nell dunn up the junction: Up the Junction Nell Dunn, 2000-04-14 Nell Dunn's scenes of London life, as it was lived in the early Sixties in the industrial slums of Battersea, have few parallels in contemporary writing. The exuberant, uninhibited, disparate world she found in the tired old streets and under the railway arches is recaptured in these closely linked sketches; and the result is pure alchemy. In the space of 120 perfect pages, we witness clip-joint hustles, petty thieving, candid sexual encounters, casual birth and casual death. She has a superb gift for capturing colloquial speech and the characters observed in these pages convey that caustic, ironic, and compassionate feeling for life, in which a turn of phrase frequently contains startling flashes of poetry. Battersea, that teeming wasteland of brick south of the Thames, has found its poet in Nell Dunn and *Up the Junction* is her touchingly truthful and timeless testimonial to it.

nell dunn up the junction: The Intersection of Class and Space in British Postwar Writing Simon Lee, 2022-12-29 Centering on the British kitchen sink realism movement of the late 1950s and early 1960s, specifically its documentation of the built environment's influence on class consciousness, this book highlights the settings of a variety of novels, plays, and films, turning to archival research to offer new ways of thinking about how spatial representation in cultural production sustains or intervenes in the process of social stratification. As a movement that used gritty, documentary-style depictions of space to highlight the complexities of working-class life, the period's texts chronicled shifts in the social and topographic landscape while advancing new articulations of citizenship in response to the failures of post-war reconstruction. By exploring the impact of space on class, this book addresses the contention that critical discourse has overlooked the way the built environment informs class identity.

nell dunn up the junction: Home in British Working-Class Fiction Nicola Wilson, 2016-03-09 *Home in British Working-Class Fiction* offers a fresh take on British working-class writing that turns away from a masculinist, work-based understanding of class in favour of home, gender, domestic labour and the family kitchen. As Nicola Wilson shows, the history of the British working classes has often been written from the outside, with observers looking into the world of the inhabitants. Here Wilson engages with the long cultural history of this gaze and asks how 'home' is represented in the writing of authors who come from a working-class background. Her book explores the depiction of home as a key emotional and material site in working-class writing from the Edwardian period through to the early 1990s. Wilson presents new readings of classic texts, including *The Ragged Trousered Philanthropists*, *Love on the Dole* and *Saturday Night and Sunday Morning*, analyzing them alongside works by authors including James Hanley, Walter Brierley, Lewis Grassic Gibbon, Buchi Emecheta, Pat Barker, James Kelman and the rediscovered 'ex-mill girl

novelist' Ethel Carnie Holdsworth. Wilson's broad understanding of working-class writing allows her to incorporate figures typically ignored in this context, as she demonstrates the importance of home's role in the making and expression of class feeling and identity.

The Moving Form of Film: Historicizing the Medium through Other Media charts the ways in which crossing borders between film and other arts and media can provide an encompassing, inclusive, and non-teleological understanding of film history. Evolutionary narratives of cinema have traditionally adopted the Second World War as a watershed that separates 'classical' Hollywood films from 'modern' European productions, a scheme that subjects the entire world to the cinematic history of two hegemonic centres. In turn, histories of film as a technological medium have focused on the specificity of cinema as it gradually separated from the other art and medial forms - theatre, dance, fairground spectacle, painting, literature, still photography and other pre-cinematic modes. Taking an ambitious step forward with relation to these approaches, this book focuses on the fluid quality of the film form by exploring an array of exciting and often neglected artistic expressions worldwide as they compare and interconnect films across temporal, geographical, and cultural borders. By observing the ebb and flow of film's contours within the bounds of other artistic and medial expressions, the chapters aspire to establish a flexible historical platform for the moving form of film, posited, from production to consumption, as a transforming and transformative medium.

British Fictions of the Sixties focuses on the major socio-political changes that marked the sixties in relationship to the development of literature over the decade. This book is the first critical study to acknowledge that the 1960s can only be understood if, next to its contemporary socio-political history, its fictions and mythologies are acknowledged as a vital constituent in the understanding of the decade. Groes uncovers a major epistemological shift, and presents a powerful meta-narrative about post-war literature in the UK, and beyond. British Fictions of the Sixties offers a re-examination of canonical writers such as Iris Murdoch, Angela Carter, Muriel Spark and John Fowles. It also pays critical attention to avant-garde writers including Ann Quinn, Bridget Brophy, Eva Figes, Christine Brooke-Rose, and J. G. Ballard, presenting a comprehensive insight into the continuing power the decade exerts on the contemporary imagination.

nell dunn up the junction: Literature and Culture in Modern Britain Clive Bloom, Gary Day, 2014-06-11
British culture has changed almost beyond recognition since 1956. Angry young men have been displaced by Yuppies, Elvis by the Spice Girls, and meat and two veg by continental cuisine. What is more, as the death of Diana, Princess of Wales showed, the British are now more famous for a trembling lower lip than a stiff upper one. This volume, the last in the series, examines the transformations in literature and culture over the last forty years. An introductory essay provides a context for the following chapters by arguing that although there have been significant changes in British life, there are also profound continuities. It also discusses the rise of 'theory' and its impact on the humanities. Each essay in the volume concentrates on a facet of British culture over the last half century from painting to poetry, from the seriousness of the novel to the postmodern ironies of the computing age. What we get from this selection is not only an informed history of the relations between literature and culture but also a lively sense of cultural change, not least of which is the

new found relationship between literature and other arts which ushers us into the new millennium.

