The fourteen chapters draw on insights from academic disciplines ranging from cultural and literary studies to education and psychology, and include an essay on what writers for children think about their craft. The result is a fascinating array of perspectives on key topics in children's literature as well as an introduction to such diverse concerns as literacy, ideology, stylistics, feminism, history, culture and bibliotherapy. An extensive general bibliography is complemented by lists of further reading for each chapter and a glossary defines critical and technical terms, making the book accessible for those coming to the field or to a particular approach for the first time. In this second edition there are four entirely new chapters; contributors have revisited and revised or rewritten seven of the chapters to reflect new thinking, while the remaining three are classic essays, widely acknowledged to be definitive. *Understanding Children's Literature* will not only be an invaluable guide for students of literature or education, but it will also inform and enrich the practice of teachers and librarians.

jayne fisher garden gang: *Negative Space* Cristín Leach, 2022-05-10 This searingly intimate literary debut from top Irish art critic Cristín Leach weaves words and art with an unravelling of self that comes when a marriage breaks. In a series of layered essays, art critic Leach writes about the gaps between reality and perception, about writing and anxiety, body and brain, breaking and making, succeeding and failing, conventionality and independence. The non-linear structure of the essays, with repeats, retakes, and deliberately unsaid or missing information, mimics the gaps in memory and understanding that are part of the human condition, especially during times of great stress. It's about art and writing as a fundamental way of explaining and understanding the world, perhaps saying what cannot be said, or revealing without showing. *Negative Space* is a memoir about writing as a salve and a means of escape, marriage as a refuge and a trap, the nature of home,

and what happened when everything fell apart.

jayne fisher garden gang: **The Ladybird Story** Lorraine Johnson, Brian Alderson, 2014 It is not widely known that 2014 marks the centenary of the publication of books in The Ladybird Series by the British commercial printers Wills & Hepworth. From the start of the First World War to the start of the Second they published about 100 cheap and cheerful colour-illustrated children's books for the popular market, but only in 1940 did they fashion Bunnykins Picnic Party which was to be the first of the Ladybird Books that would come to be recognised and bought by most of the British population. Lorraine Johnson and Brian Alderson trace the history of the Ladybird venture from its wobbly beginning through Wills & Hepworth's triumphant management of the series up to its sale in 1972, with further chapters on the last decades at the printworks in Loughborough down to 1999. A comprehensive bibliography of books edited under the Wills & Hepworth imprint gives ample evidence of their catering for children at all stages of development, a central element in the millions of books that they sold. The many illustrations, mostly in colour, give convincing support to the reasons for their popularity.--Wheeler.co.nz

I'm writing it all down as much to remind myself as for anyone else - but now you're here, I'd love you to stick around . . . Mark Watson is generally accepted to be alive. And yet he's died many times. Not just on stage - though he'll tell you about that - but in other ways, too. There's been the death of a childhood dream. The death of his panel-show career. And then there was the time he died inside and nearly lost it all . . . Eye-opening, revealing and painfully funny, this is a book about mortification, failure and all the times life doesn't work out as planned. But it also wisely questions whether the things we strive for - recognition, success, the approval of others - are really the things that matter. It's a book about death that reminds us how to live. jayne fisher garden gang: *Bookworm* Lucy Mangan, 2018-03-01 A love letter to the joys of childhood reading from Wonderland to Narnia. When Lucy Mangan was little, stories were everything. They opened up new worlds and cast light on all the complexities she encountered in this one. She was whisked away to Narnia - and Kirrin Island - and Wonderland. She ventured down rabbit holes and winkle burrows into midnight gardens and chocolate factories. She wandered the countryside with Milly-Molly-Mandy, and played by the tracks with the Railway Children. With Charlotte's Web she discovered Death and with Judy Blume it was Boys. No wonder she only left the house for her weekly trip to the library or to spend her pocket money on amassing her own at home. In Bookworm, Lucy revisits her childhood reading with wit, love and gratitude. She relives our best-beloved books, their extraordinary creators, and looks at the thousand subtle ways they shape our lives. She also disinters a few forgotten treasures to inspire the next generation of bookworms and set them on their way. Lucy brings the favourite characters of our collective childhoods back to life - prompting endless re-readings, rediscoveries, and, inevitably, fierce debate - and brilliantly uses them to tell her own story, that of a born, and unrepentant, bookworm. 'Passionate, witty, informed, and gloriously opinionated' Jacqueline Wilson author of The Story of Tracy Beaker
