Easy Riders Raging Bulls Peter Biskind: An In-Depth Exploration of a Cinematic Revolution

Introduction

The phrase **Easy Riders Raging Bulls Peter Biskind** immediately evokes a pivotal moment in American film history. It refers to the acclaimed book by Peter Biskind that chronicles the transformative era of Hollywood cinema during the 1960s and 1970s, characterized by a new wave of rebellious filmmakers and groundbreaking movies. This period, often dubbed the “New Hollywood,” revolutionized filmmaking styles, narratives, and industry practices, leaving a lasting impact on cinema. In this article, we delve into the core themes, influential figures, and legacy of Biskind’s seminal work, providing a comprehensive overview of this cinematic epoch.

The Origins of the New Hollywood Movement

Historical Context

The post-World War II era saw Hollywood facing profound challenges, including:

- The decline of the studio system’s dominance
- The rise of television as a competing entertainment medium
- Changing audience tastes and cultural shifts of the 1960s

These factors created a fertile ground for innovation and experimentation in filmmaking.

Emergence of a New Generation of Filmmakers

A group of young directors, often referred to as the “movie brats,” emerged during this time:

- Martin Scorsese
- Francis Ford Coppola
- George Lucas
- Steven Spielberg
- Brian De Palma

These directors were influenced by European art cinema, New Wave movements, and a desire to tell more personal and socially relevant stories.

Peter Biskind’s “Easy Riders Raging Bulls”: An Overview

Publication and Significance

Published in 1998, Biskind’s book is considered a definitive chronicle of the Hollywood revolution of the late 20th century. It offers:

- A detailed narrative of the rise of influential filmmakers
- Behind-the-scenes accounts of iconic films
- An analysis of the cultural and industry shifts that shaped this era

The book’s title references two seminal films: *Easy Rider* (1969), representing counterculture rebellion, and *Raging Bull* (1980), epitomizing intense personal storytelling.

Core Themes of the Book

Biskind's work explores several key themes:

1. **The Break from Tradition:** How directors challenged conventional Hollywood norms.
2. **Creative Freedom and Independence:** The shift toward auteur-driven filmmaking.
3. **Industry Transformation:** Changes in studio power dynamics and film financing.
4. **Cultural Reflection:** Films as mirrors of societal upheaval and youth culture.

Influential Films and Directors Featured in the Book

The Iconic Films of the Era

Biskind discusses numerous landmark movies that defined the period:

- **Easy Rider (1969):** A rebellious road movie that captured counterculture ethos
- **The Godfather (1972):** A sprawling saga of American crime and family
- **Taxi Driver (1976):** A gritty portrait of alienation and violence
- **Raging Bull (1980):** A biopic of boxer Jake LaMotta, showcasing intense personal exploration

- **Star Wars (1977):** Revolutionizing blockbuster filmmaking and special effects

Key Filmmakers and Their Contributions

The book profiles influential directors, highlighting their styles and impact:

1. **Martin Scorsese:** Master of gritty urban narratives and psychological depth
2. **Francis Ford Coppola:** Architect of epic storytelling with The Godfather trilogy
3. **George Lucas:** Pioneer of blockbuster filmmaking and special effects innovation
4. **Steven Spielberg:** Versatile storyteller who expanded Hollywood's scope
5. **Brian De Palma:** Known for stylistic thrillers and visual innovation

The Cultural and Industry Impact

Shift Toward Auteur Cinema

Biskind illustrates how directors gained unprecedented control over their projects, leading to films that reflected personal visions rather than studio mandates.

Changing Studio Dynamics

The era saw studios becoming more receptive to risk-taking and unconventional storytelling, often partnering with independent producers and investors.

Audience Engagement and Youth Culture

Films of this period resonated with the youth and countercultural movements, influencing fashion, attitudes, and societal debates.

The Controversies and Criticisms

While Biskind's portrayal is widely praised, it has also faced criticism:

1. **Glorification of Excess:** Critics argue the book sometimes romanticizes the wild lifestyles of directors and stars.
2. **Accuracy Concerns:** Some have questioned the accuracy of certain anecdotes and characterizations.
3. **Focus on Male Filmmakers:** The narrative largely emphasizes male directors, with limited discussion of women's roles during the era.

