alan partridge signed book: Easily Distracted Steve Coogan, 2015-10-08 Steve Coogan was born and raised in Manchester in the 1960s, the fourth of six children. From an early age he entertained his family with impressions and was often told he should 'be on the telly'. Failing to get into any of the London-based drama schools, he accepted a place at Manchester Polytechnic School of Theatre and before graduating had been given his first break as a voice artist on the satirical puppet show Spitting Image. The late eighties and early nineties saw Coogan developing characters he could perform on the comedy circuit, from Ernest Moss to Paul Calf, and in 1992 he won a Perrier award with John Thomson. It was around the same time, while working with Armando Iannucci and Patrick Marber on *On The Hour* and *The Day Today*, that Alan Partridge emerged, almost fully formed. Coogan, once a tabloid fixture, is now a respected film actor, writer and producer. He runs his own production company, Baby Cow, has a raft of films to his name (from *24 Hour Party People* to *Alpha Papa*, the critically-acclaimed Partridge film), six Baftas and seven Comedy Awards. He has found huge success in recent years with both *The Trip* and *Philomena*, the latter bringing him two Oscar nominations, for producing and co-writing. In *Easily Distracted* he lifts the lid on the real Steve Coogan, writing with distinctive humour and an unexpected candour about a noisy childhood surrounded by foster kids, his attention-seeking teenage years and his emergence as a household name with the birth of Alan Partridge.

alan partridge signed book: Affective Politics of the Global Event James Brassett, 2018-05-23 Market life is increasingly conducted in the shadow of global events like 9/11, the Sub-Prime crisis and Brexit. Within International political economy (IPE) two broad positions can be discerned: either the event is 'just an event', a superficial spectacle in an otherwise straightforward story of power and hierarchy; or the event is large enough to be considered a 'crisis'. While sympathetic to such arguments, this book develops a more performative politics of the global event, arguing that the very idea of the event must be placed in question. How is the event constructed? How are market subjects performed in relation to the event? This book argues that emotional and psychological discourses of 'trauma' and 'resilience' provide an important affective register for understanding how the global event is 'known', how it is governed, and how the affective dimensions of market life might be lived. By identifying the contingent rise of these discourses, the author de-stabilises and re-politicises the apparent existential veracity of the global event. The critical possibilities and limits of the affective turn in market life can then be rendered according to classic questions of IPE: who wins, who loses, and how might it be changed? An important work for advanced scholars and students of international political economy, 'everyday and cultural political economy', crisis and resilience, as well as broader debates on globalisation.

alan partridge signed book: Happy Half-Hours A. A. Milne, 2020-10-27 A delightful selection of articles by the ever-popular A. A. Milne, many of which haven't been in print for decades. Introduced by the prize-winning children's author Frank Cottrell Boyce, this volume brings Milne's brilliant non-fiction back to the spotlight. A. A. Milne was a successful writer long before the classic Winnie-the-Pooh stories made him famous. Milne had a talent for regularly turning out a thousand whimsical words on lost hats and umbrellas, golf, married life, cheap cigars, and any amount of life's little difficulties. This anthology, spanning four decades of Milne's life, includes his fiercely argued writings on pacifism. *Happy Half-Hours* features the very best of A. A. Milne in one delightful volume. "Milne's gift to write amusingly about the most trivial things is a kind of blessing. The kind that can put you back together again when all else fails." —Frank Cottrell-Boyce, from his introduction

alan partridge signed book: Human Factors Models for Aviation Accident Analysis and Prevention Thomas G.C. Griffin, Mark S. Young, Neville A. Stanton, 2017-03-02 The investigation and modelling of aviation accident causation is dominated by linear models.

Aviation is, however, a complex system and as such suffers from being artificially manipulated into non-complex models and methods. This book addresses this issue by developing a new approach to investigating aviation accident causation through information networks. These networks centralise communication and the flow of information as key indicators of a system's health and risk. This holistic approach focuses on the system environment, the activity that takes place within it, the strategies used to conduct this activity, the way in which the constituent parts of the system (both human and non-human) interact and the behaviour required. Each stage of this book identifies and expands upon the potential of the information network approach, maintaining firm focus on the overall health of a system. The book's new model offers many potential developments and some key areas are studied in this research. Through the centralisation of barriers and information nodes the method can be applied to almost any situation. The application of Bayesian mathematics to historical data populations provides scope for studying error migration and barrier manipulation. The book also provides application of these predictions to a flight simulator study for the purposes of validation. Beyond this it also discusses the applicability of the approach to industry. Through working with a legacy airline the methods discussed are used as the basis for a new and prospective safety management system.

