Understanding that we create continuously on small and large levels is the first step in realizing that when something no longer works for us, it is the consequence of a disruption in the creative process and the way we think. This book describes the different types of creative processes. The elemental (fire, water, air, and earth) powers are the basis of all creation. Understanding the different aspects of these creative powers will help you to become a conscious creator. Guardians are connected with every aspect of the elemental powers. They are known as dragons; however, different traditions use different names for them, such as angels or nature spirits. These dragons are not the scary type often depicted in stories. They are among the strongest allies we can ask for. They belong to the subtle realms and therefore are invisible to most people. This book offers information to help you reconnect with these creative powers and their guardian dragons. Through this connection, you will become a conscious creator and change your life in ways that lead to success, joy, happiness, and abundance. Thereby, you will contribute optimally to the creation of a new world. Are you ready for this exhilarating journey?
