the house of mirth pdf: Literature and Inequality Daniel Shaviro, 2020-03-31 The consequences of high-end inequality seep into almost every aspect of human life: it is not just a question for economists. In this highly accessible new work, Professor Shaviro takes an interdisciplinary approach to explore how great works of literature have provided some of the most incisive accounts of inequality and its social and cultural ramifications over the last two centuries. Through perceptive close readings of Jane Austen, Charles Dickens, and Edith Wharton, among others, he not only demonstrates how these accounts are still relevant today, but how they can illuminate our understanding of our current situation and broaden our own perspective beyond the merely economic.

the house of mirth pdf: Psychological Politics of the American Dream Lois Tyson, 1994 While it is reasonable to assume that our national literature would offer a fertile field in which to explore the interaction between the ideological and psychological dimensions of American life, critics generally have kept these two domains separate, and the dominant model has consisted of an archaic notion of the individual in society.

the house of mirth pdf: The Materiality of Love Anna Malinowska, Michael Gratzke, 2017-09-27 Drawing on love studies and research in material cultures, this book seeks to re-examine love through materiality studies, especially their recent incarnations, new materialism and object-oriented philosophy, to spark a debate on the relationship between love, objects and forms of materializing affection. It focuses on love as a material form and traces connections between feelings and materiality, especially in relation to the changing notion of the material as marked by digital culture, as well as the developments in understanding the nature of non-human affect. It provides insight into how materiality, in its broadest sense, impacts the understanding of the meanings and practices of love today and reversely, how love contributes to the production and transformation of the material world.

the house of mirth pdf: THE SECRET SERVICE CHURCH: FAITH SEEKING RELATEDNESS George Gammack, 2015-08-13 We all know what church is. Likewise we are provided with a supply of set notions for God, Christ and the Bible, which make up the stock-in trade equipment for both 'believer' and 'non-believer.' This study asks fundamental questions about all these from a relational perspective, attempting to illumine the faith quest by way of clues from the common realities of human interaction. In this it is the appropriate provisions of relationships, rather than the assent to doctrines, that forms the spiritual basis of community. Such a theology of relatedness is urgently needed. We must come out of our creedal closets to be part of a new diaspora. This demands a 'secret discipline' of servant relationship at work in that no-man's-land where there is space for all manner of secular saints and doctrinal devils to discover the possibilities of their togetherness - the secret service church, in odd places and often strange company.

the house of mirth pdf: Racism and Xenophobia in Early Twentieth-Century American Fiction Wisam Abughosh Chaleila, 2020-12-29 The Melting Pot, The Land of The Free, The Land of Opportunity. These tropes or nicknames apparently reflect the freedom and open-armed welcome that the United States of America offers. However, the chronicles of history do not complement that image. These historical happenings have not often been brought into the focus of Modernist literary criticism, though their existence in the record is clear. This book aims to discuss these chronicles,

displaying in great detail the underpinnings and subtle references of racism and xenophobia embedded so deeply in both fictional and real personas, whether they are characters, writers, legislators, or the common people. In the main chapters, literary works are dissected so as to underline the intolerance hidden behind words of righteousness and blind trust, as if such is the norm. Though history is taught, it is not so thoroughly examined. To our misfortune, we naively think that bigoted ideas are not a thing we could become afflicted with. They are antiques from the past – yet they possessed many hundreds of people and they surround us still. Since we've experienced very little change, it seems discipline is necessary to truly attempt to be rid of these ideas.

In this theory exists a community that explores and interrogates conventionality, and in American literature of the 20th century, it includes fashion and home decoration, two paths to achieving white femininity, a prized component of many novels written by and for women. Drawing on cultural materialism and its connection to the cultural forms of objects, including apparel, *Making it Work: 20th Century American Fiction and Fashion* provides readers a new understanding of the aims of American writers, and the desires of their readers.

the house of mirth pdf: *Social Inequality and Social Stratification in US Society* Christopher B. Doob, 2019-05-22 *Social Inequality and Social Stratification in US Society* uses a historical and conceptual framework to explain social stratification and social inequality. The historical scope gives context to each issue discussed and allows the reader to understand how each topic has evolved over the course of American history. The author uses qualitative data to help explain socioeconomic issues and connect related topics. Each chapter examines major concepts, so readers can see how an individual's success in stratified settings often relies heavily on their access to valued resources—types of capital which involve finances, schooling, social networking, and cultural competence. Analyzing the impact of capital types throughout the text helps map out the prospects for individuals, families, and also classes to maintain or alter their position in social-stratification systems.

