boxed set lord of the rings: *The Collected Poems of J.R.R. Tolkien Box Set* J. R. R. Tolkien, 2024-09-17 The first-ever publication of the collected poems of J.R.R. Tolkien, spanning almost seven decades of the author's life and presented in an elegant three-volume hardcover boxed set. J.R.R. Tolkien aspired to be a poet in the first instance, and poetry was part of his creative life no less than his prose, his languages, and his art. Although Tolkien's readers are aware that he wrote poetry, if only from verses in *The Hobbit* and *The Lord of the Rings*, its extent is not well known, and its qualities are underappreciated. Within his larger works of fiction, poems help to establish character and place as well as further the story; as individual works, they delight with words and rhyme. They

express his love of nature and the seasons, of landscape and music, and of words. They convey his humor and his sense of wonder. The earliest work in this collection, written for his beloved, is dated to 1910, when Tolkien was eighteen. More poems would follow during his years at Oxford, some of them very elaborate and eccentric. Those he composed during the First World War, in which he served in France, tend to be concerned not with trenches and battle, but with life, loss, faith, and friendship, his longing for England and the wife he left behind. Beginning in 1914, elements of his legendarium, "The Silmarillion," began to appear, and the "Matter of Middle-earth" would inspire much of Tolkien's verse for the rest of his life. The Collected Poems of J.R.R. Tolkien presents almost 200 works across three volumes, including more than 60 that have never before been seen. The poems are deftly woven together with commentary and notes by world-renowned Tolkien scholars Christina Scull & Wayne G. Hammond, placing them in the context of Tolkien's life and literary accomplishments and creating a poetical biography that is a unique and revealing celebration of J.R.R. Tolkien.

boxed set lord of the rings: Demonica Box Set Pelaam, 2025-03-22 This box set contains all seven stories in Pelaam's best-selling MM fantasy series, Demonica, in which a team of paranormal beings and humans guard the world from the forces of darkness. Contains the stories: Ange et Demon: Matteo, a human agent, is surprised to be partnered with the newest arrival -- the demon Vilmos, who prefers to work alone. When Vilmos upsets Matteo, he incurs the wrath of Priel and Ull, the team's powerful angel and demon pairing. Tales from the Sea Vixen: The Sea Vixen carries a team that helps to protect the world from attacks from dark forces. Answering a distress call, a small team is sent to investigate. When a newly freed demon takes Nathan, the team races against time to save him, body and soul. Frank will fight a demon from hell to protect the man he loves. Daimon: Daimon, an empathic demon aligned with neither the dark nor the light, lives in a remote part of New Zealand for the scenery as much as the lack of people. When he senses someone's despair, he investigates -- not that the memory of the gorgeous man who'd moved in nearby recently has anything to do with his interest -- only to find out more about his new neighbours than he expected. Becomes the Rose: Although Tarin's long-term relationship ended recently, he still decides to go on the long-planned camping trip with his ex. But when he wakes up after an argument about sharing a bed, he finds his ex gone. He can't believe his luck when he stumbles upon a nameless hamlet. But are the friendly, gorgeous men who live there his saviours or his downfall? Haunted by the Past: When Jared finds a house that suits him, he doesn't expect to find himself attracted to the gardener, Evander. Each man is haunted by something. When a ghost from Jared's past appears, they must fight for their own happiness, even if it means exposing themselves and the truth. Through a Glass Darkly: Radley Middleton is a down to earth kind of guy. His love life, though, is non-existent, and lately, the dreams he's had for years no longer seem to be just dreams. The day he found the mirror was the day everything started to change. The Painting: Drake seeks solitude halfway around the world. He thinks he's fallen in love with a ghost when Nate, a character from one of the paintings finally steps free of its confines. But the truth is far more deadly. Can even combined forces of light save Nate and prevent Drake becoming another victim.