Despite these criticisms, the book remains a foundational text for understanding Hollywood's transformative years.

The Legacy of the Easy Riders Raging Bulls Era

Long-Term Industry Changes

The innovations of this era laid the groundwork for modern Hollywood, including:

- The rise of franchise filmmaking
- The importance of star power and director branding
- Advanced special effects and technological innovation

Influence on Contemporary Filmmaking

Modern auteurs and blockbuster directors draw inspiration from the bold storytelling and visual styles pioneered during this period.

Cultural Reflection and Critique

Films from this era continue to serve as reflections of societal tensions and cultural shifts, shaping future cinematic narratives.

Conclusion: Why “Easy Riders Raging Bulls” Matters

Peter Biskind’s *Easy Riders Raging Bulls* remains an essential resource for film enthusiasts, scholars, and industry insiders. It captures a unique moment when Hollywood underwent radical change, driven by visionary filmmakers who dared to challenge norms. The book not only chronicles this fascinating history but also offers insights into how creative freedom, cultural upheaval, and industry evolution continue to influence cinema today.

Whether you are interested in the rebellious spirit of Easy Rider, the intense artistry of Raging Bull, or the broader cinematic revolution of the late 20th century, Biskind's work provides a compelling and detailed account that enriches our understanding of American film history.

In Summary:

- The era was marked by innovative filmmaking and industry shifts.
- Key figures include Scorsese, Coppola, Lucas, Spielberg, and De Palma.
- Iconic films like Easy Rider and Raging Bull exemplify the movement's diversity.
- The legacy persists in modern filmmaking practices and cultural reflections.
- Despite criticisms, the book remains a definitive guide to this transformative period.

By exploring the themes, figures, and cultural impact detailed in Biskind's "Easy Riders Raging Bulls," readers gain a deeper appreciation of how a rebellious generation of filmmakers reshaped Hollywood and left an indelible mark on world cinema.

Frequently Asked Questions

What is the main focus of Peter Biskind's book 'Easy Riders, Raging Bulls'?

Peter Biskind's 'Easy Riders, Raging Bulls' explores the rise of New Hollywood in the 1960s and 1970s, highlighting influential filmmakers, innovative films, and the cultural shifts that transformed American cinema during that era.

How does 'Easy Riders, Raging Bulls' depict the impact of the counterculture movement on filmmaking?

'Easy Riders, Raging Bulls' details how the counterculture movement of the 1960s influenced filmmakers to create more rebellious, experimental, and personal films, breaking away from traditional

Hollywood norms and reflecting societal changes.

Which filmmakers are prominently featured in Peter Biskind's 'Easy Riders, Raging Bulls'?

The book highlights legendary directors such as Martin Scorsese, Francis Ford Coppola, Steven Spielberg, George Lucas, and Robert Altman, among others, showcasing their contributions to the New Hollywood movement.

Why has 'Easy Riders, Raging Bulls' become a significant reference for film enthusiasts?

Because it provides an in-depth, behind-the-scenes look at a transformative period in Hollywood history, offering insights into the creative processes, industry dynamics, and personalities that shaped modern American cinema.

What controversies or criticisms have been associated with Peter Biskind's 'Easy Riders, Raging Bulls'?

Some critics have questioned the book's accuracy and the portrayal of certain filmmakers, suggesting it may romanticize or oversimplify complex personalities and events, while others praise it for its engaging storytelling and detailed research.

Additional Resources

Easy Riders Raging Bulls: Peter Biskind's Definitive Chronicle of the New Hollywood Revolution

Easy Riders Raging Bulls Peter Biskind is more than just a book; it's a compelling chronicle that captures one of the most transformative eras in American cinema. Published in 1998, Biskind's work meticulously documents the rise and fall of the New Hollywood movement, a period marked by rebellious filmmakers, cultural upheaval, and groundbreaking films that forever altered the landscape of

American cinema. This article delves into the core themes of Biskind's seminal work, exploring its historical context, key figures, and enduring legacy within the broader scope of film history.

