a court of thorns and roses collector s edition: Manuscript Verse Collectors and the Politics of Anti-Courtly Love Poetry Joshua Eckhardt, 2009-05-21 This book reappraises the work of early-seventeenth-century collectors of English Renaissance poetry in manuscript. The verse miscellanies, or poetry anthologies, of these collectors have long attracted the attention of literary

editors looking for texts by individual, major authors, and they have more recently interested historians for their poems on affairs of state, called verse libels. By contrast, this book investigates the relationships that the compilers of miscellanies established between such presumably literary and political texts. It focuses on two of the most popular, and least printable, literary genres that they collected: libels, and anti-courtly love poetry, a literary mode that the collectors of John Donne's poems played a major role in establishing. They made Donne the most popular poet in manuscripts of the period, and they demonstrated a special affinity for his most erotic or obscene poems, such as 'To his Mistress going to bed' and 'The Anagram'. Donne collectors also exhibited the similarities between these Ovidian love elegies and the sexually explicit or counter-Petrarchan verse of other authors, thereby organizing a literary genre opposed to the conventions of courtly love lyrics. Furthermore, collectors politicized this genre by relating examples of it to libels. In so doing, manuscript verse collectors demonstrated a type of literary and political activity distinct from that of authors, stationers, and readers. Based on a thorough investigation of manuscript verse miscellanies, the book appeals to scholars and students of early modern English literature and history, Donne studies, manuscript studies, and the history of the book.

Curtis, 2024-01-04 *New Directions in Childhood Studies: Innocence, Trauma, and Agency in the Twenty-first Century* acknowledges that the conceptual frameworks for understanding the experience of childhood in the twentieth century are no longer adequate and offers important updates to the construct of American childhood. The chapters in this collection examine contemporary children's literature, film, and video games to explore the ways in which everyday realities like trauma, disaster, and death impact the experience of childhood in America today. In many ways, the essays show, the narratives blur traditional lines between children's and adult content, taking children series as subjects while also guiding them through the processes of dealing with the particular challenges. Collectively, the essays develop a more contemporary construct of the American child and offer new insights into what that construction might mean for contemporary American society and culture.

a court of thorns and roses collector s edition: *"The" Athenaeum* , 1889

a court of thorns and roses collector s edition: *Medicine and Humanism in Late Medieval Italy* Sarah R. Kyle, 2016-08-12 This book is the first study to consider the extraordinary manuscript now known as the Carrara Herbal (British Library, Egerton 2020) within the complex network of medical, artistic and intellectual traditions from which it emerged. The manuscript contains an illustrated, vernacular copy of the thirteenth-century pharmacopeia by Ibn Sarābī, an Arabic-speaking Christian physician working in al-Andalus known in the West as Serapion the Younger. By 1290, Serapion's treatise was available in Latin translation and circulated widely in medical schools across the Italian peninsula. Commissioned in the late fourteenth century by the prince of Padua, Francesco II 'il Novello' da Carrara (r. 1390-1405), the Carrara Herbal attests to the growing presence of Arabic medicine both inside and outside of the University. Its contents speak to the Carrara family's historic role as patrons and protectors of the Studium, yet its form – a luxury book in Paduan dialect adorned with family heraldry and stylistically diverse representations of plants – locates it in court culture. In particular, the manuscript's form connects Serapion's treatise to patterns of book collection and rhetorics of self-making encouraged by humanists and practiced by Francesco's ancestors. Beginning with Petrarch (1304-74) and continuing with Pier Paolo Vergerio (ca. 1369-1444), humanists held privileged positions in the Carrara court, and humanist culture vied with the University's successes for leading roles in Carrara self-promotion. With the other illustrated books in the prince's collection, the Herbal negotiated these traditional arenas of family patronage and brought them into confluence, promoting Francesco as an ideal 'physician prince' capable of ensuring the moral and physical health of Padua. Considered in this way, the Carrara Herbal is the product of an intersection between the Pan-Mediterranean transmission of medical knowledge and the rise of humanism in the Italian courts, an intersection

typically attributed to the later Renaissance.

a court of thorns and roses collector s edition: *Still Reading Romance* Josefine Smith, Kathleen W. Taylor Kollman, 2025-04-01 In a world that commodifies feminism, is adapting romance novels for small and big screen projects, and the Romance Writers Association is evolving to a more inclusive representative group, it is imperative for researchers to reevaluate the cultural assumptions and gender norming work happening in the romance genre. It is time to question the cultural capital of traditional archetypes, explore the experience of romance readers, and question how romance and cultural studies researchers create quantitative, qualitative, and mixed methods research. This work centers around a data set collected with a revised version of Janice Radway's Reading the Romance survey that will be shared with all the authors of this anthology. By having access to this pool, authors will have the opportunity to explore different elements of reader experience and cultural norms in romance fiction, and potentially reflect on changes since Janice Radway's seminal work. The norms and negotiations readers experience while consuming romance is especially interesting as romancelandia becomes a more mainstream part of popular culture with the popularity of Bridgerton and romance series like Ice Planet Barbarians exploding on BookTok. No other book in romance or popular culture studies identifies a data set as the connecting element, and to do so creates an exciting opportunity to create a more inclusive study of popular romance, offer truly interdisciplinary research on the question of how readers read romance, and generate diverse areas of future scholarship. This edited volume explores multiple issues in romance fiction, based on survey data from real romance readers. An updated version of Janice Radway's influential survey looking at romance readers in the early 1980s, this time scholars explore romance readers' habits and attitudes in the twenty-first century. Each contributor in this volume uses the same survey data to make unique statements about gender, intersectionality, popular fiction, and popular culture. By using a common data set but approaching it from different perspectives, this unique volume is able to apply multiple methodologies to the same subject.
