the day to day pregnancy book: Women's Birthing Bodies and the Law Camilla Pickles, Jonathan Herring, 2020-11-26 This is the first book to unpack the legal and ethical issues surrounding unauthorised intimate examinations during labour. The book uses feminist, socio-legal and philosophical tools to explore the issues of power, vulnerability and autonomy. The collection challenges the perception that the law adequately addresses different manifestations of unauthorised medical touch through the lens of women's experiences of unauthorised vaginal examinations during labour. The book unearths several broader themes that are of huge significance to lawyers and healthcare professionals such as the legal status of women and their bodies. The book raises questions about women's experiences during childbirth in hospital settings. It explores the status of women's bodies during labour and childbirth where too easily they become objectified, and it raises important issues around consent. The book highlights links to the law on sexual offences and women's loss of power under the medical gaze. Women's Birthing Bodies and the Law includes contributions from leading feminist philosophers, healthcare professionals, and academics in healthcare and law, and offers pioneering analysis relevant to lawyers and healthcare professionals with an interest in medical law and ethics; feminist theory; criminal law; tort law; and human rights law.

the day to day pregnancy book: *Birth and Death in British Culture* Anette Pankratz, Claus-Ulrich Viol, Ariane de Waal, 2012-04-25 Why discuss birth and death when they lie outside discourse? And why look at them together when they are so much unlike each other, one the moment of fresh beginnings, joys, and the relative certainties of existence, the other the moment of life's end, grief, and the relative uncertainties of non-existence? Because it turns out that both events, while virtually unrepresentable, have spawned a host of representations, narratives, rites, and attempts at making sense of them; and because they may have more similarities than appears at first sight. The 13 interdisciplinary articles collected in this volume prove that looking at the two phenomena in tandem throws into sharp relief the distinct patterns and functions of each, while also highlighting some of the fundamental historical developments, cultural functions, and socio-political issues shared by both. The contributions take stock of the discourses of birth and death prevalent in British (and Western) culture, probing into the way the two phenomena have been subjected to strategies of medialisation, commodification, and bio-politics.

the day to day pregnancy book: *Modern Day Knight* Shawn Dotson, 2013-05-14 In the beginning, Steven Stanford had started off like any other normal kid, the desire to have a place he could call his own. In his back yard had grown a massive cottonwood tree, larger than any other tree in the neighborhood. There had been the initial complaints that allowing him to build a tree house would not only be an eyesore, but would also lower property values. After all, kids would use anything for building materials. Steven was not the average twelve-year-old. His father, Michael Stanford, was the foreman for Diamond Estate Homes. At age seven, during the summer vacations, Steven was more interested in spending his days with his father and the workers than playing ball with his friends. He had been fascinated to see bare ground transformed into a beautiful house. The love for the craft could be seen now as he and three friends painstakingly coated every finished piece of lumber with a durable water sealer over stained finish. The work completed was nearly all conception of the idea; Steven had shoveled snow and mowed lawns throughout the neighborhood so that he could purchase the materials on his own, from his father and the men on the construction sites. He learned the finer points of framing, fishing, and furnishing it, without the technical details, the multiple levels and handmade arched windows would not have been possible. As the boys stepped back to admire the final result, Steven took notice of the crowd gathering for the last hour on the street just to the side of his yard. There were parents with kids and cameras. A man and woman from a news van, and Vanessa, the most beautiful girl in his homeroom class this year. Steven couldn't believe she was actually looking at him! Summoning his courage, he raised his hand and smiled. Expecting her to ignore him as she had done all through school, but instead, she smiled and waved back. Unbelievably, he quickly glanced over his shoulder at his buddies. They were still admiring the tree house and its decks. It had really been him she had waved to! Guys! Check it out! It's Vanessa! Steven said, trying not to sound too excited. Embarrassing him, they ran to the railing and pointed right at her. Holy shit! Brian said, Her boobs are even bigger! Like you'd know what to do with them! Carl said, giving Brian a shove. More than you! At least I've seen boobs, real boobs! Forcing himself to look away, Steven looked annoyingly at Brian. Your sisters don't count. Bite me,

dill weed! Boobs are boobs. Steven dismissed his claim with a wave of his hand as he turned toward the lowered gangway stairs. It wasn't worth fighting over. Besides, Loris boobs were nothing new, but Steven would never admit to having taken her for a ride in his goat cart for the chance to feel them. On the ground, he lost his sight of Vanessa and feared she'd be gone by the time he opened the gate through the tall picket fence, but immediately spotted her again just as the reporter and her cameraman intercepted on the sidewalk. When he tried to skirt them, the woman blocked his path. Hi! I'm Linda Gray from channel four news. Is that your tree house? Yeah, he answered, relieved at seeing Vanessa walking toward him. It's very impressive. Did you build it all by yourself, or did your dad help you? My dad helped me with the electricity. It's the law. And my friends helped too. Your parents must be very proud. If it's all right with your folks, we'd like to do a story on it. Would you mind giving us a tour? Filing his thought was the question why Jessica stood smiling broadly just a foot away from him. She was so close that he could smell an intoxicating fragrance coming from her hair. Could a girl smell any better than she did right now? A hand in the middle of his back sent him stumbling forward causing him to bump into Vanessa. Geez, are you going to kiss her or stand here all day? Brian asked. The realization that the chest had pressed toget

the day to day pregnancy book: *The New American Cooking* Joan Nathan, 2011-03-22 Joan Nathan, the author of *Jewish Cooking in America*, *An American Folklife Cookbook*, and many other treasured cookbooks, now gives us a fabulous feast of new American recipes and the stories behind them that reflect the most innovative time in our culinary history. The huge influx of peoples from all over Asia--Thailand, Vietnam, Cambodia, India--and from the Middle East and Latin America in the past forty years has brought to our kitchens new exotic flavors, little-known herbs and condiments, and novel cooking techniques that make the most of every ingredient. At the same time, health and environmental concerns have dramatically affected how and what we eat. The result: American cooking has never been as exciting as it is today. And Joan Nathan proves it on every page of this wonderfully rewarding book. Crisscrossing the country, she talks to organic farmers, artisanal bread bakers and cheese makers, a Hmong farmer in Minnesota, a mango grower in Florida, an entrepreneur of Indian frozen foods in New Jersey, home cooks, and new-wave chefs. Among the many enticing dishes she discovers are a breakfast huevos rancheros casserole; starters such as Ecuadorean shrimp ceviche, Szechuan dumplings, and Malaysian swordfish satays; pea soup with kaffir leaves; gazpacho with sashimi; pasta dressed with pistachio pesto; Iraqi rice-stuffed Vidalia onions; and main courses of Ecuadorean casuela, chicken yasa from Gambia, and couscous from Timbuktu (with dates and lamb). And there are desserts for every taste. Old American favorites are featured, too, but often Nathan discovers a cook who has a new way with a dish, such as an asparagus salad with blood orange mayonnaise, pancakes made with blue cornmeal and pine nuts, a seafood chowder that includes monkfish, and a chocolate bread pudding with dried cherries.

Because every recipe has a story behind it, *The New American Cooking* is a book that is as much fun to read as it is to cook from--a must for every kitchen today.
