Scholars highlight Osgood as a foil to Hardy's critique of Victorian hypocrisy, representing superficial morality rooted in materialism rather than genuine virtue.

Conclusion: The Enduring Legacy of Osgood McIlvaine in Jude the Obscure

Scholars have sought answers in 'revolutionary', 'gender', 'postcolonial' and 'millennial' criticism, but these are found to be unsatisfactory. Fred Reid is a historian who seeks answers by setting Hardy more fully in the discourses of philosophical history and the domestic and international affairs of Britain. He shows how Hardy worked out, from the late 1850s, his own 'meliorist' philosophy of history and how it is inscribed in his fiction. Rooted in the idea of cyclical history as propounded by the Liberal Anglican historians, it was adapted after his loss of faith through reading the works of Auguste Comte, George Drysdale and John Stuart Mill and used to defend the right of individuals to break with the Victorian sexual code and make their own 'experiments in living'.

thomas hardy jude the obscure osgood mcilvaine: Global Dilemmas Malcolm Hardman, 2017-10-06 No more than there can be time without space can there be history without locality. This book takes a road less traveled into a locality that provides fresh insights into our global dilemmas. Bolton-le-Moors was a global center of cotton, coal, and engineering, whose factory engines were the beating heart of the Victorian world. Commanding the widest range of trades of any town in the Empire, it specialized in papermaking, from pawn tickets to banknotes, via newspapers and syndicated fiction. Responsive to locality, yet world-aware, its many independent writers shared a creative forum with authors like Wordsworth, Tennyson, Ruskin, Gaskell, Charlotte Brontë, Tolstoy, Whitman, Thomas Hardy, T. S. Eliot, Virginia Woolf. Other "locals" include mathematician Thomas Kirkman, "father of design theory," Thomas Moran, painter of the American "New West," Charles Holden, the Empire's leading Modern architect. Bolton's printed culture was founded on traditions that made it a bulwark of parliamentary puritanism in the days of Reformation and Civil War. These traditions increasingly confronted global dilemmas that the town's own inventiveness and entrepreneurship had helped create: yet its high moorlands also provided a breathing space to generate imaginative spiritual, political, and practical remedies. Global Dilemmas completes the account of Bolton writing initiated in A Kingdom in Two Parishes and continued in Classic Soil: an arc of discourse from Thomas Lever (1521-77), whose social experiments provided the model for the Protestant colonization of the New World, to his kinsman W. H. Lever (Lord Leverhulme), sincere Christian, world capitalist, progressive social thinker, and (pursuing the logic of profit) exploiter of Conrad's African "heart of darkness."