The Genesis of the New Hollywood Movement

Historical Context: Hollywood Before the Revolution

Prior to the 1960s, Hollywood was largely governed by the studio system, a tightly controlled industrial complex where studios like MGM, Warner Bros., and Paramount dictated every aspect of filmmaking. Films were formulaic, predictable, and aimed primarily at mass entertainment, often at the expense of artistic innovation. The studio system's dominance was challenged by the advent of television, which siphoned off audiences and threatened the traditional studio model.

By the late 1950s, the old guard of Hollywood was aging, and a new generation of filmmakers began to question the status quo. These directors, screenwriters, and producers sought creative freedom and a departure from the sanitized, formulaic films of the past. Their efforts culminated in what Biskind terms the "New Hollywood"—a movement characterized by auteur-driven projects, experimental narratives, and a willingness to confront social issues.

The Cultural Milieu

The socio-political upheavals of the 1960s—civil rights movements, anti-war protests, and a general countercultural ethos—influenced the tone and content of films. Young filmmakers were inspired by European auteurs like Jean-Luc Godard and Federico Fellini, adopting new storytelling techniques and stylistic innovations. The cultural climate fostered films that reflected the tumultuous spirit of the era, often challenging traditional moral values and exploring themes of rebellion, alienation, and existential angst.

Key Figures and Films that Defined the Era

The Mavericks: Directors Who Shaped the Movement

Biskind's narrative centers around a pantheon of visionary directors whose work epitomized the ethos of the New Hollywood. These filmmakers broke away from studio constraints, embracing personal vision and innovative storytelling. Some of the most influential include:

- Martin Scorsese: Known for gritty urban dramas like *Taxi Driver* and *Raging Bull*, Scorsese's films delve into complex characters and moral ambiguity.
- Francis Ford Coppola: With *The Godfather* series and *Apocalypse Now*, Coppola redefined epic storytelling and cinematic scale.
- George Lucas: The creator of *Star Wars*, Lucas revolutionized special effects and blockbuster filmmaking.
- Steven Spielberg: Emerging in the late 1960s, Spielberg brought a new level of craftsmanship to popular cinema with films like *Jaws* and *Close Encounters*.
- William Friedkin: Known for the visceral *The French Connection* and *The Exorcist*, Friedkin infused films with raw energy and intensity.

Landmark Films and Their Cultural Impact

Biskind dedicates significant attention to a handful of films that exemplify the revolutionary spirit of the era:

- *Easy Rider* (1969): Directed by Dennis Hopper, this film captured the countercultural movement, celebrating freedom and rebellion on the open road.
- *The Godfather* (1972): Coppola's adaptation of Mario Puzo's novel introduced a new level of sophistication in crime dramas.
- *Taxi Driver* (1976): Scorsese's exploration of urban alienation and violence became a defining work of the era.
- *Apocalypse Now* (1979): Coppola's harrowing Vietnam War epic epitomized the experimental spirit

and narrative complexity of New Hollywood.

- Star Wars (1977): Lucas's space opera transformed the blockbuster landscape, emphasizing special effects and franchise potential.

The Creative Revolution and Its Challenges

Artistic Freedom Versus Commercial Pressures

One of Biskind's key themes is the tension between creative independence and commercial viability. The filmmakers of the New Hollywood sought artistic control, often financing their projects outside traditional studio channels, sometimes with personal savings or independent financiers. This newfound freedom led to innovative storytelling but also introduced financial risks.

The success of films like *Easy Rider* and *The Godfather* proved that commercially successful films could also be artistically daring, encouraging studios to take more risks. However, as the movement progressed, filmmakers faced increasing pressure to produce hits, leading to compromises and burnout.

The Role of the Auteur

Biskind emphasizes the importance of the director as an auteur—an artist whose personal vision defines the film. The rise of auteur theory, heavily influenced by European film criticism, empowered directors to be recognized as the primary creative force behind their movies. This shift transformed Hollywood into a director-centric industry, giving rise to distinctive styles and thematic consistency across works.

