one two buckle my shoe novel: Fatal Fascinations Suzanne Bray, Gérald Préher, 2014-07-18 What is crime? What constitutes violence? What is it permissible to talk about or describe in cultural depictions of crime and violence? What is the impact of portraying crime and violence on an audience? How are crime and violence presented to make them culturally acceptable for educational or entertainment purposes? This book examines representations of violence and crime both historically and in relation to contemporary culture across a wide range of media, including fiction, film, art, biography, and journalism, to interrogate the issues raised. While some articles here analyze the ethics invoked by different representative frameworks, the danger that violence will be treated as spectacle, and the implications of using violence as a polemical device to shift public sentiment, others address the relationship between coercive power, crime and violence that is not necessarily primarily physical, and the political or ideological contexts in which narratives of good and evil are constructed and crime defined.

one two buckle my shoe novel: Stylistic Manipulation of the Reader in Contemporary Fiction Sandrine Sorlin, 2019-12-12 This book focuses on how readers can be 'manipulated' during their experience of reading fictional texts and how they are incited to perceive, process and interpret certain textual patterns. Offering fine-grained stylistic analysis of diverse genres, including crime fiction, short stories, poetry and novels, the book deciphers various linguistic, pragmatic and multimodal techniques. These are skilfully used by authors to achieve specific effects through a subtle manipulation of deixis, metalepsis, dialogue, metaphors, endings, inferences or rhetorical, narratorial and typographical control. Exploring contemporary texts such as *The French Lieutenant's Woman*, *The Remains of the Day* and *We Need to Talk About Kevin*, chapters delve into how readers are pragmatically positioned or cognitively (mis)directed as the author guides their attention and influences their judgment. They also show how readers' responses can, conversely, bring about a certain form of manipulation as readers challenge the positions the texts invite them to occupy.
