can you tell what it is yet rolf harris: Can You Tell what it is Yet? Rolf Harris, 2002 In 1952, a young Australian stepped off a ferry in Dover with dreams of being a famous portrait painter like his grandfather. He too could paint, but also play the piano, write songs, ride a bike with no hands and swim 110 metres backstroke in eighty seconds flat. If Rolf Harris seems to have been with us for ever, that's because he has. After nearly fifty years on stage and screen, he is one of the most loved, respected and enduring figures in British showbusiness. He was there at the very beginning of television in the UK and is still there now. And although he calls himself a lucky amateur millions would disagree. We have grown up watching him draw cartoons, paint big pictures, wobble his board and talk to the animals and their owners. Now, in his long overdue autobiography, Rolf Harris charts his rise from the dusty streets of Bassendean in Western Australia to becoming a household name on both sides of the world. Along the way there are triumphs and disasters, revelations and regrets. He has worked with the likes of Tony Hancock and Woody Allen, jousting with John Lennon and had the Beatles singing Tie Me Kangaroo Down Sport with their own lyrics. Thirty years later he was voted the most popular act ever at Glastonbury and had 86,000 people screaming his name. Reborn as a rock singer and award winning television presenter, Rolf Harris was labelled by one newspaper the Ultimate Renaissance Man. In reality, he is proof positive that if you live long enough, real talent will give you more than one bite at the cherry.

Their influence extends far beyond music and into realms as diverse as fashion and fine art, sexual politics and religion. When they appeared on The Ed Sullivan Show in 1964, fresh off the plane from England, they provoked an epidemic of hoarse-throated

fandom that continues to this day. Who better, then, to capture the Beatles phenomenon than Craig Brown—the inimitable author of *Ninety-Nine Glimpses of Princess Margaret* and master chronicler of the foibles and foppishness of British high society? This wide-ranging portrait of the four lads from Liverpool rivals the unique spectacle of the band itself by delving into a vast catalog of heretofore unexamined lore. When actress Eleanor Bron touched down at Heathrow with the Beatles, she thought that a flock of starlings had alighted on the roof of the terminal—only to discover that the birds were in fact young women screaming at the top of their lungs. One journalist, mistaken for Paul McCartney as he trailed the band in his car, found himself nearly crushed to death as fans climbed atop the vehicle and pressed their bodies against the windshield. Or what about the Baptist preacher who claimed that the Beatles synchronized their songs with the rhythm of an infant's heartbeat so as to induce a hypnotic state in listeners? And just how many people have employed the services of a Canadian dentist who bought John Lennon's tooth at auction, extracted its DNA, and now offers paternity tests to those hoping to sue his estate? *150 Glimpses of the Beatles* is, above all, a distinctively kaleidoscopic examination of the Beatles' effect on the world around them and the world they helped bring into being. Part anthropology and part memoir, and enriched by the recollections of everyone from Tom Hanks to Bruce Springsteen, this book is a humorous, elegiac, and at times madcap take on the Beatles' role in the making of the sixties and of music as we know it.

Television (or 'the idiot's lantern', depending on your feelings about it) has created controversy, brought coronations and World Cups into living rooms, allowed us access to 24hr news and media and provided a thousand conversation starters. As shows come and go in popularity, the history of television shows us how our society has changed. Armchair Nation reveals the fascinating, lyrical and sometimes surprising history of telly, from the first demonstration of television by John

Winning the Critics' Choice Brit Award in 2012 has confirmed the young Scottish singer as one of the great musical talents of a very talented generation, and while publicly 2012 was a hugely successful year for Emeli, privately it was too, as she married her long-term boyfriend Adam Gouraguine in his home country of Montenegro. In January 1991 a squad of eight men went behind the Iraqi lines on a top secret mission. It was called Bravo Two Zero. On command was Sergeant Andy McNab. They are the true unsung heroes of the war. -- Lt. Col. Steven Turner, American F-15E commander. Dropped into scud alley carrying 210-pound packs, McNab and his men found themselves surrounded by Saddam's army. Their radios didn't work. The weather turned cold enough to freeze diesel fuel.