The Downfall and Legacy of the Era

The Turbulent End of the 1970s

Despite its successes, the New Hollywood era was not without its pitfalls. The excesses of the period, coupled with financial challenges and internal conflicts, led to a decline in the movement's cohesion. Many filmmakers struggled with studio interference, budget overruns, and the pressures to replicate their earlier successes.

The emergence of blockbuster filmmaking in the late 1970s, epitomized by *Jaws* and *Star Wars*, shifted Hollywood's focus toward mass-market appeal and high-concept films. This transition marked the beginning of a more corporate and less artist-driven industry, signaling the end of the revolutionary era chronicled by Biskind.

Enduring Impact and Modern Hollywood

Biskind's account underscores that the influence of the New Hollywood movement persists today. Its emphasis on auteur-driven projects, innovative storytelling, and cultural relevance set new standards for filmmaking. Modern directors like Quentin Tarantino, the Coen Brothers, and Christopher Nolan draw inspiration from this legacy, blending artistic ambition with commercial success.

Furthermore, the movement democratized filmmaking, encouraging independent filmmakers and fostering a culture of creative risk-taking that continues to shape Hollywood.

Critical Reception and Scholarly Significance

Biskind's *Easy Riders Raging Bulls* received widespread acclaim for its detailed reportage, lively prose, and comprehensive scope. Critics praised it as an essential resource for understanding the evolution of American cinema during a pivotal decade. Some scholars, however, have debated Biskind's portrayal of certain figures and events, noting that his narrative sometimes leans toward sensationalism.

Nevertheless, the book's significance lies in its meticulous research and vivid storytelling, which brought to life a tumultuous period often romanticized yet complex in its realities.

Conclusion: A Cultural Revolution in Film

Easy Riders Raging Bulls Peter Biskind remains a cornerstone of film historiography, illustrating how a generation of filmmakers challenged conventions, embraced innovation, and changed Hollywood forever. It is both a celebration of artistic daring and a cautionary tale of excess, illustrating that the revolutionary spirit, while often tumultuous, leaves a lasting legacy.

As cinema continues to evolve in the digital age, Biskind's chronicle serves as a reminder of the transformative power of fearless storytelling, and the enduring importance of creative independence in shaping cultural narratives. The era he vividly depicts not only revolutionized Hollywood but also redefined what movies could be—an ongoing dialogue between art and commerce, rebellion and tradition.

easy riders raging bulls peter biskind: The Bipolar Express David Coleman, 2014-07-08 In the past few decades, awareness of bipolar disorder has significantly increased, but understanding of the condition remains vague for most of the general public. Though the term itself is relatively recent, the condition has affected individuals for centuries—and no more profoundly than in the arts. The historical connections among manic depression and such fields as literature, music, and painting have been previously documented. However, the impact of bipolar disorder on movie makers and its depiction on the screen has yet to be thoroughly examined. In *The Bipolar Express: Manic Depression and the Movies*, David Coleman provides an in-depth examination of the entwined natures of mood disorders and moviemaking. In this volume, Coleman looks at the writers, directors, and actors who have faced the mood swings and behavior that are hallmarks of this condition—from Greta Garbo and Orson Welles to Marilyn Monroe and Jonathan Winters. In addition to recognizing the cinematic contributions of manic depressive filmmakers, the author also looks at movies that have portrayed bipolar disorder—with varying degrees of accuracy—including *Citizen Kane*, *Rebel without a Cause*, *Breakfast at Tiffany's*, *Hannah and Her Sisters*, *The Aviator*, and *Silver Linings Playbook*. From early silents of the twentieth century through critically acclaimed films of today, this book compares depictions of mood swings on screen with clinical examples of actual manic depression, carefully distinguishing real from stereotypical portrayals. This fascinating study is augmented by a concise filmography of more than 400 feature-length films from around the world with themes or characters relating to manic depressive illness. Though aimed at film fans and anyone interested in manic depression, mental illness, or related medical studies, this book will also prove valuable to medical and mental health professionals.