alan partridge signed book: Mockumentary Comedy Richard Wallace, 2018-07-13

This book is the first to take comedy seriously as an important aspect of the popular mockumentary form of film and television fiction. It examines the ways in which mockumentary films and television programmes make visible—through comedy—the performances that underpin straight documentaries and many of our public figures. Mockumentary Comedy focuses on the rock star and the politician, two figures that regularly feature as mockumentary subjects. These public figures are explored through detailed textual analyses of a range of film and television comedies, including *A Hard Day's Night*, *This is Spinal Tap*, *The Thick of It*, *Veep* and the works of Christopher Guest and Alison Jackson. This book broadens the scope of existing mockumentary scholarship by taking comedy seriously in a sustained way for the first time. It ultimately argues that the comedic performances—by performers and of documentary conventions—are central to the form's critical significance and popular appeal.

alan partridge signed book: Closures Grace Lavery, 2024-01-26 From *The Mary Tyler Moore Show* to *Arrested Development* to *BoJack Horseman*, the American sitcom revolves around crises that must be resolved by episode's end, with a new crisis to come next week. In *Closures*, Grace Lavery reconsiders the genre's seven-decade history as an endless cycle of crisis and closure that formally and representationally frames heterosexuality as constantly on the verge of both collapse and reconstitution. She shows that even the normiest family-based sitcoms rely on queer characters like Alice (*The Brady Bunch*) and Steve Urkel (*Family Matters*) who highlight how the family is perpetually incomplete and unstable. Analyzing the genre's techniques and devices such as the laugh track and the cringe pan, Lavery also charts the shift to friend-group and workplace sitcoms like *Friends* and *The Office*, which she contends reflect a weakening of social ties in ways that place characters in an unending state of becoming. With this capacious yet svelte queer and trans theorization of the sitcom, Lavery demonstrates that the family ties that bind the genre's normative heterosexuality are far more tenuous than we have been led to believe.

alan partridge signed book: *Sustainable Materials without the hot air* Julian Allwood, Jonathan Cullen, 2015-09-03 Now in its second edition, *Sustainable Materials* shows how we can greatly reduce the amount of material demanded and used in manufacturing, while still meeting everyone's needs. Materials, transformed from natural resources into the buildings, equipment, vehicles and goods that underpin our remarkable lifestyle, are made with amazing efficiency. But our growing demand is not sustainable. Production of just five materials – steel, aluminium, paper, plastics and cement – accounts for 55% of industrial emissions, and demand

for materials will double by 2050. Can we continue to live well but use less materials? So far people have considered the problem with only one eye open, hoping for a magic solution (such as carbon capture and storage). But with both eyes open we have a whole new set of options. Rather than making more materials, we can use them more wisely – with less material, keeping them for longer, re-using their parts and more. These options make a huge difference: we really could set up our children with a more sustainable life, without compromising our own. Sustainable Materials faces up to the impacts of making materials in the 21st century. Drawing on their experiences working with innovative materials as well as the facts and findings of their research, Julian Allwood and Jonathan Cullen provide an evidence-based vision of change that will allow us to make our future more sustainable. Packed with hundreds of colour photos and helpful graphs and diagrams, Sustainable Materials provides a thorough analysis of the problems that we face through wasteful attitudes and the growing demand for materials, as well as an evaluation of practical and achievable solutions for the future. The first edition of this optimistic and richly-informed book was listed as one of Bill Gate's top reads in 2015, and was also chosen as an Outstanding Academic Title by ACRL Choice magazine. This up-to-date, revised edition is perfect for anyone with an interest in sustainability.

alan partridge signed book: Benedict Cumberbatch - The Biography Justin Lewis, 2015-04-02 Benedict Cumberbatch has played detective and monster, barrister and scientist, politician and painter, comic and spy. Still only in his thirties, he has become one of Britain's foremost acting talents, excelling in theatre, television, radio and cinema. With a string of starring and supporting roles, he has portrayed contemporary icons, historical figures and fictional favourites, from Stephen Hawking, to William Pitt the Younger, to Frankenstein. He has become a radio comedy staple too, as the bungling airline pilot Captain Martin Crieff, in Radio 4's Cabin Pressure. But inevitably, he is still best known for his idiosyncratic and boldly 21st century incarnation of Sherlock Holmes in the BBC TV series, Sherlock. In this book, Justin Lewis traces Benedict Cumberbatch's career to date, from his early promise in Harrow

School plays, through his first supporting roles in film, theatre and TV, to national and international acclaim. He examines his considerable contributions not only to Sherlock, but also to Sir Tom Stoppard's adaptation of *Parade's End* on television, and to feature films such as *Tinker, Tailor, Soldier, Spy*, *Star Trek Into Darkness* and *War Horse*.

