lee sabine 5 children: *Children and Youth at Risk in Times of Transition* Baard Herman Borge, Elke Kleinau, Ingvill Constanze Ødegaard, 2023-12-04 Children and youth belong to one of the most vulnerable groups in societies. This was the case even before the current humanitarian crises around the world which led millions of people and families to flee from wars, terror, poverty and exploitation. Minors have been denied human rights such as access to education, food and health services. They have been kidnapped, sold, manipulated, mutilated, killed, and injured. This has been and continues to be the case in both developed and developing countries, and it does not look as if the situation will improve in the near future. Rather, current geopolitical developments, political and economic uncertainties and instabilities seem to be increasing the vulnerability of minors, especially in the wars and armed conflicts currently being waged not only in Europe, but on almost every continent. How can risks children and youth are exposed to in times of transition be reduced? Which role do state agencies, non-governmental organisations, as well as children's coping strategies play in mitigating the vulnerabilities of minors? This volume addresses risks to which children and young people are exposed, especially in times of transition. The focus is on different groups of children in the European wartime and post-war societies of the Second World War, 'occupation children' in Germany, teenage National Socialist collaborators in Norway, and more recent cases such as child soldiers, refugee children, and children of European "Islamic State" fighters. The contributions come from international scholars and different academic disciplines (educational and social sciences, humanities, law, and international peace and conflict studies) and are based on historical, quantitative, and/or qualitative analyses.

Lee, 2018-10-12 For student research, this reference highlights the importance of Asian Americans in U.S. history, the impact of specific individuals, and this ethnic group as a whole across time; documenting evolving policies, issues, and feelings concerning this particular American population. Readers will also have access to primary source document excerpts that accompany the daily entries and serve as additional resources that help bring history to life. With this guide in hand, teachers will be able to more easily incorporate Asian American history into their classes, and students will find the book an easy-to-use guide to the Asian American past and an ideal jumping-off point for more targeted research.

lee sabine 5 children: Dutch Children of African American Liberators Mieke Kirkels, Chris Dickon, 2020-10-14 In the Netherlands, a small group of biracial citizens has entered its eighth decade of lives that have been often puzzling and difficult, but which offer a unique insight into the history of race relations in America. Though their African American fathers had brought liberation from Nazi tyranny at the end of World War II, they were in a segregated American military derived from a racially divided American society. Decades later, some of their children could finally know of a father's identity and the life he had led after the war. Just one would be able to find an embrace in his arms, and just one would arrive at her father's American grave after 73 years. But they could now understand their own Dutch lives in the context of their fathers' lives in America.

lee sabine 5 children: Challenging Conceptions Dipali Anumol, 2023 Tens of thousands of children worldwide have been born as a result of mass rape campaigns or wartime sexual exploitation. What about these living legacies of rape and sexual violence? What do we know about these children and their life chances? To explore these and other questions, *Challenging Conceptions* gathers together an interdisciplinary and international roster of scholars. They include professors and doctoral students in the fields of anthropology, gender studies, history, law, transitional justice, social work, and sociology among others. Some of these practitioners and scholars, as they explain in their chapters, are also themselves women who gave birth to children born of wartime sexual violence. The exchange of their voices and perspectives shines through in this collection to produce new and cutting-edge knowledge on children born of war time sexual violence.

lee sabine 5 children: Born of War in Colombia Tatiana Sanchez Parra, 2024-04-12 *Born of War in Colombia* addresses why people born of conflict-related sexual violence remain unseen within transitional justice agendas. In Colombia, there are generations of children born of conflict-related sexual violence across the country. Whispers of their presence have traveled outside their communities. They also exist within the country's domestic reparations program, which entitles them to reparations. Drawing on an immersive feminist ethnography with a community that endured a paramilitary confinement, the book reveals how a past-oriented and harm-centered model of transitional justice has converged with a restricted notion of gendered victimhood and the patriarchal politics of reproduction to render the bodies and experiences of people born of conflict-related sexual violence unintelligible to those seeking to understand and address the consequences of war in Colombia.

