till death us do part: *The Theology of Death* Douglas Davies, 2008-07-31 The first part of the book is grounded in biblical issues and in historical and philosophical theology. It seeks to establish several schemes of death theology related, for example, to early Christianity's Jewish cultural milieu, to belief in Christ's resurrection and to Christology, to issues of millennial belief and to an emergent liturgical practice. The rise of notions of the soul in relation to medieval thought and practice and the place of death in reformation theology are both covered, as is the role of the nineteenth and twentieth century. Finally the rise of biblical theology is considered, especially in the twentieth century. The second part of the book takes up several contemporary models of the theology of death. The first pursues a traditional acceptance of an other-worldly afterlife, the second explores worldly analysis of eternal life as a quality of contemporary existence devoid of any future state. The third develops the worldly model and considers a wider sense of self as a part of an ecological view of the world as a divine creation and explores the meaning of birth-life and death amidst a divine environment. *The Theology of Death* aims to offer some sharply defined schemes to focus thought in a Christian environment in which death, hell and heaven have almost lost their place. The topic of hope is a key element and the book explores the birth and fostering of hope within Christian traditions.

till death us do part: *The British Sitcom Spinoff Film* Stephen Glynn, 2023-12-07 This book constitutes the first full volume dedicated to an academic analysis of theatrically-released spinoff films derived from British radio and television sitcoms. Regularly maligned as the nadir of British film production and marginalised as a last resort for the financially-bereft industry during the 1970s, this study demonstrates that the sitcom spinoff film has instead been a persistent and important presence in British cinema from the 1940s to the present day, and includes (occasional) works with distinct artistic merit. Alongside an investigation of the economic imperative underpinning these productions, i.e. the exploitation of proven product with a ready-made audience, it is argued that, with a longevity stretching from Arthur Askey and his wartime *Band Waggon* (1940) to the crew of *Kurupt FM* and their recent *People Just Do Nothing: Big in Japan* (2021), the British sitcom spinoff can be interpreted as following a full generic 'life cycle'. Starting with the 'formative' stage where

works from *Hi Gang!* (1941) to *I Only Arsked!* (1958) establish the genre's characteristics, the spinoff genre moves to its 'classic' stage where, secure for form and content, it enjoys considerable popular success with films like *Till Death Us Do Part* (1969), *On the Buses* (1971), *The Likely Lads* (1976) and *Rising Damp* (1980); the genre's revival since the late-1990s reveals a more 'parodic' final stage, with films like *The League of Gentlemen's Apocalypse* (2005) adopting a consciously self-reflective mode. It is also posited that the sitcom spinoff film is a viable source for social history, with the often-stereotypical re-presentations of characters and events an (often blatant) ideological metonym for the concerns of wider British society, notably in issues of class, race, gender and sexuality.
