erskine childers the riddle of the sands: The Riddle of the Sands Erskine Childers, 2024-01-04 Do you like Stieg Larsson's 'Millennium', James Bond and dystopian dramas like 'The Man in the High Castle'? The 1903 spy thriller 'The Riddle of the Sands' has elements of all three - and then some. Ken Follett, author of 'The Pillars of the Earth', called 'The Riddle of the Sands' the first modern thriller. It centres on a suspected plot by the German Empire to invade Britain. The plot proved to be almost prophetic, bearing in mind what was to follow in the First World War and the Second World War in the coming decades. Minor civil servant Carruthers and his friend, Davies are the men investigating the plot while on a yachting holiday in the Baltic Sea. They are drawn into an intricate story that includes secret treasure, a British traitor and a race against time to save Britain from the grip of the Kaiser. In 1979 'The Riddle of the Sands' was made into a spy thriller movie, starring Michael York, Jenny Agutter and Simon MacCorkindale. Childers' technique of including a great deal of detail that could be verified was later used by authors including: John Buchan, who wrote 'The Thirty-Nine Steps'; 'James Bond' author Ian Fleming and John Le Carré. Erskine Childers (1870-1922) was an Anglo-Irish writer whose only true literary success came with 'The Riddle of the Sands'. Instead, he found infamy through his political activism. Having been a prospective Liberal parliamentary candidate, he left the party and took up the cause of Irish Republicanism. He smuggled guns into Ireland on his yacht, but was executed during the Irish Civil War. His son, Erskine Hamilton Childers, became the 4th president of Ireland.

erskin childers the riddle of the sands: Sailing and Social Class Alan O'Connor, 2024-04-23 This book explores the sociology of sailing and yachting. Drawing on original research, and employing a theoretical framework based on the work of Pierre Bourdieu, the book argues that sailing is, still, an upper-middle-class activity that has much to tell us about the wider sociology of leisure and sport. The book examines the historical foundations of blue-water sailing as established by naval and colonial shipping, to trace the roots of contemporary sailing and yachting culture. It also examines archives of sailing narratives and cruising guides, as well as the children's books of Arthur Ransome, arguing that this archival material offers a social rather than a psychological interpretation of the 'bodily investment' in sailing. The book uses Bourdieu's concepts of 'illusio' - an investment of time, emotion and body into a worthwhile activity - and 'habitus', or lifeworld, alongside contemporary data sets, to examine the yacht club as a social institution, including why many boats never go out on the water, the relationship between yacht clubs and the state, and social issues as manifested in yacht clubs, such as sexism, racism and homophobia. Offering a vigorous sociological critique of yachting and sailing, this book is fascinating reading for anybody with an

interest in the sociology of leisure and sport, subcultures, social theory, or social issues in wider society.