easy riders raging bulls peter biskind: Coppola's Monster Film Steven Travers, 2016-06-21 In 1975, after his two *Godfather* epics, Francis Ford Coppola went to the Philippines to film *Apocalypse Now*. He scrapped much of the original script, a jingoistic narrative of U.S. Special Forces winning an unwinnable war. Harvey Keitel, originally cast in the lead role, was fired and replaced by Martin Sheen, who had a heart attack. An overweight Marlon Brando, paid a huge salary, did more philosophizing than acting. It rained almost every day and a hurricane wiped out the set. The Philippine government promised the use of helicopters but diverted them at the last minute to fight communist and Muslim separatists. Coppola filmed for four years with no ending in the script. The shoot threatened to be the biggest disaster in movie history. Providing a detailed snapshot of American cinema during the Vietnam War, this book tells the story of how *Apocalypse Now* became one of the great films of all time.

easy riders raging bulls peter biskind: I Find Your Lack of Faith Disturbing A. D. Jameson, 2025-06-25 Funny, incisive, and timely ... Jameson does for geeks what geek culture does for its superheroes: he takes them seriously, respects their power, and refuses to hide his deep affection. —Lawrence Kasdan, co-screenwriter of *The Empire Strikes Back*, *Return of the Jedi*, *The Force Awakens*, and *Solo: A Star Wars Story* In *I Find Your Lack of Faith Disturbing*, A. D. Jameson takes geeks and non-geeks alike on a surprising and insightful journey through the science fiction, fantasy, and superhero franchises that now dominate pop culture. Walking us through the rise of geekdom from its underground origins to the top of the box office and bestseller lists, Jameson takes in franchises like *The Lord of the Rings*, *Guardians of the Galaxy*, *Harry Potter*, *Star Trek*, and, in particular, *Star Wars*—as well as phenomena like fan fiction, cosplay, and YouTube parodies. Along the way, he blasts through the clichés surrounding geek culture: that its fans are mindless consumers who will embrace all things Spider-Man or Batman, regardless of quality; or that the popularity and financial success of *Star Wars* led to the death of ambitious filmmaking. A lifelong geek, Jameson shines a new light on beloved classics, explaining the enormous love (and hate) they are capable of inspiring in fan and non-fan alike, while exploding misconceptions as to how and why they were made. *I Find Your Lack of Faith Disturbing* tells the story of how the geeks have inherited the earth.

easy riders raging bulls peter biskind: *Bonnie and Clyde* Lester D. Friedman, 2019-07-25

Bonnie and Clyde (Arthur Penn, 1967) scandalised mainstream popular opinion. Part of an emerging youth and protest movement, its graphic and balletic violence was highly subversive in the context of the war in Vietnam. It spoke directly to younger audiences, who were already pitted against their more conservative elders and easily identified with the characters played by Warren Beatty (who also produced the film) and Faye Dunaway. Bonnie and Clyde was the prototype of 1970s 'New Hollywood': anti-authority, candid about sex, morally neutral. As well as changing Hollywood film style, Bonnie and Clyde changed critical attitudes. Older critics loathed the film at first. But younger critics, led by the then little-known Pauline Kael, fought a rearguard action and won the day. Recognising Bonnie and Clyde's distinctive position in the evolution of American culture and cinema history, Lester D. Friedman explores the film's cultural framework, examines the contributions of its creators and presents a detailed visual and thematic analysis.

easy riders raging bulls peter biskind: *The Jaws Book* I.Q. Hunter, Matthew Melia, 2020-09-17 After 45 years, Steven Spielberg's Jaws remains the definitive summer blockbuster, a cultural phenomenon with a fierce and dedicated fan base. The Jaws Book: New Perspectives on the Classic Summer Blockbuster is an exciting illustrated collection of new critical essays that offers the first detailed and comprehensive overview of the film's significant place in cinema history. Bringing together established and young scholars, the book includes contributions from leading international writers on popular cinema including Murray Pomerance, Peter Krämer, Sheldon Hall, Nigel Morris and Linda Ruth Williams, and covers such diverse topics as the film's release, reception and canonicity; its representation of masculinity and children; the use of landscape and the ocean; its status as a western; sequels and fan-edits; and its galvanizing impact on the horror film, action movie and contemporary Hollywood itself.

