**fabian of the yard: Entertainment Industries** Alan McKee, Christy Collis, Ben Hamley, 2014-06-11 Entertainment Industries is the first book to map entertainment as a cultural system. Including work from world-renowned analysts such as Henry Jenkins and Jonathan Gray, this innovative collection explains what entertainment is and how it works. Entertainment is audience-centred culture. The Entertainment Industries are a uniquely interdisciplinary collection of evolving businesses that openly monitor evolving cultural trends and work within them. The producers of entertainment – central to that practice– are the new artists. They understand audiences and combine creative, business and legal skills in order to produce cultural products that cater to them. Entertainment Industries describes the characteristics of entertainment, the systems that produce it, and the role of producers and audiences in its development, as well as explaining the importance of this area of study, and how it might be better integrated into Universities. This book was originally published as a special issue of Continuum: Journal of Media & Cultural Studies.

**fabian of the yard: Playboys and Mayfair Men** Angus McLaren, 2017-10-22 The shocking true story of a diamond theft gone wrong offers a fascinating glimpse at the cultural currents of 1930s London. In December 1937, four young men, all products of elite English schools, lured a Cartier diamond salesman to the luxurious Hyde Park Hotel. There, the “Mayfair men” brutally

bludgeoned the man and made off with eight rings that today would be worth approximately half a million pounds. The press had a field day with the story, playing to the public's insatiable appetite for news about upper-crust rowdies and their unsavory pasts. In *Playboys and Mayfair Men*, Angus McLaren recounts the violent robbery and sensational trial that followed. Using the case to explore the world of interwar London, he sheds light on key social issues, from masculinity and cultural decadence to broader anxieties about moral decay. In his gripping depiction of Mayfair's celebrity high life, McLaren describes the crime in detail, as well as the police investigation, the suspects, their trial, and the aftermath of their convictions.

**fabian of the yard: The Guv'nors** Dick Kirby, 2011-02-23 The ten Scotland Yard detectives, featured in *The Guv'nors*, are unique. Such a group of intrepid crime-busters will never exist again. They possessed only the most rudimentary education; none had a degree. Intuition and knowledge of their manor counted for more than DNA and databases. They worked tirelessly in the pursuit of criminals, used informants, worked on hunches and grabbed hold of investigations and shook them until every piece of evidence was unearthed. Criminals trembled when these detectives were after them because, once they were nicked, they stayed nicked. *The Guv'nors* covers legends such as Fred Wensley, who nailed strips of bicycle tyres to the soles of his boots when on the look-out for Jack the Ripper. He later formed the Flying Squad and became chief constable of the CID. Fred Sharpe would single-handedly confront forty of the worst racetrack gangsters and tell them to clear off, anyone who refused would collect a punch on the jaw. Sharpe later became head of the Flying Squad, as did Bob Fabian, who was awarded the Kings Police Medal for dismantling an IRA bomb. Bert Wickstead, known as The Gangbuster, literally terrorised the gangs who attempted to fill the void in London's East End, after the demise of the Kray brothers. This is a book which will delight those who want to know what life was like when *The Guv'nors* and others like them were in charge of law and order and the streets were far safer than they are today.

**fabian of the yard: London in the Twentieth Century** Jerry White, 2009-11-10 Jerry White's *London in the Twentieth Century*, Winner of the Wolfson Prize, is a masterful account of the city's most tumultuous century by its leading expert. In 1901 no other city matched London in size, wealth and grandeur. Yet it was also a city where poverty and disease were rife. For its inhabitants, such contradictions and diversity were the defining experience of the next century of dazzling change. In the worlds of work and popular culture, politics and crime, through war, immigration and sexual revolution, Jerry White's richly detailed and captivating history shows how the city shaped their lives and how it in turn was shaped by them.

**fabian of the yard: London's Underworld** Fergus Linnane, 2016-01-28 *London's Underworld* takes us on the nightmarish last journeys of condemned criminals to the gallows at Tyburn. We enter death-trap eighteenth century prisons, one of which the novelist Henry Fielding described as a 'prototype of hell'. We walk the crowded streets of Victorian London with its swarms of prostitutes and follow the ingenious villains who carried out the first great train robbery in 1854. We see the rise and fall of the interwar racecourse gangs and the bloody battle for control of the West End. This fascinating book illustrates how crime in the capital has evolved from the extreme violence of the early eighteenth century to the vastly more complex and lucrative, but no less brutal, gangland of today.

**fabian of the yard: War Crimes** M.J. Trow, 2008-10-31 The Second World War was a defining experience in British history. It shaped us, made us what we are, and we are still fascinated by it. And one of the most extraordinary aspects of this unique war was the effect it had on crime - and this is the focus of M.J. Trow's compelling survey. He does not write solely about servicemen who committed crime - although there were many of them - and he does not celebrate heroes. On the contrary, his account highlights the un-heroic, the weak and the corrupt. And it draws attention to something perhaps uniquely British - the will of the people to cope, be it housewives with rationing, the police with the black market or magistrates all too aware that 'careless talk costs lives'. The war may have been Britain's finest hour, but during it there were many dark moments which M.J. Trow explores in his intriguing study.