the house of mirth pdf: Gynocritics and the Traversals of Women's Writing Hemant Verma, Ajit Kumar, Rafseena M., 2024-01-11 Discussions on any narrative focusing on the experiences of, about and by women have always had differences as well as similarities. What makes such varying approaches interesting is the fact that the re-readings and re-presentations of the hegemonic narratives necessitated the significance of feminist approaches which forms the major focus in the present volume. A feminist reading of the current narratives could explain how historically, women's rights and roles have been undermined and how the absence of women was never a concern in the male-centered narratives. Women's writings provide a consciousness that helps individuals consider critically about how differently men and women are dealt. With different dimensions brought in through the various scholarly articles on the differential treatment of women in the highly misogynist society, the book offers the space for the intellectuals, the academic researchers, and scholars in the field of literature and humanities to contribute to the development of an egalitarian world.

the house of mirth pdf: Self-Made Women in the 1920s United States Matthew Niven Teorey, 2022-05-16 Women of the 1920s led a revolt against the old standards of womanhood that were dominating US culture. Flappers and feminists, they spoke and acted out, inspiring other women to follow. This book analyzes the work of eleven important 1920s female authors who chronicled this revolt: Anzia Yezierska, Anita Loos, Mae West, Josephine Lovett, Nella Larsen, Mourning Dove, Djuna Barnes, Amy Lowell, Gertrude Stein, Bessie Smith, and Dorothy Parker. These trailblazers wrote counter-narratives to the sexism, racism, classism, and homophobia women faced during the Jazz Age. The author brings their novels, poems, plays, film scenarios, and blues lyrics into conversation with each other for the first time to show different approaches female readers could take to become autonomous individuals and full citizens. The works also encouraged readers to maintain supportive relationships with other progressive women. The author argues these works presented female readers with examples of how they could act individually and collectively to attain the political power, social status, economic independence, sexual freedom, and artistic recognition they deserved.

the house of mirth pdf: The Salome Ensemble Alan Robert Ginsberg, 2016-04-05 The Salome Ensemble probes the entangled lives, works, and passions of a political activist, a novelist, a screenwriter, and a movie actress who collaborated in 1920s New York City. Together they created the shape-shifting, genre-crossing Salome of the Tenements, first a popular novel and then a Hollywood movie. The title character was a combination Cinderella and Salome like the women who conceived her. Rose Pastor Stokes was the role model. Anzia Yezierska wrote the novel. Sonya Levien wrote the screenplay. Jetta Goudal played her on the silver screen. Ginsberg considers the women individually and collectively, exploring how they shaped and reflected their cultural landscape. These European Jewish immigrants pursued their own versions of the American dream, escaped the squalor of sweatshops, knew romance and heartache, and achieved prominence in politics, fashion, journalism, literature, and film.

the house of mirth pdf: No Place in Time Sharon B. Oster, 2018-11-12 An exploration of the

temporal function that the Jew plays in literature. *No Place in Time: The Hebraic Myth in Late-Nineteenth-Century American Literature* examines how the Hebraic myth, in which Jewishness became a metaphor for an ancient, pre-Christian past, was reimagined in nineteenth-century American realism. The Hebraic myth, while integral to a Protestant understanding of time, was incapable of addressing modern Jewishness, especially in the context of the growing social and national concern around the Jewish problem. Sharon B. Oster shows how realist authors consequently cast Jews as caught between a distant past and a promising American future. In either case, whether creating or disrupting temporal continuity, Jewishness existed outside of time. *No Place in Time* complicates the debates over Eastern European immigration in the 1880s and questions of assimilation to a Protestant American culture. The first chapter begins in the world of periodicals, an interconnected literary culture, out of which Abraham Cahan emerged as a literary voice of Jewish immigrants caught between nostalgia and a messianic future outside of linear progression. Moving from the margins to the center of literary realism, the second chapter revolves around Henry James's modernization of the noble Hebrew as a figure of mediation and reconciliation. The third chapter extends this analysis into the naturalism of Edith Wharton, who takes up questions of intimacy and intermarriage, and places the Jew at the nexus of competing futures shaped by uncertainty and risk. A number of Jewish female perspectives are included in the fourth chapter that recasts plots of cultural assimilation through intermarriage in terms of time: if a Jewish past exists in tension with an American future, these writers recuperate the Hebraic myth for themselves to imagine a viable Jewish future. *No Place in Time* ends with a brief look at poet Emma Lazarus, whose understanding of Jewishness was distinctly modern, not nostalgic, mythical, or dead. *No Place in Time* highlights a significant shift in how Jewishness was represented in American literature, and, as such, raises questions of identity, immigration, and religion. This volume will be of interest to scholars of nineteenth- and turn-of-the-century American literature, American Jewish literature, and literature as it intersects with immigration, religion, or temporality, as well as anyone interested in Jewish studies.

Students encounter expressions of history every day in the form of fiction, paintings, and commemorative art, as well as other art forms. Research demonstrates it is often these more informal encounters with history that define students' knowledge and understandings rather than the official accounts present in school curricula. This volume will provide educators with tools to bring together these parallel tracks of history education to help enrich students' understandings and as a mechanism for students to present their own emerging historical perspectives.
