The Philosopher is arrested for murder after the

neighbouring Leprecauns of Gort na Clocha Mora (whose crock of gold has been taken) lay information with the police that the two friends who shared the Philosopher's house have died, with the implication that they have been killed. It is in circumstances such as these that dangerous alliances are made, wrote Stephens, and, for the first time in history, the elemental beings invoked bourgeois assistance. The Philosopher is then whisked away by his wife the Thin Woman of Inis Magrath (who herself belongs to the most powerful Shee of Ireland). The Philosopher and the Thin Woman of Inis Magrath encounter notable characters on their separate journeys, in his case Angus Óg, and in hers the Three Infinites.

crock of gold book: *The Crock of Gold (Classic Reprint)* James Stephens, 2017-09-15 Excerpt from *The Crock of Gold* The Grey Woman and the Thin Woman were so incensed at being answered that they married the two Philosophers in order to be able to pinch them in bed, but the skins of the Philosophers were so thick that they did not know they were being pinched. They repaid' the fury of the women with such tender affection that these vicious creatures almost expired of chagrin, and once, in a very ecstasy of exasperation, after having been kissed by their husbands, they uttered the fourteen hundred maledic tions which comprised their wisdom, and these were learned by the Philosophers who thus became even wiser than before. In due process of time two children were born of these marriages. They were born on the same day and in the same hour, and' they were only different in this, that one of them was a boy and the other one was a girl. Nobody was able to tell how this had happened and, for the first time in their lives, the Philosophers were forced to ad mire an event which they had been unable to prognosticate; but having proved by many different methods that the children were really children, that what must be must be, that a fact cannot be controverted. Yeats, Volume X: Later Articles and Reviews* is part of a fourteen-volume series under the general editorship of eminent Yeats scholars Richard J. Finneran and George Mills Harper. This first complete edition includes virtually all of the Nobel laureate's published work, in authoritative texts and with extensive explanatory notes. *Later Articles and Reviews* consists of fifty-four prose pieces published between 1900 and Yeats's death in January 1939 and benefits from the notes and emendations of Yeats scholar Colton Johnson. The pieces collected here are occasional, and they reflect the many interests and engagements of Yeats in his maturity. No longer a reviewer or polemicist, Yeats is an international figure: a senator in the fledgling Irish state, a defining modern poet, a distinguished essayist. And here we have him writing -- with grace, wit, and passion -- on the state of Ireland in the world, on Irish language and Irish literature, on his artistic contemporaries, on the Abbey Theater, on divorce, on censorship, on his evolution as a poet and dramatist, on his own poetry. Volume X also includes texts of ten radio programs Yeats broadcast between 1931 and 1937. This is not only the first collection but also the first printing of Yeats's radio work, which constitutes the largest previously uncollected body of his writings and possibly the most important to remain largely unstudied. Carefully assembled from manuscripts, typescripts, broadcast scripts, and fragmentary recordings, the programs range from a scripted interview on contemporary issues to elaborate stagings of his own and others' poetry. One of the radio programs is presented in an appendix complete with the commissioned musical score

that set Yeats's poetry to music, Yeats's own emendations on the BBC broadcast script, and the diacritical notes with which the broadcast reader indicated Yeats's interpretive instructions. Here, then, is seasoned Yeats, writing and speaking vigorously and with keen personal insight about the modern age and his place in it.
