book club associates london: The Norman Heritage Trevor Rowley, 2019-06-26 Originally published in 1983, *The Norman Heritage* looks at the Norman Conquest as a turning point in English history. The book argues that not only was this the last time that England was successfully invaded, but it followed a complete change in the ruling dynasty, the introduction of military feudalism, the reform of the church and the rapid spread of monasticism. The book suggests that such social and political changes were accompanied by dramatic architectural and topographical developments. Frenzied building activity resulted in the construction of cathedrals, churches, monasteries and castles and stone was used on a scale unknown since the end of the Roman Empire. The Norman desire to exercise regional political control and to stimulate trade resulted in a rash of newly planned towns across the country. In many more subtle ways, Anglo-Saxon landscape was altered and modified by Norman coercion and influence. Through their energy and administrative ability, the Normans transformed the face of town and country alike, and this book traces the impact of the Norman Conquest upon the British scene, through both a historical narrative, surviving structural remains of buildings and the patterns of settlements, communications and land use that developed during this period.

book club associates london: The Mythology of Richard III John Ashdown-Hill, 2015-04-15 John Ashdown-Hill, whose research was instrumental in the discovery of Richard III's remains, explores and unravels the web of myths around Richard III.

book club associates london: The World's Greatest Fix G. J. Leigh, 2004-08-19 Finally, the value of industrial nitrate to help feed the current world population and the environmental consequences of nitrate use in terms of pollution in waters and human health implications are discussed.--Jacket.

book club associates london: The Radical Twenties John Lucas, 1999 Studies writers from the 1920s with regard to their political radicalism. Draws on the works of D. H. Lawrence, Virginia Woolf, Sylvia Townsend Warner, and Patrick Hamilton, among others, to identify the decade as a time of both political activism and of deliberately transgressive behavior, particularly among women. Meets head-on the argument of earlier commentators who take for granted the post-war decade as defined by cynicism and hedonism, and looks at the work and lifestyles of those determined to find ways out of despair. book club associates london: Anxiety and Evil in the Writings of Patricia Highsmith Dr Fiona Peters, 2013-05-28 Drawing on an impressive range of secondary material, including many elusive reviews, interviews and articles from the under-explored Highsmith Archive, Fiona Peters suggests that the usual generic distinctions -crime fiction, mystery, suspense - have been largely unhelpful in elucidating Patricia Highsmith's novels. Peters analyzes a significant selection of Highsmith's works, chosen with a view towards demonstrating the range of her oeuvre while also identifying the main themes and preoccupations running throughout her career. Adopting a psychoanalytic approach, Peters proposes a reading of Highsmith that subordinates murder as the primary focus of the novels in favor of the gaps between periods of activity represented through anxiety, waiting, lack of desire and evil. Her close readings of the Ripley series, *This Sweet Sickness*, *Deep Water*, *The Tremor of Forgery*, and *The Cry of the Owl*, among others, reveal and illuminate Highsmith's concern with minutiae and the particular. Peters makes a strong case that the specific disturbances within her texts have resulted in Highsmith's writing remaining resistant to explication and to the more sophisticated interpretative strategies that would seek to position her within a specific genre.

book club associates london: Bloody British History: Britain Geoff Holder, 2014-10-01 Britain has an incredible history, steeped in all manner of blood, death, disease and horror. From cannibals to concentration camps, Geoff Holder covers events both great and gory from Britain's terrible past, with kings, queens and pretenders to the throne; sea battles, massacres and attacks from the air.

