the ones who stay and fight pdf: The Ones We've Been Waiting For Charlotte Alter, 2020-02-18 An optimistic look at the future of American leadership by a brilliant young reporter A new generation is stepping up. There are now twenty-six millennials in Congress--a fivefold increase gained in the 2018 midterms alone. They are governing Midwestern cities and college towns, running for city councils, and serving in state legislatures. They are acting urgently on climate change (because they are going to live it); they care deeply about student debt (because they have it); they are utilizing big tech but still want to regulate it (because they understand how it works). In *The Ones We've Been Waiting For*, TIME correspondent Charlotte Alter defines the class of young leaders who are remaking the nation--how grappling with 9/11 as teens, serving in Iraq and Afghanistan, occupying Wall Street and protesting with Black Lives Matter, and shouldering their way into a financially rigged political system has shaped the people who will govern the future. Through the experiences of millennial leaders--from progressive firebrand Alexandria Ocasio-Cortez to Democratic presidential hopeful Pete Buttigieg to Republican up-and-comer Elise Stefanik--Charlotte Alter gives the big-picture look at how this generation governs differently than their elders, and how they may drag us out of our current political despair. Millennials have already revolutionized technology, commerce, and media and have powered the major social movements of our time. Now government is ripe for disruption. *The Ones We've Been Waiting For* is a hopeful glimpse into a bright new generation of political leaders, and what America might look like when they are in charge.

the ones who stay and fight pdf: How Good Are Parklets? Quentin Stevens, 2025-11-03

Parklets are innovative, dynamic public spaces that are installed onto on-street car-parking spots. These very small spaces have had a very large and lasting impact on city streets. *How Good Are Parklets?* is the first book to critically examine the parklet's purposes, formats and impacts. It traces the parklet's history, from its invention in 2005 as an experiment that tactically reclaimed street space for broader public use, to its surge in popularity worldwide after the COVID-19 pandemic for outdoor dining, community gathering and play. Drawing together archival research, expert interviews, typological analysis, mapping, field observation and design research, this book examines parklets' design, production and implementation across varying urban contexts. By examining a wide range of contemporary practices, this book identifies parklets' potentials to reshape streets, meet diverse social needs and foster community engagement. This book situates parklets within the wider push towards deploying temporary and tactical strategies in the planning and management of cities. Its deep enquiry into one question about one type of spatial intervention contributes new insights into the complex interplays of actors, interests, processes and materials that are currently transforming the urban landscape – one parking space at a time.

the ones who stay and fight pdf: *Holding Together* John Shattuck, Sushma Raman, Mathias Risse, 2022-05-31 A bold new assessment of the multipronged attack on rights in the United States, and how to push back An overwhelming majority of Americans agree that rights are essential to

their freedom, and that rights today are severely threatened. The promise of rights has been reimagined at pivotal moments in American history—from the American Revolution to the Civil War to the Civil Rights Movement. Can today become another time of transformation? Holding Together is about the promise of rights as a source of American identity, the struggle to realize rights by countless Americans to whom the promise has been denied or not fulfilled, the hijacking of rights by politicians who seek power by dividing and polarizing, and the way forward in which rights can bring Americans together instead of tearing them apart. Drawing on a series of town hall meetings with representative groups of citizens across the country discussing their concerns over rights, new national opinion polls from all demographic groups and political perspectives conducted in 2020 and 2021, and extensive research, Holding Together is a road map for an American rights revival. John Shattuck, Sushma Raman, and Mathias Risse present a comprehensive account of the current state of rights in the United States—and concrete recommendations to policy makers and citizens on how to reclaim them.
