will mcbride coming of age: **Guy Davenport** Andre Furlani, 2007-07-20 Guy Davenport (1927-2005), an American writer of fiction, poetry, criticism, and essays, a translator, painter, intellectual, and teacher, brought a breadth and depth of knowledge to his pursuits that few other

writers could approach, let alone appraise. In Andre Furlani, this twentieth-century American master has finally found an apt critical reader. In this first sustained critical study of Davenport, Furlani elucidates the depths of Davenport's fiction and its poetic precedents, brings a rare understanding to the author's reworking of twentieth-century literature and intellectual history, and offers unusual insight into his compositional technique. Furlani explores key themes across the spectrum of Davenport's fiction: pastoral utopia; twentieth-century dystopia; sexual ethics; the mythologizing of childhood; the inseparability of the archaic and the modern; and a celebration of the union of sophia, eros, and poesia. Whether Davenport's view of art and the cosmos should be called postmodern is a question that Furlani considers closely--offering, finally, a new aesthetic for this American original who, in these pages, at last receives the thorough and meticulous attention he has long merited.

will mcbride coming of age: *Growing Up a Woman* Milena Kaličanin, Soňa Šnircová, 2015-10-13 This book explores contemporary transformations of the female Bildungsroman, showing that the intersection of the genre and gender brought to critical attention in the context of second wave feminism remains of equal importance in the era of postfeminism. The female Bildung narrative has acquired an important position in twentieth - and twenty-first century literature through its continuing depiction of female self-discovery and emancipation as a process of negotiating the traditional divisions of female and male roles in relation to the private and public spaces. Recognizing the seminal contribution of feminist criticism to the definition of the genre and the role of feminist cultural processes in its thematic developments, this volume investigates more recent influences on the female Bildung narrative and the influence of the classic female Bildungsroman on contemporary cultural texts. As a collection of fifteen essays written by international scholars, the book offers a representative sample of the narratives of female development, presenting a variety of genres, including the novel, the short story, autobiography, TV series, and Internet video blogs, and theoretical frameworks, adopting hermeneutic, postcolonial, feminist, and postfeminist perspectives. In its diversity, this volume reveals that, despite the ongoing process of women's emancipation, the heroine's struggle with the private/public divide has remained, throughout the twentieth century and in the first decades of the new millennium, a central issue in stories about the female quest for self-definition. The book will be of interest to scholars and students in the fields of literary, women and gender studies, particularly those interested in the narratives of female development that represent American and British cultural contexts.

will mcbride coming of age: *Star Wars after Lucas* Dan Golding, 2019-04-26 Politics, craft, and cultural nostalgia in the remaking of Star Wars for a new age A long time ago, in a galaxy far, far away—way back in the twenty-first century's first decade—Star Wars seemed finished. Then in 2012 George Lucas shocked the entertainment world by selling the franchise, along with Lucasfilm, to Disney. This is the story of how, over the next five years, Star Wars went from near-certain extinction to what Wired magazine would call “the forever franchise,” with more films in the works than its first four decades had produced. Focusing on *The Force Awakens* (2015), *Rogue One* (2016), *The Last Jedi* (2017), and the television series *Rebels* (2014-18), Dan Golding explores the

significance of pop culture nostalgia in overcoming the skepticism, if not downright hostility, that greeted the Star Wars relaunch. At the same time he shows how Disney, even as it tapped a backward-looking obsession, was nonetheless creating genuinely new and contemporary entries in the Star Wars universe. A host of cultural factors and forces propelled the Disney-engineered Star Wars renaissance, and all figure in Golding's deeply informed analysis: from John Williams's music in *The Force Awakens* to Peter Cushing's CGI face in *Rogue One*, to Carrie Fisher's passing, to the rapidly changing audience demographic. Star Wars after Lucas delves into the various responses and political uses of the new Star Wars in a wider context, as in reaction videos on YouTube and hate-filled, misogynistic online rants. In its granular textual readings, broad cultural scope, and insights into the complexities of the multimedia galaxy, this book is as entertaining as it is enlightening, an apt reflection of the enduring power of the Star Wars franchise.

Albert Black, known as the 'jukebox killer', was only twenty when he was convicted of murdering another young man in a fight at a milk bar in Auckland on 26 July 1955. His crime fuelled growing moral panic about teenagers, and he was to hang less than five months later, the second-to-last person to be executed in New Zealand. But what really happened? Was this a love crime, was it a sign of juvenile delinquency? Or was this dark episode in our recent history more about our society's reaction to outsiders?