This collection explores it all, with hundreds of amazing true stories, including seven ill-judged attempts to assassinate Queen Victoria and the Gestapo's secret plans to bring a conquered Britain to its knees. There will be blood ...

book club associates london: History Play Rodney Bolt, 2008-12-10 Rodney Bolt's delightful life of Marlowe plays out a surprising solution to an enduring literary mystery, bringing the spirit of Shakespeare alive as we've never seen it before. Rodney Bolt's book is not an attempt to prove that, rather than dying at 29 in a tavern brawl, Christopher Marlowe staged his own death, fled to Europe, and went on to write the work attributed to Shakespeare. Instead, it takes that as the starting point for a playful and brilliantly written fake biography of Marlowe, which turns out to be a life of the Bard as well. Using real historical sources (as well as the occasional red herring) plus a generous dose of speculation, Bolt paints a rich and rollicking picture of Elizabethan life. As we accompany Marlowe into the halls of academia, the society of the popular English players traveling Europe, and the dangerous underworld of Elizabethan espionage, a fascinating and almost plausible life story emerges, along with a startlingly fresh look at the plays and poetry we know as Shakespeare's. Tapping into centuries of speculation about the man behind the work, about whom so few facts are known for sure, Rodney Bolt slyly winds the lives of two beloved playwrights into one.

book club associates london: Remembering the Cultural Geographies of a Childhood Home Peter Hughes Jachimiak, 2016-04-08 Using an innovative auto-ethnographic approach to investigate the otherness of the places that make up the childhood home and its neighbourhood in relation to memory-derived and memory-imbued cultural geographies, *Remembering the Cultural Geographies of a Childhood Home* is concerned with childhood spaces and children's perspectives of those spaces and, consequentially, with the personalised locations that make up the childhood family home and its immediate surroundings (such as the garden, the street, etc.). Whilst this book is primarily structured by the author's memories of living in his own Welsh childhood home during the 1970s - that is, the auto-ethnographic framework - it is as much about living anywhere amid the remembered cultural remnants of the past as it is immersing oneself in cultural geographies of the here-and-now. As a result, *Remembering the Cultural Geographies of a Childhood Home* is part of the ongoing pursuit by cultural geographers to provide a personal exploration of the pluralities of shared landscapes, whereby such an engagement with space and place aid our construction of cognitive maps of meaning that, in turn, manifest themselves as both individual and collective cultural experiences. Furthermore, touching upon our co-habiting of ghost topologies, *Remembering the Cultural Geographies of a Childhood Home* also encourages a critical exploration of children's spirituality amid the haunted cultural and geographical spaces and places of a house and its neighbourhood: the cellar, hallway, parlour, stairs, bedroom, attic, shops, cemeteries, and so on.

book club associates london: The Social Railway and Its Workers in Europe's Modern Era, 1880-2023 David Welsh, 2025-06-26 This thematically arranged book examines the evolution of rail transport and a number of railway workforces across Europe in the modern era, from around 1880 to 2023. Each chapter explores how, within the context of a social railway, rail workers developed distinct national and international perspectives on the nature of their work and their roles in societies and states. David Welsh convincingly argues that workers formed a raft of entirely new and enduring organisations such as trade unions that, in turn, became ramparts of hope. Welsh goes on to consider how the insurgent character of these organisations produced moments of fury during tumultuous periods in the 20th century. *The Social Railway and its Workers in Europe's Modern Era, 1880-2023* explores the national and European contexts in which both characteristics came to the fore, including the ecology of fossil fuel technology (coal and oil). Above all, it argues that social, economic and political forces are not simply external 'scene-shifting' but integral to the history of railway systems. The book examines the cultural construction of European railways through literature, art and other forms of writing as well as recent oral history. It also includes a detailed investigation of the role played by nationalisation and public ownership in Europe. In the context of neoliberalism and globalization, it proposes a 21st century programme for the social railway.

book club associates london: The Wargaming Compendium Henry Hyde, 2013-08-19 An

extensive reference guide to the exciting hobby, for beginners as well as longtime players. Wargaming is a fascinating, engrossing, and exciting pastime that encompasses a wide range of different talents. The average wargamer uses the skills of artist, designer, sculptor, illustrator, historian, librarian, researcher, mathematician, and creative writer, as well as the more obvious ones of general, admiral, or air marshal for large games, or perhaps lieutenant, commodore, or squadron leader for skirmishes. Aside from calling upon many skills, wargaming also covers many aspects of combat, spanning the history of Earth. With science fiction gaming, we plunge into imagined worlds many thousands of years into the future, and a fantasy gamer, of course, deals with eons of imagined history, as anyone who has read *The Lord of the Rings* will know. A wargamer may find themselves recreating an encounter between a handful of adversaries one day, or a massed battle involving perhaps hundreds of miniature troops the next. Moreover, it is possible to play wargames that recreate warfare on land, on sea, in the air, or even in outer space. This book demonstrates the wonderfully varied hobby of wargaming with miniatures, looking at the broad scope of what it has to offer as well as detailed explanations of how to get involved, including comprehensive rules for gladiator combat, Wild West skirmishes, and the horse and musket era, as well as lots of advice for anyone new to wargaming. Whether you're a complete newcomer to the hobby, or a veteran of many years, you'll find plenty in *The Wargaming Compendium* to entertain and inspire you.

