- Chrome Yellow: Introduced earlier in the 19th century, it became popular but was later phased out due to its toxicity.

i am curious yellow: Make Love, Not War David Allyn, 2016-05-23 When Helen Gurley Brown's *Sex and the Single Girl* hit bookstores in 1962, the sexual revolution was launched and there was no turning back. Soon came the pill, the end of censorship, the advent of feminism, and the rise of commercial pornography. Our daily lives changed in an unprecedented time of sexual openness and experimentation. *Make Love, Not War* is the first serious treatment of the complicated events, ideas, and personalities that drove the sexual revolution forward. Based on first-hand accounts, diaries, interviews, and period research, it traces changes in private lives and public discourse from the fearful fifties to the first tremors of rebellion in the early sixties to the heady heyday of the revolution. Bringing a fresh perspective to the turbulence of these decades, David Allyn argues that the sexual revolutionaries of the '60s and '70s, by telling the truth about their own histories and desires, forced all Americans to re-examine the very meaning of freedom. Written with a historian's attention to nuance and a novelist's narrative drive, *Make Love, Not War* is a provocative, vivid, and thoughtful account of one of the most captivating episodes in American history. Also includes an 8-page insert.

Here is the story of Jackie's reinvention into an adventurer, a wanderer, a woman and an idea in whom many Americans and people around the globe have deeply, fiercely wanted to believe. Traumatized and exposed, Jacqueline Bouvier Kennedy nonetheless built a new life for herself in an America similarly haunted by upheaval. She dated and traveled relentlessly before scandalizing the world by marrying a foreigner, living abroad, climbing ruins, cruising the oceans, and wandering Europe braless and barefoot. She was an era's most celebrated, exposed, beloved, reviled, written about, and followed "star of life." Jackie's story—treated like a national soap opera and transmitted through newspapers, magazines, images, and TV during the 1960s and 1970s—became wired into America's emotional grid. Touching down everywhere from London, Paris, the Watergate, and 1040 Fifth Avenue to Skorpios, Athens, Capri, and Phnom Penh, *Finding Jackie* returns Jackie's narrative to its original context of a serialized drama unfurling alongside the Civil Rights movement, women's liberation, and the Vietnam War.

Examining overlooked 'elsewheres', the book presents Nordic cinemas as international, cosmopolitan, diasporic and geographically dispersed, from their beginnings in the early silent

period to their present 21st-century dynamics. Exploring both canonical works by directors like Ingmar Bergman and Lars von Trier, as well as a wide range of unknown or overlooked narratives of movement, synthesis and resistance, the book offers a new model of inquiry into a multi-varied Scandinavian cultural lineage, and into small nation and pan-regional world cinemas.

i am curious yellow: *Swinging Single* Hilary Radner, Moya Luckett, 1999 Critics and defenders alike connect today's widespread anxieties about sexuality and culture to the political activism of the 1960s and the counterculture's preoccupation with the individual pursuit of pleasure. In contrast, the essays in *Swindling Single* attribute the new sexual mores of that era not to its political upheavals but to a confluence of social, cultural, and economic factors that encouraged personal gratification and altered traditionally defined gender roles. Contributors analyze a broad range of topics: the commercialization of avant-garde and exploitation films; new visions of female sexuality in *That Girl* and *The Avengers*; the social context of such cultural icons as Hugh Hefner and Charles Manson; the intersection of race and sexuality in Eldridge Cleaver's *Soul on Ice*; and depictions of sexual pleasure in pornography and scientific films.

Wolper, the producer of Roots—and the story of how he got his start purchasing film footage from Sputnik. Owsley Stanley, the quirky perfecter of LSD, who blamed a heart attack on the fact that his mother made him eat broccoli as a child.