alan partridge signed book: Dancefloor-Driven Literature Simon A. Morrison, 2020-05-14 Almost as soon as 'club culture' took hold - during the UK's Second Summer of Love in 1988 - its sociopolitical impact became clear, with journalists, filmmakers and authors all keen to use this cultural context as source material for their texts. This book uses that electronic music subculture as a route into an analysis of these principally literary representations of a music culture: why such secondary artefacts appear and what function they serve. The book conceives of a new literary genre to accommodate these stories born of the dancefloor - 'dancefloor-driven literature'. Using interviews with Irvine Welsh, author of *Trainspotting* (1994), alongside other dancefloor-driven authors Nicholas Blincoe and Jeff Noon as case studies, the book analyzes three separate ways writers draw on electronic dance music in their fictions, interrogating that very particular intermedial intersection between the sonic and the linguistic. It explores how such authors write about something so subterranean as the nightclub scene, and analyses what specific literary techniques they deploy to write lucidly and fluidly about the metronomic beat of electronic music and the chemical accelerant that further alters that relationship.

alan partridge signed book: Welcome to Everytown Julian Baggini, 2013-07-04 This study of an ordinary town in Northern England is "a thoughtful, sympathetic portrait of white working-class life...essential reading" (Guardian). What do the English think? Every country has a dominant set of beliefs and attitudes concerning everything from how to live a good life, how we should organize society, and the roles of the sexes. Yet despite many attempts to define England's national character, what might be called the nation's philosophy has remained largely unexamined until now. Philosopher Julian Baggini pinpointed postcode S66 on the outskirts of Rotherham as England in microcosm—an area that reflected most accurately the full range of the nation's inhabitants, its most typical mix of urban and rural, old and young, married and single. He then spent six months living there, immersing himself in this typical English Everytown, in order to get to know the mind of a people. It sees the world as full of patterns and order, a view manifest in its enjoyment of gambling. It has a functional, puritanical streak, evident in its notoriously bad cuisine. In the English mind, men should be men and women should be women (but it's not sure what children should be). Sympathetic but critical, serious yet witty, Baggini's account of the English as represented by this particular spot on its map is both a portrait of its people and a personal story about being an alien in your own land. "Baggini turns out to be a sensitive observer who takes people and places on their own terms. He is also good at examining his own prejudices and fears."—Independent "An insightful and often amusing investigation of what it means to be English."—London Review of Books

alan partridge signed book: *The Life and Letters of William Sharp and "Fiona Macleod"*. Volume 3: 1900-1905 William F. Halloran, 2020-09-28 What an achievement! It is a major work. The letters taken together with the excellent introductory sections - so balanced and judicious and informative - what emerges is an amazing picture of William Sharp the man and the writer which explores just how fascinating a figure he is. Clearly a major reassessment is due and this book could make it happen. —Andrew Hook, Emeritus Bradley Professor of English and American Literature, Glasgow University William Sharp (1855-1905) conducted one of the most audacious literary deceptions of his or any time. Sharp was a Scottish poet, novelist, biographer and editor who in 1893 began to write critically and commercially successful books under the name Fiona Macleod. This was far more than just a pseudonym: he

corresponded as Macleod, enlisting his sister to provide the handwriting and address, and for more than a decade Fiona Macleod duped not only the general public but such literary luminaries as William Butler Yeats and, in America, E. C. Stedman. Sharp wrote I feel another self within me now more than ever; it is as if I were possessed by a spirit who must speak out. This three-volume collection brings together Sharp's own correspondence – a fascinating trove in its own right, by a Victorian man of letters who was on intimate terms with writers including Dante Gabriel Rossetti, Walter Pater, and George Meredith – and the Fiona Macleod letters, which bring to life Sharp's intriguing second self. With an introduction and detailed notes by William F. Halloran, this richly rewarding collection offers a wonderful insight into the literary landscape of the time, while also investigating a strange and underappreciated phenomenon of late-nineteenth-century English literature. It is essential for scholars of the period, and it is an illuminating read for anyone interested in authorship and identity.

alan partridge signed book: The Comic Turn in Contemporary English Fiction Huw Marsh, 2020-07-09 The Comic Turn in Contemporary English Fiction explores the importance of comedy in contemporary literature and culture. In an era largely defined by a mood of crisis, bleakness, cruelty, melancholia, environmental catastrophe and collapse, Huw Marsh argues that contemporary fiction is as likely to treat these subjects comically as it is to treat them gravely, and that the recognition and proper analysis of this humour opens up new ways to think about literature. Structured around readings of authors including Martin Amis, Nicola Barker, Julian Barnes, Jonathan Coe, Howard Jacobson, Magnus Mills and Zadie Smith, this book suggests not only that much of the most interesting contemporary writing is funny and that there is a comic tendency in contemporary fiction, but also that this humour, this comic licence, allows writers of contemporary fiction to do peculiar and interesting things – things that are funny in the sense of odd or strange and that may in turn inspire a funny turn in readers. Marsh offers a series of original critical and theoretical frameworks for discussing questions of literary genre, style, affect and politics, demonstrating that comedy is an often neglected mode that plays a generative role in much of the most interesting contemporary writing, creating sites of rich political, stylistic, cognitive and ethical contestation whose analysis offers a new perspective on the present.