book club associates london: Medieval Birmingham John Hemingway, 2022-08-04 This book attempts to show through documentary and archaeological evidence how Birmingham evolved from a village into its present role as the second city of the United Kingdom.

book club associates london: London's Global Office Economy Rob Harris, 2021-04-08 *London's Global Office Economy: From Clerical Factory to Digital Hub* is a timely and comprehensive study of the office from the very beginnings of the workplace to its post-pandemic future. The book takes the reader on a journey through five ages of the office, encompassing sixteenth-century coffee houses and markets, eighteenth-century clerical factories, the corporate offices emerging in the nineteenth, to the digital and network offices of the twentieth and twenty-first centuries. While offices might appear ubiquitous, their evolution and role in the modern economy are among the least explained aspects of city development. One-third of the workforce uses an office; and yet the buildings themselves – their history, design, construction, management and occupation – have received only piecemeal explanation, mainly in specialist texts. This book examines everything from paper clips and typewriters, to design and construction, to workstyles and urban planning to explain the evolution of the 'office economy'. Using London as a backdrop, Rob Harris provides built environment practitioners, academics, students and the general reader with a fascinating, illuminating and comprehensive perspective on the office. Readers will find rich material linking fields that are normally treated in isolation, in a story that weaves together the pressures exerting change on the businesses that occupy office space with the motives and activities of those who plan, supply and manage it. Our unfolding understanding of offices, the changes through which they have passed, the nature of office work itself and its continuing evolution is a fascinating story and should appeal to anyone with an interest in contemporary society and its relationship with work.

book club associates london: *A Green and Pagan Land* David Huckvale, 2018-02-01 British literature often refers to pagan and classical themes through richly detailed landscapes that suggest more than a mere backdrop of physical features. The myth-inspired writings of Alfred, Lord Tennyson, Algernon Blackwood, Aleister Crowley, Lord Dunsany and even Kenneth Grahame's *The Wind in the Willows* informed later British films and television dramas such as *The Owl Service* (1969-70), *Blood on Satan's Claw* (1971), *The Wicker Man* (1973), *Excalibur* (1981) and *Monty Python and the Holy Grail* (1975). The author analyzes the evocative language and esthetics of landscapes in literature, film, television and music, and how psycho-geography is used to explore the influence of the past on the present.

book club associates london: *Was Jesus Crucified?* Keith Prosser, 2016-07-07 An historical research into the life and death of Jesus Christ as described in the Christian Holy Bible. Examines

early Gnostic, Jewish, Roman, Greek, Syrian and Christian historical sources, to give a near-comprehensive analysis of the subject, resulting in a genuine fresh look into the well studied topic. A meticulous review is made of what Josephus wrote about Jesus through critical analysis demonstrating why he must have written it. A similar examination is made of the Gnostic writings especially the Nag Hammadi gospel of Thomas, resulting in textual proof he wrote it after the Bible's gospels. The book should prove of great interest to those studying or reading the New Testament as it includes a summarised history of the Faith spanning from the present day to the first century, the origins of present day scepticism, introduction into manuscript preservation, and a glossary of theological terms and early Christian controversies.

