jayne fisher the garden gang: The Ladybird Story Lorraine Johnson, Brian Alderson, 2014 It is not widely known that 2014 marks the centenary of the publication of books in The Ladybird Series by the British commercial printers Wills & Hepworth. From the start of the First World War to the start of the Second they published about 100 cheap and cheerful colour-illustrated children's books for the popular market, but only in 1940 did they fashion *Bunnykins Picnic Party* which was to be the first of the Ladybird Books that would come to be recognised and bought by most of the British population. Lorraine Johnson and Brian Alderson trace the history of the Ladybird venture from its wobbly beginning through Wills & Hepworth's triumphant management of the series up to its sale in 1972, with further chapters on the last decades at the printworks in Loughborough down to 1999. A comprehensive bibliography of books edited under the Wills & Hepworth imprint gives ample evidence of their catering for children at all stages of development, a central element in the millions of books that they sold. The many illustrations, mostly in colour, give convincing support to the reasons for their popularity.--Wheelers.co.nz

jayne fisher the garden gang: Negative Space Cristín Leach, 2022-05-10 This searingly intimate literary debut from top Irish art critic Cristín Leach weaves words and art with an unravelling of self that comes when a marriage breaks. In a series of layered essays, art critic Leach writes about the gaps between reality and perception, about writing and anxiety, body and brain, breaking and making, succeeding and failing, conventionality and independence. The non-linear structure of the essays, with repeats, retakes, and deliberately unsaid or missing information, mimics the gaps in memory and understanding that are part of the human condition, especially during times of great stress. It's about art and writing as a fundamental way of explaining and understanding the world, perhaps saying what cannot be said, or revealing without showing. *Negative Space* is a memoir about writing as a salve and a means of escape, marriage as a refuge

and a trap, the nature of home, and what happened when everything fell apart.

And yet he's died many times. Not just on stage - though he'll tell you about that - but in other ways, too. There's been the death of a childhood dream. The death of his panel-show career. Eye-opening, revealing and painfully funny, this is a book about mortification, failure and all the times life doesn't work out as planned.
