the family from one end street: *British Working-Class Writing for Children* Haru Takiuchi, 2017-08-21 This book explores how working-class writers in the 1960s and 1970s significantly reshaped British children's literature through their representations of working-class life and culture. Aidan Chambers, Alan Garner and Robert Westall were examples of what Richard Hoggart termed 'scholarship boys': working-class individuals who were educated out of their class through grammar school education. This book highlights the role these writers played in changing the publishing and reviewing practices of the British children's literature industry while offering new readings of their novels featuring scholarship boys. As well as drawing on the work of Raymond Williams and Pierre Bourdieu, and referring to studies of scholarship boys in the fields of social science and education, this book also explores personal interviews and previously-unseen archival materials. Yielding significant insights on British children's literature of the period, this book will be of particular interest to scholars and students in the fields of children's and working-class literature and of British popular culture.

the family from one end street: The Women Who Invented Twentieth-Century Children's Literature Elizabeth West, 2022-10-24 Publishing for children between 1930 and 1960 has been denigrated as a relatively fallow period for creativity and quality, certainly in comparison with the 'golden ages' of children's literature that preceded and succeeded it. This book questions this perception by using archival evidence to argue that the work of what was predominantly a female group of editors, illustrators, authors and librarians (collectively referred to as bookwomen) resulted in many titles which are still considered as 'classics' today. The bookwomen reframed ideas about how children's publishing should be approached and valued and, in doing so, laid the foundations for a subsequent generation of children's authors and publishers who were to achieve far greater prominence. The key to the success of the bookwomen was their willingness to experiment, the strength of their relationships and their comprehensive understanding of the book production process. By focusing on a selection of women working across all aspects of the book production process, this book demonstrates that, both individually and collectively, women capitalised on their position as 'other' to the existing male institutions.

the family from one end street: The Family in English Children's Literature Ann Alston, 2008-06-03 From the trials of families experiencing divorce, as in Anne Fine's *Madame Doubtfire*, to the childcare problems highlighted in Jacqueline Wilson's *Tracy Beaker*, it might seem that the traditional family and the ideals that accompany it have long vanished. However, in *The Family* in

English Children's Literature, Ann Alston argues that this is far from the case. She suggests that despite the tales of family woe portrayed in children's literature, the desire for the happy, contented nuclear family remains inherent within the ideological subtexts of children's literature. Using 1818 as a starting point, Alston investigates families in children's literature at their most intimate, focusing on how they share their spaces, their ideals of home, and even on what they eat for dinner. What emerges from Alston's study are not so much the contrasts that exist between periods, but rather the startling similarities of the ideology of family intrinsic to children's literature. The Family in English Children's Literature sheds light on who maintains control, who behaves, and how significant children's literature is in shaping our ideas about what makes a family good.

the family from one end street: *Bookworm* Lucy Mangan, 2018-03-01 A love letter to the joys of childhood reading from Wonderland to Narnia. When Lucy Mangan was little, stories were everything. They opened up new worlds and cast light on all the complexities she encountered in this one. She was whisked away to Narnia - and Kirrin Island - and Wonderland. She ventured down rabbit holes and winkle burrows into midnight gardens and chocolate factories. She wandered the countryside with Milly-Molly-Mandy, and played by the tracks with the Railway Children. With Charlotte's Web she discovered Death and with Judy Blume it was Boys. No wonder she only left the house for her weekly trip to the library or to spend her pocket money on amassing her own at home. In *Bookworm*, Lucy revisits her childhood reading with wit, love and gratitude. She relives our best-loved books, their extraordinary creators, and looks at the thousand subtle ways they shape our lives. She also disinters a few forgotten treasures to inspire the next generation of bookworms and set them on their way. Lucy brings the favourite characters of our collective childhoods back to life - prompting endless re-readings, rediscoveries, and, inevitably, fierce debate - and brilliantly uses them to tell her own story, that of a born, and unrepentant, bookworm. 'Passionate, witty, informed, and gloriously opinionated' Jacqueline Wilson author of *The Story of Tracy Beaker*