lee sabine 5 children: Life Lines: Writing Transcultural Adoption John McLeod, 2015-10-22 Adoptions that cross the lines of culture, race and nation are a major consequence of conflicts around the globe, yet their histories and representations have rarely been considered. *Life Lines: Writing Transcultural Adoption* is the first critical study to explore narratives of transcultural adoption from contemporary Britain, Ireland and America: fictions, films and memoirs made by those within the adoption 'triad' or those concerned with the pain and possibilities of transcultural adoption. While acknowledging the sobering inequalities which engender transcultural adoptions and the lasting upset of sundered relations, at the same time John McLeod considers the transfigurative and creative propensity of imagining transcultural adoption as radically calling into question ideas of biogenetic attachment, racial genealogy, cultural identity and normative family-making. How might the predicament of 'being adopted' transculturally enable the

transformative agency of 'adoptive being' for all? Exploring works by Andrea Levy, Barbara Kingsolver, Toni Morrison, Sebastian Barry, Caryl Phillips, Jackie Kay and several others, *Life Lines* makes a groundbreaking intervention in such fields as transcultural studies, postcolonial thought, and adoption theory and practice.

lee sabine 5 children: Imperial Intimacies Hazel V. Carby, 2021-10-12 Winner of the British Academy's Nayef Al-Rodhan Prize for Global Cultural Understanding 2020 Highly commended for PEN Hessel-Tiltman Prize 2020 A haunting and evocative history of British empire, told through one woman's family story "Where are you from?" was the question hounding Hazel Carby as a girl in post-war London. One of the so-called brown babies of the Windrush generation, born to a Jamaican father and Welsh mother, Carby's place in her home, her neighbourhood, and her country of birth was always in doubt. Emerging from this setting, Carby untangles the threads connecting members of her family in a web woven by the British Empire across the Atlantic. We meet Carby's working-class grandmother Beatrice, a seamstress challenged by poverty and disease. In England, she was thrilled by the cosmopolitan fantasies of empire, by cities built with slave-trade profits, and by street peddlers selling fashionable Jamaican delicacies. In Jamaica, we follow the lives of both the "white Carbys" and the "black Carbys," including Mary Ivey, a free woman of colour, whose children are fathered by Lilly Carby, a British soldier who arrived in Jamaica in 1789 to be absorbed into the plantation aristocracy. And we discover the hidden stories of Bridget and Nancy, two women owned by Lilly who survived the Middle Passage from Africa to the Caribbean. Moving between Jamaican plantations, the hills of Devon, the port cities of Bristol, Cardiff, and Kingston, and the working-class estates of South London, Carby's family story is at once an intimate personal history and a sweeping summation of the violent entanglement of two islands. In charting British empire's interweaving of capital and bodies, public language and private feeling, Carby will find herself reckoning with what she can tell, what she can remember, and what she can bear to know.

The contributors cover a wide range of topics, including the Soviet Secret Services, the military kommandaturas, Soviet occupation policies, the withdrawal of troops in 1955, everyday life, the image of "the Russians," violence against women, arrests, deportations, Soviet aid provisions, as well as children of occupation.

lee sabine 5 children: What Do We Know about Civil Wars? T. David Mason, Sara McLaughlin Mitchell, 2023-02-13 Since World War II, civil wars have replaced interstate wars as the most frequent and deadly form of armed conflict globally. How do we account for when and where civil wars are likely to occur, when and how they are likely to end, and whether or not they will recur? In this timely book, leading scholars accessibly guide students through cutting-edge research on the onset, duration, outcomes, and recurrence of civil wars, as well as the ongoing consequences of conflicts in war-torn countries such as Syria, Sudan, and Rwanda. In mapping out the current state of our knowledge about civil conflicts, the authors also identify what we do not know about civil wars. With a consistent approach across chapters and through a wide variety of cases, the contributors collectively help readers understand some of the most pressing questions in conflict and security studies and illustrates how scholars answer them. This authoritative text offers both an accessible and current overview of the state of the field and an agenda for future research. The second features: An entirely new chapter on pro-government militias and rebels as criminal groups (Chapter 16) Analysis of new trends in civil war data collection that have enabled us to understand

geographic and temporal patterns of armed conflict New directions in transitional justice institutions in post-conflict environments, the “resource curse,” the role of women, and the relationship between the environment and civil conflict New material on mediation of conflict and peace agreement implementation, and peacekeeping Examples drawn from the Russia-Ukraine conflict.

lee sabine 5 children: Encounters in the Rubble Erica J. Lansberg, 2025-08-12 The US occupation of Germany after World War II was a time in which encounters between American soldiers and young German civilians were especially ubiquitous. Overall, German children and youth played a fundamental role in the US occupation, impacting both personal and political relations. Using a blend of sources ranging from German children’s diaries to official US military records, this work provides a wide-reaching examination of the youngest civilians under occupation in the postwar aftermath of the Nazi regime. It centers on the personal experiences of both German children and American military personnel during the occupation, and also examines the ways that young Germans impacted transatlantic policies, especially in the context of the emerging Cold War, including during the Berlin Airlift. This work thus considers the youngest members of the occupied German population as important historical actors during a time of major transition from war to peace, marked by encounters made in the rubble.