easy riders raging bulls peter biskind: *Film Music: A History* James Wierzbicki, 2009-01-21 Film Music: A History explains the development of film music by considering large-scale aesthetic trends and structural developments alongside socioeconomic, technological, cultural, and philosophical circumstances. The book's four large parts are given over to Music and the Silent Film (1894--1927), Music and the Early Sound Film (1895--1933), Music in the Classical-Style Hollywood Film (1933--1960), and Film Music in the Post-Classic Period (1958--2008). Whereas most treatments of the subject are simply chronicles of great film scores and their composers, this book offers a genuine history of film music in terms of societal changes and technological and economic developments within the film industry. Instead of celebrating film-music masterpieces, it deals—logically and thoroughly—with the complex 'machine' whose smooth running allowed those occasional masterpieces to happen and whose periodic adjustments prompted the large-scale twists and turns in film music's path.

easy riders raging bulls peter biskind: *Lucas* Richard Ravalli, 2024-05-14 George Lucas is an innovative and talented director, producer, and screenwriter whose prolific career spans decades. While he is best known as the creative mind behind the Star Wars franchise, Lucas first gained renown with his 1973 film American Graffiti, which received five Academy Award nominations, including Best Director and Best Picture. When Star Wars (1977) was released, the groundbreaking motion picture won six Academy Awards, became the highest grossing film at the time, and started a cultural revolution that continues to inspire generations of fans. Three decades and countless successes later, Lucas announced semiretirement in 2012 and sold his highly successful production company, Lucasfilm, to Disney. His achievements have earned him the Academy's Irving G. Thalberg Award, the American Film Institute's Life Achievement Award, induction into the Science Fiction Hall of Fame and the California Hall of Fame, and a National Medal of Arts presented by President Barack Obama. Lucas: His Hollywood Legacy is the first collection to bring a sustained scholarly perspective to the iconic filmmaker and his legacy beyond the Star Wars films. Edited by Richard Ravalli, this volume analyzes Lucas's overall contribution and importance to the film industry, diving deep into his use and development of modern special effects technologies, the history of his Skywalker Ranch production facilities, and more. With clearly written and enlightening critiques by experts consulting rare collections and archival materials, this book is an original and robust project

that sets the standard for historical and cultural studies of Lucas.

easy riders raging bulls peter biskind: Women and New Hollywood Aaron Hunter, Martha Shearer, 2023-05-12 Women and New Hollywood revises our understanding of 1970s American film by examining the contributions that women made not only as directors, but also as screenwriters, editors, actors, producers, and critics. Considering both women working within and beyond the Hollywood film industry, this collection showcases the rich and varied cinematic products of women's creative labor.

easy riders raging bulls peter biskind: Something Happened Edward D. Berkowitz, 2005-12-27 In both the literal and metaphorical senses, it seemed as if 1970s America was running out of gas. The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned. High unemployment, runaway inflation, and the energy crisis, caused in part by U.S. dependence on Arab oil, characterized an increasingly bleak economic situation. As Edward D. Berkowitz demonstrates, the end of the postwar economic boom, Watergate, and defeat in Vietnam led to an unraveling of the national consensus. During the decade, ideas about the United States, how it should be governed, and how its economy should be managed changed dramatically. Berkowitz argues that the postwar faith in sweeping social programs and a global U.S. mission was replaced by a more skeptical attitude about government's ability to positively affect society. From Woody Allen to Watergate, from the decline of the steel industry to the rise of Bill Gates, and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers, Berkowitz captures the history, tone, and spirit of the seventies. He explores the decade's major political events and movements, including the rise and fall of détente, congressional reform, changes in healthcare policies, and the hostage crisis in Iran. The seventies also gave birth to several social movements and the rights revolution, in which women, gays and lesbians, and people with disabilities all successfully fought for greater legal and social recognition. At the same time, reaction to these social movements as well as the issue of abortion introduced a new facet into American political life—the rise of powerful, politically conservative religious organizations and activists. Berkowitz also considers important shifts in American popular culture, recounting the creative renaissance in American film as well as the birth of the Hollywood blockbuster. He discusses how television programs such as All in the Family and Charlie's Angels offered Americans both a reflection of and an escape from the problems gripping the country.

