mechanistic dehumanization. Through this research with the University of KwaZulu-Natal (South Africa) Theology and Development program, Brian E. Konkol incorporates economics, ecology, anthropology, and postcolonial missiology. He maintains that two particular elements—the African concept of Ubuntu, and an Olive Agenda—when integrated into mission as accompaniment, will equip the ELCA Global Mission with an advocacy-driven trajectory in response to mechanistic dehumanization.

see judge act pdf: Speaking of Satan in Zambia Johanneke Kroesbergen-Kamps, 2023-03-01 In this book, it is argued that narratives about Satanism, which have become popular in the Christian context of Zambia from the 1990s onwards, make cultural sense because of their links to traditional African notions as well as contemporary Christian theologies. These narratives also resonate with unease regarding the cultural change, which is connected by Zambians to modernity. Narratives about Satanism further make personal sense to their narrators, the pastors who provide a platform for them, and their audiences. These arguments contribute to the academic study of religion in Africa, in particular of African Christianity and of witchcraft-related phenomena, as well

as to the global study of discourses on Satanism and other conspiracy theories. All of these disciplines are related to the topic of Satanism in Zambia, but the phenomenon itself has not been discussed at length, which makes the existing academic literature incomplete and inadequate. The comprehensive focus on the case of narratives about Satanism in Zambia offers new insights and enhances current theoretical reflection. The research presented in this book is original, carried out during fieldwork spanning from 2012 to 2017 in Zambia and literature study in the years after that. Methodologically, the research is based on participant observation in churches in which testimonies of ex-Satanists were presented, as well as participation in the Fingers of Thomas, a Roman Catholic group which investigates rumours about Satanism. Furthermore, it is based on interviews with pastors and students of theology active in the deliverance ministry from Pentecostal as well as mainline churches and also on interviews with people who have had experiences of Satanism. Finally, the research is based on an analysis of collected testimonies of ex-Satanists as they were presented in these interviews, in churches, on radio programmes, in newspapers and in other sources.

see judge act pdf: Educating for Redemptive Community Denise Janssen, 2015-10-01 Jesus made claims about redemptive community throughout his ministry when he called people to extravagant grace. Even in the midst of the oppression of his day, Jesus preached and taught that redemptive community was possible if his followers would simply stop hoarding, hiding, and excluding. What a prophetic word for today in the midst of modern day oppression and fears of scarcity! In this edited volume, in honor of religious education scholars Jack Seymour and Margaret Ann Crain, eight of their PhD advisees--each scholars in their own right--join Seymour and Crain to lay out their vision of redemptive community. Rooted in their own scholarship, each contributor proposes ways in which Jesus' vision of redemptive community can become reality in churches and congregations, and in our larger world. In addition to essays by Jack Seymour and Margaret Ann Crain, scholars contributing to this volume include Dori Grinenko Baker, Reginald Blount, Evelyn L. Parker, Mai-Anh Le Tran, Leah Gunning Francis, Carmichael Crutchfield, Debora B.A. Junker, and Denise Janssen. The foreword by Mary Elizabeth Moore and afterword by Seymour and Crain set the volume in the larger context of the church and academy.

see judge act pdf: The Development of Jury Service in Japan Anna Dobrovolskaia, 2016-08-19 This book presents a comprehensive account of past and present efforts to introduce the jury system in Japan. Four legal reforms are documented and assessed: the implementation of the bureaucratic and all-judge special jury systems in the 1870s, the introduction of the all-layperson jury in the late 1920s, the transplantation of the Anglo-American-style jury system to Okinawa under the U.S. Occupation, and the implementation of the mixed-court lay judge (saiban'in) system in 2009. While being primarily interested in the related case studies, the book also discusses the instances when the idea of introducing trial by jury was rejected at different times in Japan's history. Why does legal reform happen? What are the determinants of success and failure of a reform effort? What are the prospects of the saiban'in system to function effectively in Japan? This book offers important insights on the questions that lie at the core of the law and society debate and are highly relevant for understanding contemporary Japan and its recent and distant past.

Cutting across the fields of U.S. immigration policy, theory and history, religion, law, and education, *Undocumented and in College* delineates the historical and present-day contexts of immigration, including the role of religious institutions. This unique volume, based on an extensive two-year study (2010-12) of undocumented students at Jesuit colleges in the United States and with contributions from various scholars working within these institutions, incorporates survey research and in-depth interviews to present the perspectives of

students, staff, and the institutions.

see judge act pdf: Decolonial Christianities Raimundo Barreto, Roberto Sirvent, 2019-11-11 What does it mean to theorize Christianity in light of the decolonial turn? This volume invites distinguished Latinx and Latin American scholars to a conversation that engages the rich theoretical contributions of the decolonial turn, while relocating Indigenous, Afro-Latin American, Latinx, and other often marginalized practices and hermeneutical perspectives to the center-stage of religious discourse in the Americas. Keeping in mind that all religions—Christianity included—are cultured, and avoiding the abstract references to Christianity common to the modern Eurocentric hegemonic project, the contributors favor embodied religious practices that emerge in concrete contexts and communities. Featuring essays from scholars such as Sylvia Marcos, Enrique Dussel, and Luis Rivera-Pagán, this volume represents a major step to bring Christian theology into the conversation with decolonial theory.

see judge act pdf: The Sixties and Beyond Nancy Christie, Stephen J. Heathorn, Michael Gauvreau, 2013-03-07 In the decades following the Second World War, North America and Western Europe experienced widespread secularization and dechristianization; many scholars have pinpointed the 1960s as a pivotally important period in this decline. *The Sixties and Beyond* examines the scope and significance of dechristianization in the western world between 1945 and 2000. A thematically wide-ranging and interdisciplinary collection, *The Sixties and Beyond* uses a framework that compares the social and cultural experiences of North America and Western Europe during this period. The internationally based contributors examine the dynamic place of Christianity in both private lives and public discourses and practices by assessing issues such as gender relations, family life, religious education, the changing relationship of church and state, and the internal dynamics of religious organizations. *The Sixties and Beyond* is an excellent contribution to the burgeoning scholarship on the 1960s as well as to the history of Christianity in the western world.

see judge act pdf: Scripture, Tradition, and Reason in Christian Ethics Bharat Ranganathan, Derek Alan Woodard-Lehman, 2019-09-24 How should we understand the relationship between Christian ethics and religious ethics? Among comparative, ethnographic, and normative methodologies? Between confessional and non-confessional orientations, or between theology and philosophy? This volume brings together emerging religious ethicists to engage the normative dimensions of Christian ethics. Focusing on scripture, tradition, and reason, the contributors to this volume argue for a vision of Christian ethics as religious ethics. Toward this end, they engage with scripture, interpretation, and religious practice; examine the putative divide between reason and tradition, autonomy and heteronomy; and offer proposals about the normative characterization of conceptual and practical issues in contemporary religious ethics. Collectively, the volume engages Christian thought to make an argument for the continuing relevance of normative methodologies in contemporary religious and theological ethics.