book club associates london: Visconti and the German Dream David Huckvale, 2014-01-10 Luchino Visconti's trilogy of films *Ludwig*, *Death in Venice* and *The Damned* explore the complex relationship between the themes and ideals of German Romanticism and their impact on the catastrophe of the Third Reich. The personality and works of Richard Wagner to a large extent epitomize German Romanticism as a whole, while the writings of Thomas Mann and Friedrich Nietzsche provide the greatest critique of this dark and troubled but sublime and emotionally overwhelming culture. Along with contrasting approaches to this subject by other filmmakers such as Hans-Jurgen Syberberg, Ken Russell and Tony Palmer, this book explores how the preoccupations of the German Romantic movement led to Nazism, and contrasts the ways in which filmmakers have presented this continuum. The book also discusses the impact of Wagner's musical dramas on the art form of the cinema itself.

book club associates london: Dishes with Strange Names Ian Grierson, 2024-05-24 British and Irish cuisine, rich in tradition and flavour, has faced challenges in adapting to the modern world. Renowned for its hearty ingredients and lengthy cooking times, this style of cooking often clashes with today's fast-paced lifestyle, where time is precious and health consciousness prevails. Moreover, these cuisines are known for their quirky and sometimes whimsical dish names. This cookbook celebrates the unique and oddly named dishes of British and Irish fare, offering just under 200 recipes for culinary exploration. Each recipe is preceded by a story delving into the dish's history and distinct features. While some dishes remain widely recognized and cherished classics, like 'the full English,' 'colcannon,' 'toad in the hole,' and 'bubble and squeak,' others are regional favourites, such as 'scouse' in Merseyside and 'parmo' in the North East. There are also lesser-known, rarely eaten delicacies like 'apple hat' and 'collier's foot.' For those intrigued by the misleading, such as 'squab pie' (made with lamb, not pigeon) or 'Glamorgan sausages' (meatless, cheese-based sausages), this book is a treasure trove of culinary surprises. And for the more adventurous, how about trying 'toenail pudding' or a slice of 'fly cemetery'? This book promises to pique your curiosity and introduce you to the charming eccentricities of British and Irish cooking.

book club associates london: King Arthur and the Battle for Britannia Tony Sullivan, 2024-07-30 *King Arthur and the Battle for Britannia* is the last in a series of three books. The first, *King Arthur: Man or Myth*, weighed the evidence for and against a historical figure. The second, *The Battles of King Arthur*, looked in detail at the famous battle list from the *Historia Brittonum*. Having looked at the questions of whether and where, this final book takes on the different question of who was Arthur? The book is intended to save readers time and money wading through the scores of competing theories. It explains the problems with many of these theories to date, their failure to gain widespread support and why many historians remain sceptical about the existence of a historical Arthur. There is however a reasonable consistency in medieval genealogies and a good reason why Arthur does not appear in any of the list of kings of early kingdoms. Instead he is placed in the context of a fragmenting post-Roman provincial structure, alongside the emergence of petty kingdoms with new cultural identities. A heroic Brythonic culture in the west and north and a Germanic culture in the east and south. The book looks at the evolution of the legend comparing the chivalric French Romances with the Arthur of the darker Welsh tradition. A mythical figure may have emerged from the mead halls and war band culture of the sixth century. However the book describes how a historical figure may have been mythologised and who such a warrior may have

been.

book club associates london: Joseph Goebbels T. Thacker, 2016-04-30 An insightful new biography of Joseph Goebbels, Propaganda Minister of the 'Third Reich' and one of the most important and troubling figures of the twentieth century. The first account to use all of Goebbels' surviving diaries, it sheds new light on his personality, private life and political convictions, as well as his relationship with Hitler.

book club associates london: The Hades Moon Judy Hall, 1998-01-15 Using mythology, archetypal symbolism, and a wealth of case histories, this study provides new material and insight into the many facets of this major, transformative contact between the Moon and Pluto. Hall explains why Pluto-Moon aspects are so important, and gives a description of the Hades Moon through the signs and houses. She shows us the symptoms and offers practical information about flower essences and techniques that can help people handle Hades Moon energy.

book club associates london: Stephen King's Gothic John Sears, 2011-06-30 Explores the works of Stephen King, one of the world's best-selling horror writers, through the lenses offered by contemporary literary and cultural theory. This title argues that King's writing explores many of the issues analysed by critics and philosophers.
