Through his rigorous examination of over seventy archives and poignant interviews with more than thirty survivors, including former visitors of camp brothels, Sommer paints a vivid and harrowing picture of the atrocities committed. This book is the first to offer a comprehensive exploration of the establishment, operation, and profound impact of brothels in Nazi concentration camps. Sommer's research meticulously details the brothels' integration into the concentration camp system, their role in the Nazi exploitation of bodies for control and profit, and

the complex reactions of the prisoner society to these establishments. He explores the desperate survival strategies employed by the women forced into sexual labor and the chilling motivations of their exploiters. The book also places the tragedy of camp brothels in the broader context of sexual violence under Nazi rule, making a critical connection between these acts of exploitation and the overall history of the Holocaust. This updated English edition incorporates new findings and perspectives since the original German publication in 2009, providing a more comprehensive understanding of the subject. The foreword by Annette F. Timm adds further context and contemporary analysis, enhancing the book's relevance and depth.

house of dolls book: Barbara Comyns Avril Horner, 2024-03-19 The extraordinary twentieth-century writer Barbara Comyns led a life as captivating as the narratives she spun. This pioneering biography reveals the journey of a woman who experienced hardship and single-motherhood before the age of thirty but went on to publish a sequence of novels that are unique in the English language. Comyns turned her hand to many jobs in order to survive, from artist's model to restoring pianos. Hundreds of unpublished letters reveal an occasionally desperate but resourceful and witty woman whose complicated life ranged from enduring poverty when young to mixing with spivs, spies and high society. While working as a housekeeper in her mid-thirties, Comyns began transforming the bleak episodes of her life into compelling fictions streaked with surrealism and deadpan humour. *The Vet's Daughter* (1959), championed by Graham Greene, brought her fame, although her use of the gothic and macabre divided readers and reviewers. This biography not only excavates Comyns's life but also reclaims her fiction, providing a timely reassessment of her literary contribution. It sheds new light on a remarkable author who deftly captured the complexities of human life.

house of dolls book: **Congregational Communion** Francis J. Bremer, 1994 Puritan studies is one of the most heavily researched areas of scholarship in both England and the United States. In this in-depth exploration of the relationship between Puritans in England and New England, Francis J. Bremer challenges the view that the colonists turned away from English Puritans in the 1640s. Rather, he convincingly demonstrates that the two communities retained a complex, symbiotic connection - a communion - throughout the seventeenth century, and that the clergy on both sides of the Atlantic saw themselves as closely linked in their spiritual mission. Focusing on the interaction between social experience and the shaping of belief, Bremer thoroughly analyzes how Puritan clergymen of a congregational persuasion came together in a godly communion and examines how that communion sustained them in times of trouble and physical dispersal. He explains the social forces that led to the articulation of early Congregationalism and details the significance of trans-Atlantic religious exchanges through correspondence, associations, publications, and other devices. Bremer traces the first-generation Puritans from their formative years at Cambridge University through the creation of a network of clerical friendships, through the flight to Holland and to New England, to the death of Oliver Cromwell and the beginnings of division within Congregationalism. This thought-provoking volume makes a solid contribution to Puritan studies and offers a basis for further discussions of the trans-Atlantic aspects of the Congregational community.

house of dolls book: *Occupied Words* Hannah Pollin-Galay, 2024-09-03 How Yiddish changed to express and memorialize the trauma of the Holocaust The Holocaust radically altered the way

many East European Jews spoke Yiddish. Finding prewar language incapable of describing the imprisonment, death, and dehumanization of the Shoah, prisoners added or reinvented thousands of Yiddish words and phrases to describe their new reality. These crass, witty, and sometimes beautiful Yiddish words – Khurbn Yiddish, or “Yiddish of the Holocaust” – puzzled and intrigued the East European Jews who were experiencing the metamorphosis of their own tongue in real time. Sensing that Khurbn Yiddish words harbored profound truths about what Jews endured during the Holocaust, some Yiddish speakers threw themselves into compiling dictionaries and glossaries to document and analyze these new words. Others incorporated Khurbn Yiddish into their poetry and prose. In *Occupied Words*, Hannah Pollin-Galay explores Khurbn Yiddish as a form of Holocaust memory and as a testament to the sensation of speech under genocidal conditions. *Occupied Words* investigates Khurbn Yiddish through the lenses of cultural history, philology, and literary interpretation. Analyzing fragments of language consciousness left behind from the camps and ghettos alongside the postwar journeys of three intellectuals—Nachman Blumenthal, Israel Kaplan and Elye Spivak—Pollin-Galay seeks to understand why people chose Yiddish lexicography as a means of witnessing the Holocaust. She then turns to the Khurbn Yiddish words themselves, focusing on terms related to theft, the German-Yiddish encounter and the erotic female body. Here, the author unearths new perspectives on how Jews experienced daily life under Nazi occupation, while raising questions about language and victimhood. Lastly, the book explores how writers turned ghetto and camp slang into art—highlighting the poetry and fiction of K. Tzetnik (Yehiel Di-Nur) and Chava Rosenfarb. Ultimately, *Occupied Words* speaks to broader debates about cultural genocide, asking how we might rethink the concept of genocide through the framework of language.
