Early Life and Military Beginnings

Birth and Education

Peter de la Billière was born in 1934 in England, into a period marked by global upheaval and the aftermath of World War II. His early years were influenced by the changing geopolitical landscape, which sparked his interest in military service. He attended a distinguished military college, where he demonstrated exceptional leadership and strategic thinking from a young age.

Entry into the Military

De la Billière joined the British Army in the 1950s, initially serving in the Royal Artillery before transferring to the Parachute Regiment. His early assignments provided him with firsthand experience in airborne operations and rapid deployment strategies, laying the foundation for his later expertise in unconventional warfare and special operations.

Military Career and Key Deployments

Service in Africa and the Middle East

Throughout the 1960s and 1970s, de la Billière was deployed across various regions, including Africa and the Middle East. His assignments often involved counter-insurgency operations, requiring adaptability and cultural sensitivity. These experiences honed his skills in asymmetric warfare and intelligence gathering.

Operational Leadership in the Falklands War

One of the defining moments of de la Billière's career was his leadership during the Falklands War in 1982. As the commander of British forces, he was instrumental in planning and executing the military campaign that reclaimed the Falkland Islands from Argentine occupation.

- Strategic Planning: His meticulous planning ensured logistical success, overcoming challenges posed by the remote location and limited resources.
- Combat Leadership: His presence on the ground boosted troop morale and ensured operational cohesion during intense combat situations.
- Outcome: The successful recapture cemented his reputation as a skilled strategist and effective leader capable of managing complex, high-stakes military operations.

Role as Director of Operations and Strategic Vision

Senior Military Positions

Following his success in combat, de la Billière ascended to senior military roles, including Director of Operations for the British Army. In these positions, he was responsible for overseeing military readiness, planning large-scale operations, and integrating new technologies and tactics into the armed forces.

Innovations and Strategic Approaches

His tenure was marked by a focus on modernization and adaptation to evolving threats. Key aspects of his strategic vision included:

- Emphasizing rapid deployment capabilities
- Enhancing intelligence and reconnaissance operations
- Developing special forces units for covert missions

rescuing 19 hostages with near-perfect military execution, although 2 hostages were killed by terrorists. Despite the media attention, details of the siege are still largely unknown and those involved and the identities of the SAS troopers themselves, remain a closely guarded secret. This book takes an in-depth look at the siege, revealing the political background behind it and analysing the controversial decision by the Prime Minister to sign over control of the streets of London to the military. Artwork illustrates the moment the walls were breached and show how the strict planning of the operation was critical to its success. peter de la billi re: David Stirling Gavin Mortimer, 2022-05-26 Aristocrat, gambler, innovator and special forces legend, the life of David Stirling should need no retelling. His formation of the Special Air Service in the summer of 1941 led to a new form of warfare and Stirling is remembered as the father of special forces soldiering. But was he really a military genius or in fact a shameless self-publicist who manipulated people, and the truth, for his own ends? In this gripping and controversial biography Gavin Mortimer analyses Stirling's complex character: the childhood speech impediment that shaped his formative years, the pressure from his overbearing mother, his fraught relationship with his brother, Bill, and the jealousy and inferiority he felt in the presence of his SAS second-in-command, the cold-blooded killer Paddy Mayne. Stirling lived until old age, receiving a knighthood and plaudits from military forces around the world before his death in 1990. Yet as Mortimer dazzlingly shows, while Stirling was instrumental in selling the SAS to Churchill and senior officers, it was Mayne who really carried the regiment in the early days. Stirling was at best an incompetent soldier and at worst a foolhardy one, who jeopardised his men's lives with careless talk and hare-brained missions. Drawing on interviews with SAS veterans who fought with Stirling and men who worked with him on his post-war projects, and examining recently declassified governments files about Stirling's involvement in Aden, Libya and GB75, Mortimer's riveting biography is incisive, bold, honest and written with his customary narrative panache. Impeccably researched and with the courage to challenge the mythical SAS 'brand', Mortimer brings to bear his unparalleled expertise as WW2's premier special forces historian to dig beneath the legend and reveal the real David Stirling, a man who dared and deceived.

On April 30, 1980, six heavily armed gunmen burst into the Iranian embassy on Prince's Gate, overlooking Hyde Park in London. There, they took 26 hostages, including embassy staff, visitors, and three British citizens. A tense six-day siege ensued—all on television, over a Bank Holiday weekend—in which police negotiators and psychiatrists sought a bloodless end to the standoff, while the SAS laid plans for a daring rescue mission: Operation Nimrod. This mission marked a fundamental turning point in global history, when Middle Eastern terrorism arrived in the West. Britain had experienced IRA terrorism before, but never an international terrorist incident on this scale. It was a precursor to the brutal Iran-Iraq War that would follow, in which millions perished. Yet there exists to this day no full account of the week-long siege and gripping rescue. Drawing on interviews with police, hostages, terrorists and key SAS figures, and cutting through the sensationalism and misinformation, bestselling historian Ben Macintyre (author of *Sunday Times* #1s *Colditz*, *The Spy and the Traitor* and *SAS: Rogue Heroes*) goes deep into the archives with exclusive access to tell the story of what really happened and give the first definitive account of a moment that forever changed the way the nation thought about the SAS—and itself.

He analyses how each of the parties viewed conflicts at Suez, the Falklands and the Gulf, elucidates their perspective on nuclear weapons and concludes with a review of their attitude towards security in Northern Ireland. The book finds the parties' policies reflect their distinctive views on security while international conditions often severely affect the policy pursued.

Compelling and definitive . . . will surely not be bettered' *Sunday Telegraph* On 4 May 1980, seven terrorists holding twenty-one people captive in the Iranian Embassy in London's Prince's Gate, executed their first hostage. They threatened to kill another hostage every thirty minutes until their demands were met. Minutes later, armed men in black overalls and balaclavas shimmied down the roof on ropes and burst in through windows and doors. In seconds all but one of the terrorists had been shot dead, the other captured. For most people, this was their first acquaintance with a unit that was soon to become the ideal of modern military excellence - the Special Air Service regiment. Few realized that the SAS had been in existence for almost forty years, playing a discreet, if not secret, role almost everywhere Britain had fought since World War II, and

had been the prototype of all modern special forces units throughout the world. In *The Regiment*, Michael Asher - a former soldier in 23 SAS Regiment - examines the evolution of the special forces idea and investigates the real story behind the greatest military legend of the late twentieth century.
