kinema in the woods: *Return of the Dambusters* John Nichol, 2017-09-26 A history of the RAF's 617 Squadron during World War II, from bombing Nazi battleships to attempts on the lives of Hitler & Mussolini, and more. The Dambusters had another nickname—they were the “Suicide Squadron,” and these daring flyers were the go-to forces for dangerous precision attacks. They dropped the largest bombs ever built on Hitler’s prize battleship, Tirpitz, as well as rocket sites and secret weapon establishments; they were involved in attempts on the lives of enemy leaders, including Hitler and Mussolini; and they created a false fleet on D-Day, which fooled the Germans, among other crucial missions. but they also suffered brutal losses, with seventy-five percent of 617 Squadron killed in action by the end of the war. In this awe-inspiring book, John Nichol—himself a former RAF flight lieutenant—retraces the path of 617 Squadron’s most dangerous sorties, the ones largely lost to history. With the sensitivity of a fellow soldier, Nichol gains unprecedented access to the surviving Dambusters, whose moving personal stories add depth to this impressively researched history. The result is a tense, poignant story of courage by men who braved death time and time again in the name of freedom. Praise for *Return of the Dambusters* “A truly epic tale of courage and sacrifice—an intensely moving epitaph to the men of Bomber Command.” —Andy McNab, bestselling

author of Bravo Two Zero "A straightforward account considers all sides to these precise missions." —Kirkus Reviews "This is both an exciting book and a saddening one . . . a tale of victory, in the end, magnificently told in lip-biting detail." —The Daily Mail (UK) "Drawing on interviews with survivors, as well as archive material . . . the book is [a] story of human suffering in the air and on the ground." —The Times (UK)/

kinema in the woods: My War and Peace Stanley Buckmaster, 2021-10-30 It is over sixty years since I was regarded as one of Lady Astor's D-Day Dodgers in sunny Italy. In Sicily and Italy over 30,000 so called D-Day Dodgers sleep on, victims of a most harsh and fiercely fought campaign which involved troops of many nations whose main task was to draw enemy troops away from the landing areas in France and the Russian Front. Areas like Salerno, Cassino and Anzio were just three of the many battle fields that chewed up thousands of Allied Troops who because of the Normandy landings were never to have their casualties replaced. Germany's best troops always fought from prepared positions and there is no doubt with every defensive line that was taken there was another one behind in the next range of hills. Regardless of the regime the German man in the sharp end in Italy was a formidable enemy who without air support never admitted defeat. Kesselring was, with his men, a worthy opponent. Being over 80 my family asked me to put pen to paper so that they may further understand why I volunteered in the first place, why I stayed on after the war and then left the country I had fought for.