nell dunn up the junction: *The 1960s* Philip Tew, James Riley, Melanie Seddon, 2018-07-26 How did social, cultural and political events in Britain during and leading up to the 1960s shape modern British fiction? The 1960s were the "swinging decade": a newly energised youth culture went hand-in-hand with new technologies, expanding educational opportunities, new social attitudes and profound political differences between the generations. This volume explores the ways in which these apparently seismic changes were reflected in British fiction of the decade. Chapters cover feminist writing that fused the personal and the political, gay, lesbian and immigrant voices and the work of visionary experimental and science fiction writers. A major critical re-evaluation of the decade, this volume covers such writers as J.G. Ballard, Anthony Burgess, A.S. Byatt, Angela Carter, John Fowles, Christopher Isherwood, Doris Lessing, Michael Moorcock and V.S. Naipaul.

nell dunn up the junction: *Credit and Community* Sean O'Connell, 2009-01-22 Credit and Community examines the history of consumer credit and debt in working class communities. Concentrating on forms of credit that were traditionally very dependent on personal relationships and social networks, such as mail-order catalogues and co-operatives, it demonstrates how community-based arrangements declined as more impersonal forms of borrowing emerged during the twentieth century. Tallymen and check traders moved into doorstep moneylending during the 1960s, but in subsequent decades the loss of their best working class customers, owing to increased spending power and the emergence of a broader range of credit alternatives, forced them to focus on the 'financially excluded'. This 'sub-prime' market was open for exploitation by unlicensed lenders, and Sean O'Connell offers the first detailed historical investigation of illegal moneylending in the UK, encompassing the 'she usurers' of Edwardian Liverpool and the violent loan sharks of Blair's Britain. O'Connell contrasts such commercial forms of credit with formal and informal co-operative alternatives, such as 'diddlum clubs', 'partners', and mutuality clubs. He provides the first history of the UK credit unions, revealing the importance of Irish and Caribbean immigrant volunteers, and explains the relative failure of the movement compared with Ireland. Drawing on a wide range of neglected sources, including the archives of consumer credit companies, the records of the co-operative and credit union movements, and government papers, Credit and Community makes a strong contribution to historical understandings of credit and debt. Oral history testimony from both sides of the credit divide is used to telling effect, offering key insights into the complex nature of the relationship between borrowers and lenders.

nell dunn up the junction: *Sexual Politics* Stephen Brooke, 2011-11-24 Sexual Politics explores the complex relationship between sexuality and socialist politics in Britain between the 1880s and the present day. Looking at birth control, abortion law reform, and gay rights, this is a timely examination of the relationship between the personal and the political over the last century and a half. Stephen Brooke tells the stories of individuals such as Edward Carpenter, Dora Russell, Sheila Rowbotham, Ken Livingstone, Peter Tatchell, and Tony Blair, and organizations like the Workers' Birth Control Group, the Abortion Law Reform Association, the National Abortion Campaign, and the Labour Campaign for Lesbian and Gay Rights. Sexual radicalism, first and second wave feminism, and gay liberation all feature in the book's portrait of the progress of sexual politics from the late nineteenth century to the early twenty-first century. Sexual Politics also offers an analysis of the Labour Party's long and sometimes ambiguous link to issues of sexuality, ending with the considerable contribution made to sex reform by the New Labour governments of 1997 to

2010. Sexual issues were always under the surface of Labour politics in the twentieth century, emerging forcefully in the 1970s and 1980s in a way that brought both division and unity to the party. Brooke stresses the importance of class and gender identity to the fate of sexual issues in British politics, the dynamic nature of British socialism, and the impact of sexual radicalism, feminism, and gay liberation upon socialist and working-class politics. *Sexual Politics* argues that the shifting relationship between the personal and the political is a central element of twentieth-century British history, a relationship that helped define the character of political modernity.

nell dunn up the junction: British Working-Class Fiction Roberto del Valle Alcalá, 2016-02-11 *British Fiction and the Struggle Against Work* offers an account of British literary responses to work from the 1950s to the onset of the financial crisis of 2008/9. Roberto del Valle Alcalá argues that throughout this period, working-class writing developed new strategies of resistance against the social discipline imposed by capitalist work. As the latter becomes an increasingly pervasive and inescapable form of control and as its nature grows abstract, diffuse, and precarious, writing about it acquires a new antagonistic quality, producing new forms of subjective autonomy and new imaginaries of a possible life beyond its purview. By tracing a genealogy of working-class authors and texts that in various ways defined themselves against the social discipline imposed by post-war capitalism, this book analyses the strategies adopted by workers in their

attempts to identify and combat the source of their oppression. Drawing on the work of a wide range of theorists including Deleuze and Guattari, Giorgio Agamben and Antonio Negri, Alcalá offers a systematic and innovative account of British literary treatments of work. The book includes close readings of fiction by Alan Sillitoe, David Storey, Nell Dunn, Pat Barker, James Kelman, Irvine Welsh, Monica Ali, and Joanna Kavenna.

nell dunn up the junction: The History of British Women's Writing, 1945-1975 Clare Hanson, Susan Watkins, 2017-09-14 This volume reshapes our understanding of British literary culture from 1945-1975 by exploring the richness and diversity of women's writing of this period. Essays by leading scholars reveal the range and intensity of women writers' engagement with post-war transformations including the founding of the Welfare State, the gradual liberalization of attitudes to gender and sexuality and the reconfiguration of Britain and the empire in the context of the Cold War. Attending closely to the politics of form, the sixteen essays range across 'literary', 'middlebrow' and 'popular' genres, including espionage thrillers and historical fiction, children's literature and science fiction, as well as poetry, drama and journalism. They examine issues including realism and experimentalism, education, class and politics, the emergence of 'second-wave' feminism, responses to the Holocaust and mass migration and diaspora. The volume offers an exciting reassessment of women's writing at a time of radical social change and rapid cultural expansion.
