rivals in the storm: Ragamuffin Man David Salter, 2017-11-27 You either lie down and die, or you fight. In 1938 a knockabout 11-year-old kid from Marrickville, Sydney, is suddenly confronted by mortality. His mother dies. His father has little time for him and at 14 he leaves school to learn a trade. In 2016 that same boy is a multi-millionaire. He owns - and runs - the Australian Development Corporation, Sydney City Marine, a host of associated companies and countless office and housing blocks. He is also one of the world's most successful sailors, having won Sydney-Hobart races in his Ragamuffin yachts and competed eight times for Australia in the Admiral's Cup. He jointly holds the record for the most America's Cup campaigns - all self-funded and managed personally. He is Syd Fischer, the Ragamuffin man, and he's known as perhaps the toughest and most uncompromising Australian businessman and sportsman of the past half century. This is the story of Fischer's remarkable life, and of his unrelenting quest to win the Sydney-Hobart Yacht Race one more time. 'It's as if Syd has suddenly decided that it's time to shrug off his lifelong reluctance to talk about himself and let us all now see what really makes him tick.' - Sir James Hardy

rivals in the storm: Team of Rivals Doris Kearns Goodwin, 2006-09-26 On May 18, 1860, William H. Seward, Salmon P. Chase, Edward Bates, and Abraham Lincoln waited in their

hometowns for the results from the Republican National Convention in Chicago. When Lincoln emerged as the victor, his rivals were dismayed and angry. Throughout the turbulent 1850s, each had energetically sought the presidency as the conflict over slavery was leading inexorably to secession and civil war. That Lincoln succeeded was the result of a character that had been forged by life experiences that raised him above his more privileged and accomplished rivals. He won because he possessed an extraordinary ability to put himself in the place of other men, to experience what they were feeling, to understand their motives and desires. This capacity enabled President Lincoln to bring his disgruntled opponents together, create the most unusual cabinet in history, and marshal their talents to preserve the Union and win the war.

rivals in the storm: *Rivals for Power* James A. Thurber, 2002 The first President Bush faced a long-entrenched Democratic majority in both houses of Congress. The first term Clinton entered into a unified government for the first time in many years, but all that changed in the midterm elections of 1994. The second President Bush faces a closely divided government whose balance could shift at any time. Through it all, the Presidential-Congressional rivalry continues unabated. What is it about the institutional relationship between Congress and the Presidency that ensures conflict even in the face of necessary cooperation? Here, well-known scholars and practitioners of Congressional-Presidential relations come together to explore both branches of government and what unites as well as divides them. Highlights include chapters on budgetary politics in a time of surplus, the impacts of campaign message and election mandates, and Congressional-Presidential relations during transitions. Case studies of budget battles, health care task forces, and armed conflicts in foreign lands lend concrete detail to political theory. First hand experience on the Hill and in the Oval Office-and everywhere in between-is reflected in each chapter. Although nothing can rival election 2000 for its challenges to both Congress and the Presidency, *Rivals For Power* shows how even an extraordinary electoral result is subject to the rules and rigors of Washington's built-in rivalry.

rivals in the storm: *Gordon Bennett and the First Yacht Race Across the Atlantic* Sam Jefferson, 2016-02-25 The 1866 transatlantic yacht race was a match that saw three yachts battle their way across the Atlantic in the dead of winter in pursuit of a \$90,000 prize. Six men died in the brutal and close-fought contest, and the event changed the perception of yachting from a slightly effete gentlemen's pursuit into something altogether more rugged and adventurous. The race also symbolized the beginning of America's 'gilded age', with its associated obscene wealth and largesse (the \$90,000 prize put up by the three contestants is about \$15 million in today's money), as well as the thawing of relations between the US and UK. The narrative focuses on the victorious yacht *Henrietta* and her owner James Gordon Bennett. Bennett was the son of the multimillionaire proprietor of the New York Herald, and a notorious playboy. His infamous stunts included driving his carriage through the streets of New York naked, tipping a railway porter \$30,000, and turning up at his own engagement party blind drunk and mistaking the fire for a urinal, which led to the coining of the phrase 'Gordon Bennett!'. However, Bennett was also a serious yachtsman and had served with distinction during the civil war aboard *Henrietta*, and he was the only owner to be aboard his own

boat during the race. Other characters include Bennett's captain Samuel Samuels (legendary clipper skipper, ex-convict and occasional vaudeville actor), financier Leonard Jerome, aboard Henrietta as race invigilator (he also happened to be grandfather to Winston Churchill) and Stephen Fisk, a journalist so desperate to cover the race that he evaded a summons to appear as a witness in court and instead smuggled himself aboard Henrietta in a crate of champagne. Using the framework of the race to discuss the various historical themes, there's ample drama, and the diverse and eccentric range of characters ensure that this is a book laced with plenty of human interest, scandal and adventure.