Doch noch immer gibt es Bevölkerungsgruppen, die als Kollateralschäden des Krieges aus dem kollektiven Gedächtnis der Nationen schlichtweg herausfallen. Dieser Band thematisiert die Bedingungen und Folgen des Aufwachsens von Kindern des Krieges, insbesondere von Wehrmachts- und Besatzungskindern im Europa der Nachkriegszeit. Er kann aufzeigen, dass bis heute Spuren des Krieges in den Gesellschaften präsent sind, und lenkt den Blick auf die Erforschung von Bewältigungsstrategien.

lee sabine 5 children: Liberty and Security in an Anarchical World Volume II Brandon Christensen, 2024-12-16 The book takes a hard look at libertarian foreign policy doctrines, especially those of non-intervention, interstate federalism, and non-aggression, and applies new insights to these old doctrines. Classical liberal thinkers such as Vincent Ostrom, James Madison, and F.A. Hayek have all hinted at the idea of world governance from a libertarian standpoint. Yet today, “the libertarian position” on foreign policy is either non-intervention from the US side of the Atlantic or a halfhearted confederation from the European side of the Atlantic. The themes that emerge in this volume (II) are whether or not libertarian alternatives to the status quo are workable and, if so, what would they look like.

lee sabine 5 children: Empire, State, and Society Jamie L. Bronstein, Andrew T. Harris, 2012-02-20 EMPIRE, STATE, AND SOCIETY “This book captures the broad-sweep of modern British history. Bronstein and Harris’s narrative is distinguished by its comprehensive coverage, readability, and sure judgment. It is an excellent book.” James Epstein, Vanderbilt University “This is a well-structured and gracefully written textbook that undergraduates at American universities and colleges should find highly accessible. It integrates recent scholarly trends into a compelling narrative that brings together metropolitan and imperial themes. These themes are illuminated by well-chosen anecdotes that make them come alive. Bronstein and Harris have provided an excellent introduction to modern Britain and its Empire, and one that deserves a wide readership.” Phil Harling, University of Kentucky In the nineteenth century, Great Britain was a world-recognized

superpower. Tremendous economic growth fostered a daunting formal empire, global networks of trade and investment, and a formidable military. By the late twentieth century this position of dominance had eroded significantly under the stress of two world wars, rising nationalist movements, shifting geopolitics, and the transformation to a post-industrial economy. As Britain adjusts to her new place in the post-colonial world, *Empire, State, and Society* assesses the external and internal forces behind these transformations. The authors draw on the most recent scholarship to give due importance to social, economic, and cultural changes as well as politics and international diplomacy. Divided into chapters both chronologically and thematically, *Empire, State, and Society* enables detailed exploration of issues such as race, gender, religion, and the environment. In doing so, the book provides an accessible, comprehensive, and balanced introduction to British history.

lee sabine 5 children: Women and Genocide Elissa Bemporad, Joyce W. Warren, 2021-12-22 Essays that use gender as a critical lens for staging intersectional, multidisciplinary investigations of genocide in the 20th and 21st centuries (Reading Religion). The genocides of modern history—Rwanda, Armenia, Guatemala, the Holocaust, and countless others—and their effects have been well documented, but how do the experiences of female victims and perpetrators differ from those of men? In *Women and Genocide*, human rights advocates and scholars come together to argue that the memory of trauma is gendered and that women's voices and perspectives are key to our understanding of the dynamics that emerge in the context of genocidal violence. The contributors of this volume examine how women consistently are targets for the sexualized violence that serves as an instrument of ethnic cleansing, how female perpetrators take advantage of the new power structures, and how women are involved in the struggle for justice in post-genocidal contexts. By placing women at center stage, *Women and Genocide* helps us to better understand the nexus existing between misogyny and violence in societies where genocide erupts. It elegantly bridges the historical divide between the study of political violence and the study of gendered violence in the so-called domestic sphere . . . *Women and Genocide* is an immense scholarly accomplishment that has the potential to fund creative advances in each of the scholarly disciplines it engages, as well as human rights, peace, and anti-violence programs of advocacy. — Reading Religion