easy riders raging bulls peter biskind: Film Moments James Walters, Tom Brown, 2017-10-07 Film is made of moments. In its earliest form, the cinema was a moment: mere seconds recorded and projected into the darkness. Even as film has developed into today's complex and intricate medium, it is the brief, temporary and transitory that combines to create the whole. Our memories of films are composed of the moments we deem to be crucial: touchstones for our understanding and appreciation. Moments matter. The 38 specially commissioned essays in Film Moments examine a wide selection of key scenes across a broad spectrum of national cinemas, historical periods and genres, featuring films by renowned auteurs including Alfred Hitchcock, Jean Renoir and Vincente Minnelli and important contemporary directors such as Pedro Costa, Zhang Ke Jia and Quentin Tarantino, addressing films including City Lights, Gone with the Wind, The Wizard of Oz, The Night of the Hunter, Wild Strawberries, 8 1/2, Bonnie and Clyde, Star Wars, Conte d'été, United 93 and Lord of the Rings: Return of the King. Film Moments provides both an enlightening introduction for students to the diversity of approaches and concerns in the study of film, and a dynamic and vibrant account of key film sequences for anyone interested in enhancing their understanding of cinema.

easy riders raging bulls peter biskind: The Magnificent '60s Brian Hannan, 2022-06-16 Hollywood in the 1960s walked a tightrope between boom and bust. Yet the decade spawned many of the greatest films ever made, saw the advent of the spy thriller, the revival of science fiction and horror, and represented the Golden Era of the 70mm roadshow. Blockbusters like Lawrence of Arabia and The Sound of Music shared marquees with low-budget hits such as Lilies of the Field and Easy Rider. New stars emerged--Steve McQueen, Sidney Poitier, Barbra Streisand, Sean Connery,

Faye Dunaway, Clint Eastwood and Dustin Hoffman. Veteran directors like Billy Wilder and William Wyler were joined by the post-war generation of Robert Aldrich and Stanley Kramer, and the new wave of Stanley Kubrick and John Schlesinger. This book explores a period when filmmakers embraced revolutionary attitudes to sexuality, violence and racism, and produced a bewildering list of critically acclaimed classics that remain audience favorites.

easy riders raging bulls peter biskind: Charles Manson: Music Mayhem Murder Tommy Udo, 2012-03-08 Detailed account of Manson's life, including his attempt to break into the LA scene of the mid '60s, to his bizarre relationship with the Beach Boys, his obsession with The Beatles, his demo releases from prison which achieved quadruple platinum sales, the resultant lawsuit to ban his royalties, his influence on Guns n' Roses, and his links with neo-Nazi rock underground.

easy riders raging bulls peter biskind: Repertory Movie Theaters of New York City Ben Davis, 2017-03-04 New York's repertory movie houses specialized in presenting films ignored by mainstream and art house audiences. Curating vintage and undistributed movies from various countries, they educated the public about the art of film at a time when the cinema had begun to be respected as an art form. Operating on shoestring budgets in funky settings, each repertory house had its own personality, reflecting the preferences of the (often eccentric) proprietor. While a few theaters existed in other cities, New York offered the greatest number and variety. Focusing on the active years from 1960 through 1994, this book documents the repertory movement in the context of economics and film culture.

easy riders raging bulls peter biskind: The 1960s on Film Jim Willis, Mark Miller, 2021-10-11 The 1960s on Film tells the narrative of the 1960s through the lens of the movie camera, analyzing 10 films that focus on the people, events, and issues of the decade. Films create both an impression of and – at times for younger audiences – a primary definition of events, people, and issues of an era. The 1960s on Film examines the 1960s as the decade was presented in ten films that focused on that decade. This book analyzes both what the films have to say about the era and how close they come to accurately depicting it. For example, films such as Mississippi Burning and Selma tell the story of racial conflict and hope for reconciliation in the 1960s. Other films such as The Right Stuff and Hidden Figures show the deep fascination America had at that time with the burgeoning space program and NASA, while Easy Rider analyzes the role of rock music and drugs among young people of the decade. The Deer Hunter studies the controversies surrounding the war in Vietnam.