**fabian of the yard:** *The Hagley Wood Murder* M. J. Trow, 2023-04-06 Astonishingly, *The Hagley Wood Murder* is the first book solely on the subject (other than a selection of privately printed/self published offerings) ever written on this murder, which took place eighty years ago. In April 1943, four teenaged boys discovered a corpse stuffed into the bole of a wych elm in a wood in the industrial Midlands. The body was merely bones and had been in the tree for up to two years. The pathologist determined that she was female, probably in her thirties, had given birth and was just under five feet tall. The cause of death was probably suffocation. Six months after the discovery, mysterious messages began to appear on walls in the area, variants of 'Who Put Bella Down the Wych Elm - Hagley Wood'. And the name Bella has stuck ever since. Local newspapers, then the national press, took up the story and ran with it, but not until 1968 was there a book on the case - Donald McCormick's *Murder by Witchcraft* - and that, like others that followed, tied Bella in with another supposedly occult murder, that of Charles Walton on Meon Hill in 1945. Any unsolved murder brings out the oddballs - the police files, only recently released, are full of them - and the nonsense still continues. The online versions are woeful - inaccuracy piled on supposition, laced with fiction. It did not help that a professional occultist, Dr Margaret Murray, expressed her belief, as early as 1953, that witchcraft was involved in Bella's murder. And ill-informed nonsense has been cobbled together to 'prove' that Dr Murray was right. McCormick's own involvement was in espionage and his book, slavishly copied by later privately printed efforts, have followed this tack too. It was wartime, so the anonymous woman in the wych elm had to be a spy, parachuted in by the Abwehr, the Nazi secret service. *The Hagley Wood Murder* is the first book to unravel the fiction of McCormick and others. It names Bella and her probable murderer. And if the conclusion is less over-the-top than the fabrications referred to above, it is still an intriguing tale of the world's oldest profession and the world's oldest crime!

**fabian of the yard:** *An Underworld at War* Donald Thomas, 2014-09-18 The Second World War produced numerous acts of self-sacrifice, but it also made many people rich. Under the cover of war, crime ranging from opportunistic looting to systematic theft was able to flourish. Donald Thomas draws on extensive archive material to reveal the ingenuity and sheer scale of wartime criminality, making fascinating reading of one of the great untold stories of the war. 'A mesmerising, unputdownable and brilliantly researched page-turner' Sunday Times

**fabian of the yard:** *TV Crime Drama* Sue Turnbull, 2014-06-23 This book provides an historical analysis of the TV crime series as a genre, paying close attention not only to the nature of TV dramas themselves, but also to the context of production and reception.

**fabian of the yard:** *Based on a True Story* Anthony Holden, 2021-10-28 From poker to poetry, poisoners to princes, opera to the Oscars, Shakespeare to Olivier, Mozart to Murdoch, Anthony Holden seems to have rolled many writers' lives into one. Author of 35 books on a 'crazy' range of subjects, this cocky Lancashire lad-turned-bohemian citizen of the world has led an apparently charmed life from Merseyside to Buckingham Palace, the White House and beyond. As he turns 70, the award-winning journalist and biographer - grandson of an England footballer, son of a seaside shopkeeper, friend of the famous from Princess Diana to Peter O'Toole, Mick Jagger to Salman Rushdie - spills the beans on showbiz names to literary sophisticates, rock stars to royals as he looks back whimsically and wittily on a richly varied, anecdote- and action-packed career - concluding, in the words of Robert Louis Stevenson, that 'Life is not a matter of holding good cards, but of playing a poor hand well'.

**fabian of the yard:** *Plain Clothes & Sleuths* Stephen Wade, 2007-05-01 The detective is a familiar figure in British history. This work looks at famous cases such as the Ripper murders and the beginnings of the Special Branch and Detective Branch of Scotland Yard. This history covers various aspects of crime history, including the career of Jim 'the Penman' Saward, a notorious forger, and more.

**fabian of the yard:** *Beyond Dixon of Dock Green* Susan Sydney-Smith, 2002-05-24 In 1955 a brand new television series, *Dixon of Dock Green*, came to Britain's screens, whose eponymous hero

had featured in *The Blue Lamp* (1950). Although it has traditionally been assumed that the uniform police series begins with the Ealing film, this book, based on original archive research, challenges this assumption, proposing that in fact these series were shaped by changes in television's social role from the relaying of news to the replaying of stories. Susan Sydney-Smith demonstrates how the development of the British television police drama - and indeed British television in general - was more complex than accepted accounts allow. She traces numerous lineages, from inter-war public service films, live studio crime reconstructions and story documentaries such as 1942's *Target for Tonight* through to the mix of public service and entertainment values embodied by the BBC Television Light Entertainment's *Dixon of Dock Green*. Showing how the genre mapped new social and regional geographies, from *Dixon's* metropolitan policeman to the gritty northern realism of *Jacks and Knives* and *Z Cars* with its irascible Barlow, the author follows the increasing commercialization of television in the sixties, investigating how the BBC set about restoring the values of southern England in the 1966 *Z Cars* spin-off *Softly, Softly*, with its more palatable protagonist. The book also offers insights not only into the relationship between early British television and its cinematic forebears but also early radio.

**fabian of the yard: Prostitution, Women and Misuse of the Law** Helen J. Self, 2004-08-02  
This is an examination, from a feminist historian's standpoint, of the background to the present system of regulating prostitution in Britain - which is generally admitted to be not only unjust and discriminatory, but ineffective even in achieving its stated aims. Concentrating on the 1950s, and especially on the Wolfenden Report and the 1959 Street Offences Act, it is a thorough exposure of the sexual double standard and general misogynist assumptions underlying legislation relating to prostitution. In addition to the detailed analysis of the 1950s legislation and the background to it, there is an exposition of the subsequent workings of the Act, and of attempts to amend or repeal it.
